

# The Complete Book on Jute & Coir Products (with Cultivation & Processing)

**Author:** NPCS Board of Consultants & Engineers

**Format:** Paperback

**ISBN:** 9789381039625

**Code:** NI287

**Pages:** 328

**Price:** Rs. 1,175.00 US\$ 125.00

**Publisher:** NIIR PROJECT CONSULTANCY SERVICES

Usually ships within 5 days

Jute & Coir are one of the important fibre crops in India. India is the largest producer of Jute & Coir, contributing more than 60% of the total world production. Besides being the cheapest and the most important material of all textile fibers, Jute & Coir products are bio-degradable eco-friendly with numerous environmental advantages. The Demand of Jute and Coir Products are increasing rapidly because of their environment friendly nature.

Jute is one of the most affordable natural fibers and is second only to cotton in amount produced and variety of uses of vegetable fibers. Jute fibers are composed primarily of the plant materials cellulose and lignin. Jute is the name of the plant or fiber that is used to make burlap, hessian or gunny cloth.

Coir is a versatile natural fibre extracted from mesocarp tissue, or husk of the coconut fruit. Generally fibre is of golden color when cleaned after removing from coconut husk; and hence named as "The Golden Fibre".

This Book aims at providing a thorough understanding and analysis of the Jute & Coir sector. The book discusses the overview of the Jute & Coir along with their Classification, Structure, Properties and Manufacturing Process of different products.

Few major contents of the Book are Jute Cultivation, Coconut Cultivation, Jute Yarn, Sutli & Hessian Cloth, Jute Twine (Jute Rope), Gunny Bags, Jute Garments, Jute Shopping Bags, Gunny Bags (Jute Bags) Manufacturing, Handmade Paper from Jute, Environment Pollution and Effluent Treatment of Jute, Coir Fibre, Coir Pith, Biomass Charcoal Briquetting from Jute and Coir Waste, Rubberized Coir Mattresses, Coir Pith for Absorption and Recovery of Oil from Contaminated Sites, Application of Coir in Agricultural Textiles, Manufacture of Coir Corrugated Roofing Sheet, Coir Machinery Manufacturers, Importers of Coir Products. It also contains the Product and Machinery photographs, Name of Indian Buying Agents of Coir Products with their contact details.

The purpose of this book is to provide information to new Entrepreneurs, Technocrats, Students and Professionals.

## Contents

### 1. INTRODUCTION

Jute

Classification of Jute Products

1. Conventional Products
2. Speciality Products
3. Non-Traditional Products
4. Diversified Products

## Scheme for Modernization of Organised Jute Mills

1. Training of Workers & Supervisors
2. Machinery Development
3. Productivity Improvement & TQM Facilitation
4. Acquisition of Machinery and Plant (Subsidy Component)

## Coir

- A. Modernisation of Production Processes
- B. Development of Machinery and Equipments
- C. Product Development and Diversification
- D. Development of Environment Friendly Technologies

## 2. JUTE CULTIVATION

### Raw Jute Scenario

### Botanical Description of Jute

### Jute Growing Zones

### Manures and Fertilizer Application

### Varieties

### Seed Rate and Sowing

### Weed Management

### Top Dressing of Fertilizer

### Water Management

### Harvest

### Yield

### Sowing Process of Jute

### Harvesting Process of Jute

### Retting Practices

#### a. Retting Practices in India and Bangladesh

#### b. Retting Practices in China

#### c. Double Immersion/Single-Wash-Retting in China

#### d. Retting Practices in Indonesia

#### e. Retting Practices in Nepal

#### f. Retting Practices in Thailand

### Extraction Practices

### Single Stem Stripping

### Stripping and Washing or Wash-Jerk-Method

### Indian Jute Industry at a Glance

### Major Producers of Jute

### Jute and Mesta in the National Economy

### From Jute to Diversified Products

## 3. COCONUT CULTIVATION

### Origin

### Climate and Soil

### Varieties of Coconut

### Tall Varieties

### Dwarf Varieties - Suitable for Tender Coconut

### Hybrid Varieties

### Planting Material

### Site Selection

### Time of Planting

### Spacing and Systems of Planting

Planting  
4. JUTE YARN, JUTE SUTLI & HESSIAN

## About NIIR

**NIIR PROJECT CONSULTANCY SERVICES (NPCS)** is a reliable name in the industrial world for offering integrated technical consultancy services. NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our various services are: Detailed Project Report, Business Plan for Manufacturing Plant, Start-up Ideas, Business Ideas for Entrepreneurs, Start up Business Opportunities, entrepreneurship projects, Successful Business Plan, Industry Trends, Market Research, Manufacturing Process, Machinery, Raw Materials, project report, Cost and Revenue, Pre-feasibility study for Profitable Manufacturing Business, Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Business Opportunities, Investment Opportunities for Most Profitable Business in India, Manufacturing Business Ideas, Preparation of Project Profile, Pre-Investment and Pre-Feasibility Study, Market Research Study, Preparation of Techno-Economic Feasibility Report, Identification and Section of Plant, Process, Equipment, General Guidance, Startup Help, Technical and Commercial Counseling for setting up new industrial project and Most Profitable Small Scale Business.

NPCS also publishes various process technology, technical, reference, self employment and startup books, directory, business and industry database, bankable detailed project report, market research report on various industries, small scale industry and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by professionals including project engineers, information services bureau, consultants and project consultancy firms as one of the input in their research.
