About the Book

The research report titled Emerging Opportunities in Booming INDIAN MAIZE PROCESSING INDUSTRY-Corn Starch, Dextrose, Liquid Glucose, Sorbitol, Gluten Meal, Germ Oil (Why to Invest, Core Project Financials, Potential Buyers, Market Size & Analysis) released by Niir Project Consultancy Services aims at providing a roadmap for investing into the sector by covering all the critical data required by any entrepreneur vying to venture into maize starch segment in India.
While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line. And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:
• Good Present/Future Demand
• Export-Import Market Potential
• Raw Material & Manpower Availability
• Project Costs and Payback Period
We at NPCS, through our reliable expertise in the project consultancy and market research field, have identified maize starch & allied products project, in the maize processing segment, which satisfies all the above mentioned requirements and has high growth potential in the Indian markets. And through this report we aim to help you make sound and informed business decision.
The report contains all the data which will help an entrepreneur find answers to questions like:
• Why I should invest in maize starch project?
• Who are the customers of the product?
• What will drive the growth of the product?
• What are the costs involved?
• What will be the market potential?
The report embarks the analysis by enhancing the basic product knowledge of the capitalist by stating details like product definition, product uses & application, by-products & related products and a general overview of the product market. In here, the report provides an overview of the maize starch market along with a snapshot of maize crop market in India. The report further enlightens the entrepreneur about the potential buyers of the

product, Maize starch which will help him identify his customers and place his product correctly. It is followed by a detailed analysis & enumeration of various factors that makes the case for investing in the sector along with graphical representation and forecasts of key consumer data. The report further assesses the market potential of the product by listing import-export markets of maize starch & allied products, recent developments in the sector and by providing sector outlook and market size.
The report then turns the focus towards manufacturing side of maize starch & allied products. It provides project financials of a model project with specified product list and plant capacity along with excise and customs duty rates for maize starch for year 2013-14. It enumerates project information like raw materials required for manufacturing maize starch & allied products, manufacturing process, list of machinery and basic project financials. Project financials like plant capacity, costs involved in setting up of project, working capital requirements, payback period, projected revenue and profit are listed in the report. The above mentioned project details are for maize starch, sorbitol, dextrose, liquid glucose, vitamin C, germ oil and gluten feed plant. The report also provides key players in the segment with their contact details.
Starch Industry is often termed as ‘Sunrise Industry’ due to its high growth potential and omnipresence across various other industries. This report helps an entrepreneur gain meaningful insights into the sector and make informed and sound business decision.

Reasons for buying the report:
• This report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, demand of the product and reasons for investing in the product
• This report provides vital information on the product like its definition, characteristics and segmentation
• This report helps you market and place the product correctly by identifying the target customer group of the product
• This report helps you understand the viability of the project by disclosing details like raw materials required, manufacturing process, project costs and snapshot of other project financials
• The report provides a glimpse of important taxes applicable on the product
• The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions
Our Approach:
• Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.
• The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players
• We use reliable sources of information and databases. And information from such sources is processed by us and included in the report

Contents

TABLE OF CONTENTS
1. OVERVIEW
1.1 Product Definition
1.2 Product Uses & Applications
1.3 By-Products of Corn Starch
2. POTENTIAL BUYERS
3. REASONS FOR INVESTING IN THE SECTOR
3.1 Rising Food Industry
3.2 Booming Pharmaceutical Industry
3.3 Whopping Indian Textile Behemoth
3.4 Rising Paper Consumption
3.5 Value Added Applications

4. IMPORT-EXPORT MARKETS
5. EXCISE & CUSTOM DUTY RATES
6. RECENT DEVELOPMENTS
7. OUTLOOK & MARKET SIZE
8. PROJECT DETAILS
8.1 Raw Materials Required
8.2 Manufacturing Process
8.2.1 Wet Milling Process
8.2.2 Process Flow of Starch & By-products
8.3 List of Machinery
8.4 Project Financials
9. PRESENT PLAYERS
10. ABOUT NPCS
11. DISCLAIMER

LIST OF FIGURES & TABLES

Figure 1 Consumption Pattern of Maize in India
Figure 2 Classification of Starch
Figure 3 Indian Processed Food Industry- Market Size (2012-17, In INR Billions)
Figure 4 Per Capita Consumption of Medicines in Major Countries (In USD)
Figure 5 Indian Pharmaceutical Industry- Market Size (2012-17, In INR Billions)
Figure 6 Indian Textile Industry- Market Size (2012-17, In INR Billions)
Figure 7 Paper Consumption in India (2012-17, In Million Tonnes)

Table 1 Top Export Destinations of Maize Starch & Related Products
Table 2 Top Import Source Countries of Maize Starch & Related Products
Table 3 Central Excise Rates on Various Starches (2013-14)
Table 4 Custom Duty Rates on Various Starches (2013-14)
Table 5 Type of Maize & Its Contents
Table 6 List of Machinery for Maize Starch Plant
Table 7 List of Machinery for Liquid Glucose & Dextrose Plant
Table 8 List of Machinery for Sorbitol Plant
Table 9 Maize Starch & Other Related Products Plant- Plant Capacity
Table 10 Maize Starch & Other Related Products Plant- Production Schedule
Table 11 Maize Starch & Other Related Products Plant- Fixed Capital Requirements
Table 12 Maize Starch & Other Related Products Plant- Monthly Working Capital Requirements
Table 13 Maize Starch & Other Related Products Plant- Total Cost of Project
Table 14 Maize Starch & Other Related Products Plant- Product Wise Turnover (Per Annum)
Table 15 Maize Starch & Other Related Products Plant- 5Year Profit Analysis (INR Million)
Table 16 Maize Starch & Other Related Products Plant- Projected Pay Back Period
Table 17 Contact Details of Starch Manufacturing Companies

Planning a unit? NPCS project reports:

- Maize Starch project report
- Sorbitol project report
- A4 Size Paper project report
- Maize and Its By-products project report

NIIR PROJECT CONSULTANCY SERVICES (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our various services are: Detailed Project Report, Business Plan for Manufacturing Plant, Start-up Ideas, Business Ideas for Entrepreneurs, Market Research, Manufacturing Process, Machinery, Raw Materials, Project Feasibility, Investment Opportunities, Technical Consultancy and Startup Help.

NPCS also publishes process technology books, technical books, startup books, directory, business database, detailed project reports and market research reports.

Our Detailed Project Report aims at providing all the critical data required by entrepreneurs for starting new business ventures.
