About the Book

The Complete Book on Coconut & Coconut Products

(Coconut Cultivation, Manufacturing Process of Coconut Oil, Desiccated Coconut, Coconut Powder, Coconut Milk, Coconut Milk Powder, Coconut Chips, Coconut Water, Vinegar, Activated Carbon, Coconut Jam with Machinery Equipment Details & Factory Layout) 3rd Edition

The coconut is a fruit of the palm tree, which grows in tropical regions. The white flesh flour. The manufacturing process of these products begins with the harvesting of coconuts from the trees. This book provides valuable information on coconut and its products. It covers topics such as the history of coconuts, the benefits of coconuts, and how to manufacture coconut Products. This book is a must-read for anyone interested in learning more about this amazing fruit! This book would be great for everyone who wants to learn more about coconut and its products.

If you're thinking about starting a business centered on coconuts, you're on the right track. Coconuts are a versatile product that can be used in a variety of ways, from cooking to cosmetics. Plus, they're a popular health food trend, so there's sure to be a market for your products. As with any new venture, it is important to do your research before diving in head first. Here is a guide to get you started on your coconut journey! The coconut oil market size is valued at CAGR of 5.1%. The desiccated coconut powder. Market is projected to register a CAGR of 7.45%. The global coconut milk market at a CAGR of 17.3%. The global coconut water market size growth rate (CAGR) of 16.1%. The global activated carbon market is estimated at a CAGR of 9.3%.

Coconut oil are widely consumed in food industries among other coconut products. Many Asian and European countries widely use coconut products in food and bakery industries. Rise in awareness about benefits and functional properties of coconut products including coconut oil is leads to increase in its demand in food industry across the globe. Increase in consumer preferences for organic ingredients to be used in their foods is

anticipated to boost the demand for organic desiccated coconut powder, thereby offering remunerative opportunities for market expansion in the near future. Coconut milk/cream is processed and preserved in different ready to use forms, such as canned products, pouches, and dehydrated form. Coconut milk and cream are used mainly in food and bakery industry. In addition, it has also been used in cosmetics and personal care industries in the recent past and is expected to experience incremental demand in the near future. The aforementioned healthy ingredients make it the best rehydration drink, thereby increasing its adoption among gym-goers and athletes. Such health benefits are anticipated to boost the demand for coconut water across the globe.

A complete guide to the Coconut & Coconut Products Manufacturing : Coconut Cultivation, Manufacturing Process of Coconut Oil, Desiccated Coconut, Coconut Powder, Coconut Milk, Coconut Milk Powder, Copra, Coconut Chips, Coconut Water, Vinegar, Activated Carbon, Coconut Jam. It's a veritable feast of how-to information, from concept through equipment acquisition.

Contents

1. INTRODUCTION
    1. Fruit
    2. Roots
    3. Inflorescence
    4. Taxonomy
        1. *Phylogeny*
        2. *Etymology*
    5. Production and cultivation
        1. *Cultivation*
        2. *Cultivars*
        3. *Harvesting*
    6. Uses
    7. Culinary Uses
        1. *Nutrition*
        2. *Coconut Meat*
        3. *Macapuno*
        4. *Coconut Milk*
        5. *Coconut Water*
        6. *Coconut Flour*
        7. *Sprouted Coconut*
        8. *Heart of Palm*
    8. Toddy and Sap
        1. *Coconut Vinegar*
        2. *Coconut Oil*
        3. *Coconut Butter*
        4. *Copra*
        5. *Husks and Shells*
        6. *Coir*
        7. *Leaves*
        8. *Timber*
        9. *Roots*
        10. *Other Uses*
        11. *Tool and shelter for animals*

2. MARKET OUTLOOK
1. Scope
2. Technical Requirements

2.2.1 Agro–Climatic Requirements

Soil
Selection of Site
Preparation of Land
Spacing
Planting Material & Planting
Varieties
Maintenance of Coconut Garden
Manures and Fertilizers
Irrigation
Interculture Operations
Coconut Based Cropping Systems
Harvesting
Utilization of Coconut
Linkages for Coconut development
Latest Trends
Driving Factors
Restraining Factors
Segmentation
By Derivatives Analysis
3. BY-PRODUCTS UTILISATION
1. Commercial Exploitation of Coconut Pith

3.1.2. Pith as a Heat Insulating Material

Coconut oil
Coconut Product Diversification
Copra Making
White Copra Production
Ball Copra
Vinegar Making
Bio-Confectionaries from Coconut Water
Benefits from Bio-Sweets
Desiccated Coconut
Canning of Coconut Haustorium
Coconut Cream
Coconut Shell Powder
Coconut Milk
Coconut Oil Derivatives
Coconut Oil as an Edible Oil
Production of Cocopeat
Granulated Charcoal
Biodiesel Plant-Oleochemical

Rubberised Coir Fibre cushions
Coir Industry
Coconut Shell Based Products
Shell Charcoal
Coconut Shell and Wood Handicrafts
Activated Carbon from Coconut Shells
Protection against Toxic Gases
Purification of Various Gases
Recovery of Solvents and Other Vapours
Separation of Hydrocarbon Mixtures
Purification of Fermentation Carbondioxide

Recovery of Gold
Carbon Batteries
As Catalyst and Catalyst Carriers
Impregnated Carbons
Global Competitiveness of Coconut Industry
Exports
Competition from Other Oilseed Crops
Low Profitability
Fluctuating Prices
Inconsistent Supplies of Product
Strategies for Future

4. KERNEL BASED COCONUT PRODUCTS
    1. Coconut Oil
    2. Virgin Coconut Oil
    3. Desiccated Coconut
    4. Coconut Milk and Flavoured Coconut Milk
    5. Coconut Skimmed Milk
    6. Spray Dried Coconut Milk
    7. Coconut Chips
5. COCONUT OIL MANUFACTURING BUSINESS
    1. Coconut Business Plan
    2. Benefits of Coconut Oil
    3. Government’s Role in Promoting the Coconut Oil Manufacturing Business
    4. Coconut Development Board
    5. Schemes of Coconut Development Board to Promote Coconut Oil Manufacturing Business
    6. Expansion of Coconut Area
    7. Integrated Farming for Improving Productivity
    8. Modern Copra Dryers
    9. The coconut Palm Insurance Scheme
    10. Financial Assistance under Technology Mission
    11. The Process of Making Coconut Oil for Coconut Oil Manufacturing Business in India
    12. Machines and Raw Materials Used for Coconut Oil Manufacturing Business
    13. Registration & License for Coconut Oil Manufacturing Business
6. COCONUT OIL
    1. Properties of Coconut Oil
    2. Extraction of Coconut Oil

3. Coconut Oil Based Oleochemicals
4. Coconut Oil Cake

7. COCONUT OIL PROCESSING
    1. Coconut Oil Production Process
        1. *Copra Conveying*
        2. *Crushing*
        3. *Flaking*
        4. *Steam Cooking*
        5. *Coconut Oil Pressing*
        6. *Coconut Oil Clarifying & Filtering*
8. DESICCATED COCONUT

(MACHINERY AND PROCESSING)

Abstract
Introduction
Desiccated Coconut
Proceesing of Desiccated Coconut
Plant & Machinery for Desiccated Coconut
Drying of Desiccated Coconut
The Pilot Plant
Results and Observations
Scale-up
Quality of Desiccated Coconut

9. QUALITY STATUS OF DESICCATED COCONUT
    1. Abstract
    2. Introduction
    3. Materials and Methods
    4. Results and Discussion
10. HOW TO START COCONUT POWDER BUSINESS
    1. Steps

Understand the Market
Registration & Licenses
Cost to Start Coconut Powder Manufacturing Business
Coconut Powder Manufacturing Plant Setup & Machinery
Coconut Powder Manufacturing Process
Raw Materials
Where Can Sell Coconut Powder

11. COCONUT POWDER
    1. Uses
    2. Benefits
        1. *Supports Heart Health*
        2. *Prevents Anaemia*
        3. *Aids in Breathing Regulation*
        4. *Reduces Muscle Fatigue*
        5. *Helpful Antibacterial Qualities*
        6. *Antiviral Benefits*
        7. *Moisturizer for Natural*

3. Technical Aspects
1. Process of Manufacture
2. Quality Control and Standards
3. Pollution Control
4. Energy Conservation
12. MANUFACTURING PROCESS OF

COCONUT POWDER

Coconut Pre-Treating Technique
Coconut Grinding and Coconut Milk Extracting and Filtering Technique
Mixing and Flavoring Improving Technique
Evaporating Technique
Spray Drying Technique
Packing Technique
CIP Cleaning System
Food Safety Standards
Health Benefits of Desiccated Coconut Powder (DCP)
How to make coconut powder from desiccated coconut?
What is the structure of the coconut powder making machine?
13. COCONUT MILK
1. Nutrition
2. Definition and Terminology
3. Processed Coconut Milk Products
4. Coconut Milk Powder
5. Coconut Skim Milk
6. Milk Substitutes
7. Filled Milk
8. Cheese and Custard Production
9. Soy Milk Enrichment
10. Cream of Coconut
11. Drink
12. Methods
1. Sample Preparation

13. Development of Lexicon

13.13.1 Sample Evaluation

How to Process Coconut Milk
Coconut Milk and Its Processing
Bottling or Canning
Dehydration or Spray-Drying
Coconut Milk and Cream
14. COCONUT MILK PRODUCTION
1. Coconut Shelling Machine
2. Coconut Peeling Machine
3. Coconut Washing Machine
4. Coconut Grinding Machine
5. Coconut Milk Extracting Machine

6. Coconut Water and Milk Filler
15. COCONUT MILK POWDER
    1. Additives in Coconut Milk Powder
    2. Product Use
16. COCONUT MILK POWDER PRODUCTION
    1. Process Description
        1. Feed Preparation
        2. Spray Drying
        3. Storage, Mixing and Packing
17. COCONUT CHIPS PRODUCTION
    1. Introduction
    2. Process
        1. Removal of Husk
        2. Removal of Shell
        3. Removal of Testa
        4. Cutting of Kernel
        5. Slicing of Kernel
        6. Blanching
        7. Osmotic Dehydration
        8. Preparation of Osmotic Medium
        9. Drying of Slices
    3. Packaging
    4. Property Quantity
    5. Reuse of Sugar Solution
    6. Use 164
    7. Quality
18. COCONUT WATER-BASED PRODUCTS
    1. Tender Coconut Water
    2. Health Benefits
        1. Digestive Health is Improved
        2. Antioxidants Abundant
    3. Natural Coconut Water Vinegar
    4. Health Benefits
        1. Lowers the Risk of Obesity
        2. Bring Blood Sugar Levels Down
        3. Aids with Weight Loss
    5. King Coconut Water
    6. Health Benefits
        1. Less infections of the urinary tract
19. HOW TO START COCONUT WATER BUSINESS
    1. Packaged Coconut Water Market
    2. Important Information Related to

doing Packaged Coconut Water Business

Material for Packaged Coconut Water
Choosing the Right Coconut
Coconut Price

Coconut Water Extraction Process
Packaging
Labelling
20. COCONUT WATER
    1. How does it work?
    2. Processing Techniques
    3. Uses
    4. Composition
    5. Properties and Reactions
        1. *Flavour*
        2. *Appearance*
21. COCONUT WATER MANUFACTURING PROCESS
    1. Process
        1. *Coconut Water Extracting Machine*
        2. *Coconut Dehucking Machine*

21.1.3 Coconut Meat Blanching Machine

Coconut Meat Grinding Machine
Coconut Water Pasteurizer/Sterilizer
Coconut Water Filler
22. VINEGAR FERMENTATION WITH SPECIAL EMPHASIS ON POSSIBILITIES OF UTILIZATION

OF MATURED COCONUT WATER

Production and Volume
Raw Materials
Production of Vinegar
Acetification Methods
The Orleans Process or Slow Process or French Process
Quick Process or German Process
Submerged Method
Other Modern Processes
Coconut Water as Possible Substrate for Vinegar Fermentation
Preparation of Coconut Water Medium
PFA Specifications for Vinegar
Problems in Vinegar Manufacture
Ageing of Vinegar
23. COCONUT SHELL BASED PRODUCTS
    1. Coconut Shell Powder
    2. Coconut Shell Charcoal
    3. Activated Carbon
24. COCONUT HUSK
    1. Coir
    2. Coir Geotextile
    3. Coir Pith
25. STEPS TO START A COIR INDUSTRY
    1. Identifying the Opportunity
    2. Making a Product Choice

3. Process Selection
    1. *Machinery and Equipment*
4. Arranging Finance
    1. *Development Corporations*
5. Filing of Udyog Aadhaar Registration
6. Construction of Building
7. Getting the Utility Connections
8. Getting 3M's Right
    1. *Men*
    2. *Machinery*
    3. *Materials*

26. ACTIVATED CARBON FROM COCONUT

SHELLS: SIGNIFICANCE AND PROSPECTS

Protection Against Toxic Gases
Air Purification and Recovery
Purification of Various Gases
Filters for War Gases/ Nuclear Fall-Outs
Purifying Working Environments and Elimination of Odours
Recovery of Solvents and other Vapours
Separation of Hydrocarbon Mixtures
Purification of Fermentation Carbon Dioxide
Recovery of Gold
Carbon Batteries
Miscellaneous Applications
Activated Carbon as Catalyst and Catalyst Carriers
Impregnated Carbons
Activated Carbon in Pollution Control
Conclusion

27. COCONUT SHELL AND

MISCELLANEOUS PRODUCTS

Coconut Shell Charcoal
    Covered Pit Method
    Modified Pit Method
    The Drum Method
    Uses
    Properties
Distillation of Coconut Shells
Activated Carbon
Coconut Shell Flour
Other Uses
Miscellaneous Products

28. COCONUT CONVENIENCE FOOD PRODUCTS
    1. Coconut Biscuits
    2. Coconut Candy
    3. Coconut Chocolate

4. Coconut Burfi
29. COCONUT JAM
30. COCONUT JAM PROCESSING
1. Pretreatment System and Pulp Extraction Machine
2. Jam Vacuum Evaporator
3. Ingredients blending system
4. Jam Pasteurization Machine
31. COCONUT INFLORESCENCE BASED

FOOD PRODUCTS

Neera
Coconut Jaggery
Coconut Palm Sugar
Coconut Flower Syrup
32. FARMING SYSTEMS IN COCONUT
1. Rooting Pattern
2. Crown Structure and Light Transmission
3. Water Use Efficiency
4. Nutrients
5. Choice of Inter / Mixed Crops
6. Criteria for Selection of Inter / Mixed Crops
33. ORGANIC FARMING OF COCONUT,

SPICES AND HERBS

Organic Coconut Scenario
Scope for Organic Production of Coconut in India
Characteristics of a Typical Organic Coconut Farm
Establishment and Maintenance of Organic Coconut Plantations
Conversion Period
Buffer Zone
Choice of Varieties
Raising Nursery
Land Preparation
Preparations for Planting
Aftercare of the Young Plantation
Nutrient Management
Green Manuring and Cover Cropping
Utilization of Waste from Coconut Palm
Improving Soil Conditions
Plant Protection
Biopesticides
Contamination Control
Soil and Water Conservation
Bee Keeping
Animal Husbandry
Conversion of Established Plantations

Conversion Period
Choice of Cultivars/Varieties
Composting of On-farm Crop Residues / Farm Wastes
Nutrition Management
Weed Management
Processing of Organic Coconut
Production of Organic Spices, Medicinal and Aromatic Plants along with Coconut
Certification of Organic Products

34. PLANTING MATERIAL
    1. Collection of seednuts
    2. Raising nursery
    3. Nursery care
    4. Seedling selection
    5. Polybag nursery
    6. Care of polybag nursery
35. COMMERCIAL PRODUCTS
    1. Milling Copra
        1. *Preparation of Coconuts before Drying*
        2. *Copra Drying Process and Methods*
        3. *Sun Drying*
        4. *Smoke Drying or Drying by Direct Heat in Kilns*
        5. *Drying by Indirect Heat*
        6. *The Quality of Copra*
        7. *Oil Content of Copra*
        8. *Storage of Copra*
        9. *Deterioration of Copra*
        10. *Grading of Copra*
        11. *Moisture Determination*
    2. Coconut OiL
        1. *Oil Milling*
    3. Yield of Oil from Copra
    4. Physical Properties
        1. *Chemical Properties*
        2. *Rancidity*
        3. *Ensuring the Quality of Oil*
        4. *Quality Standards for Coconut Oil*
        5. *Uses of Coconut Oil*
    5. Consumption of Coconut Oil and Heart Ailments
    6. Coconut Cake
    7. Use of Coconut Cake
    8. Coir or Coconut Fibre
        1. *Natural Retting*
        2. *Mechanical and Chemical Methods of Retting*
        3. *Extraction of White Fibre*
        4. *Extraction of Brown Fibre*
    9. Yield of Fibre from Husk
    10. Varieties of Fibre and Grades
    11. Chemical Composition

1. Spinning of Coir Yarn
2. Utilisation of Coir Fibre and Yarn
3. Rubberised Coir
12. Coir PIth or Coir Dust
36. MATURE COCONUT
1. Optimum Stage for Harvesting Coconuts
2. Dehusking
3. Home Preservation of Split Coconuts
4. Mature Coconut Water Products
5. Coconut Water Beverages
6. Coconut Vinegar
7. Nata-De-Coco
8. Other Products
37. BIS SPECIFICATIONS
38. PLANT LAYOUT DESCRIPTION OF COCONUT AND COCONUT PRODUCTS

38.1 Introduction to Coconut Processing Industries

General Overview of Coconut Cultivation and Harvesting
Coconut Processing Plant Layout: Architectural and Functional Design
Desiccated Coconut Processing: Plant Layout and Operations
Virgin Coconut Oil (Vco) Production : Plant Layout and Operations
Coconut Milk and Cream Processing: Plant Layout and Operations
Coconut Oil Extraction from Copra : Plant Layout and Operations
Integrated Coconut Processing Plant: Combined Operations
Waste Management and By-Product Utilization
Utilities and Support Systems
Quality Control and Laboratory Facilities
Future Trends In Coconut Processing Plant Design
39. PHOTOGRAPHS OF PLANT AND MACHINERY

- Desiccated Coconut Powder project report
- Coconut Water project report
- Milk Powder project report
- Activated Carbon from Coconut Shell project report

NIIR PROJECT CONSULTANCY SERVICES (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our various services are: Detailed Project Report, Business Plan for Manufacturing Plant, Start-up Ideas, Business Ideas for Entrepreneurs, Market Research, Manufacturing Process, Machinery, Raw Materials, Project Feasibility, Investment Opportunities, Technical Consultancy and Startup Help.

NPCS also publishes process technology books, technical books, startup books, directory, business database, detailed project reports and market research reports.

Our Detailed Project Report aims at providing all the critical data required by entrepreneurs for starting new business ventures.
