Handbook on Gypsum and Gypsum based Products

(Mining, Processing, Transportation, Handling & Storage, Gypsum Board, Plaster of Paris with Machinery & Equipment Details)

Gypsum is chemically known as calcium sulfate dihydrate and it contains calcium and sulfur, which is bound to oxygen and water. Gypsum is an abundant mineral and takes various forms including alabaster, which is a material, used in decoration and construction. This is a non-toxic mineral and it can be helpful to humans, animals, plant life, and the environment. The majority of gypsum produced is used to manufacture gypsum board or building plasters and it is used in many other ways.

Gypsum products are used in dentistry, medicine, homes, and industry. In homes, gypsum plaster is used to make walls; in industry, it is used to make molds. Three types of gypsum products are plaster, stone, and high-strength or improved stone. The Gypsum and the Gypsum products are used for construction purposes. It is also used in industry for making pottery, moulds etc. It is used by orthopedics to make plaster casts and helps the dentist for the cast preparation, models and dies, impression material, investment material, mounting of Casts, as a mold material for processing of complete dentures etc.

The global gypsum board market size is anticipated to exhibit a CAGR of 11.9% in terms of revenue.

Increasing utilization of gypsum boards in decorative and partitioning applications in residential constructions is anticipated to drive the market. The demand for gypsum boards is driven by the residential sector, where the product is widely used in multi-family constructions for room partitioning. Durability and lightweight coupled with easy handling of the product are some of the factors anticipated to propel the demand.

The major contents of the book are Mining, Processing, Transportation, Handling & Storage, Gypsum Board, Plaster of Paris for gypsum, Plant Layout, Process Flow Chart and Diagram, Plant & Machinery Suppliers and Photographs of Machineries.

This book is one-stop guide to one of the fastest growing sector of the Gypsum and Gypsum based Products, where opportunities abound for manufacturers, retailers, and entrepreneurs. This is the only complete handbook on gypsum and gypsum based Products. It serves up a feast of how-to information, from concept to purchasing equipment.

## **Contents**

## CONTENTS

### 1. INTRODUCTION

Chemical Identification and Analysis

Gypsum

Plaster of Paris

Calcium Sulfate

Physical-Chemical Properties

History of Gypsum

Gypsum Moulds

Gypsum Credentials

1. Unequalled as a Material for Interiors

2. Gypsum Products' Unique Properties

Fire Properties

Fire Resistant

Non-Combustible

Effective in Fire

Acoustic Properties

Thermal Properties

Aesthetics and Design

Ease of Installation

From Products to Solutions

### 2. MANUFACTURING PROCESS

Raw Material

Dehydration: Rock into Plaster

Production Processes

Gypsum Unique Properties in Buildings

Gypsum is Fire Protective

Gypsum Regulates Sound

Gypsum equilibrates Humidity and Heat Peaks

Gypsum is Easy to Install and to Dismantle

Gypsum Acts as a Thermal Insulator when

Combined with Insulation Materials

Gypsum is Impact Resistant

Gypsum is Multifaceted, Multipurpose, Supple and

Aesthetic

Plaster Board

Gypsum Fibre Boards

Gypsum-Based Self-Levelling Screeds

Plaster Blocks

Decorative Plaster

Building Plaster

Uses of Gypsum

Chemistry of Gypsum Products

Chemistry of Gypsum Product Formation

Setting Mechanism

Manipulation Stages

Manufacture of Gypsum Precursors

"Plaster of Paris" "Hydrocal" "Densite"

Properties

Variables influencing Properties

Manufacturing Variables

User's Variables

Effects of Increases in Variables on Final Properties

Occurrence of Gypsum

Gypsum Physical Properties

Agricultural Gypsum Uses

1. Gypsum Improves Soil Texture and Compacted Soils

2. Gypsum Decreases Bulk Density of Soil

3. Gypsum Stops Water Runoff, Erosion and Soil Crusting

4. Gypsum Improves Swelling Clays

5. Gypsum Increases Value of Organics

6. Gypsum Counteracts Subsoil Acidity

7. Gypsum Helps Reclaim Sodic Soils

8. Gypsum Decreased pH of Sodic Soils

9. Gypsum Enhances Water Use Efficiency

10. Gypsum Makes it Possible to Use Low Quality Irrigation Water

11. Gypsum Replaces Harmful Salts

12. An Excellent Fertilizer Source for Calcium and Sulfur

13. Gypsum Helps with High Bicarbonate Irrigation Water

14. Gypsum Makes Slightly Wet Soils Easier to Till

15. Gypsum Prevents Water Logging of Soil

16. Gypsum Helps Earthworms to Flourish

3. TYPES OF GYPSUM PRODUCTS

Setting of Gypsum Products

Theories of Setting of Gypsum Products

Hydration Theory

Dissolution Precipitation Theory

Setting Process

Stages

W:P Ratio

Recommended Ranges

Properties

Setting Time

Mixing Time

1. Loss of Gloss Test for Initial Set

2. Initial Gillmore Test for Initial Set

3. Gillmore Test for Final Setting Time

Vicat Test for Setting Time

Ready for Use Criterion

Control of Setting Time (S.T.)

4. PLASTER OF PARIS

Preparation of Plaster of Paris

Step 1 - Plaster of Paris Manufacture

Step 2 - Rehydration

Common Plaster Additives

Step 3 - Setting

Properties

Application of Plaster of Paris

Uses of Plaster of Paris

Architecture

Art  
Uses in Medicinal and Fireproof Fields  
Medicinal  
Fireproof  
5. GYPSUM BOARD  
The Chemistry of Gypsum Board  
Gypsum Board Manufacturing Process  
Step-1  
Step-2  
Step-3  
Step-4  
Advantages of Gypsum Board  
Areas of Applications  
Gypsum Board for Acoustic Applications  
Gypsum Board for Ceiling Application  
Drywall  
Manufacturing Process  
Blending of Additives  
Making the Sandwich  
Finishing the Edges  
Cutting the Panels  
The Drying Process  
The Finished Product  
Types of Gypsum Board  
Regular and Type X Gypsum Board  
Types of Gypsum Board Based on Edges  
Common Types of Gypsum Board  
(a) Regular/Standard Gypsum Board  
(b) Fire Resistance Gypsum Board  
(c) Moisture Resistance Gypsum Board  
(d) Fire & Moisture Resistance Gypsum Board  
(e) Abuse-Resistant Gypsum Panels  
(f) Exterior Gypsum Soffit Board  
(g) Foil-Backed Gypsum Board  
Gypsum Fiber Board  
Glass Mat Gypsum Board  
Sheathing  
Backing Board  
6. TYPES AND SOURCES OF GYPSUM  
Mined Gypsum  
Flue Gas Desulphurization (FGD) gypsum and  
Spray-Dry Absorption materials (SDA)  
Phosphogypsum  
Pickle Gypsum  
Drywall Gypsum  
Landfill Versus Recycling  
Green Building  
Common Uses of Gypsum  
Markets for Gypsum Products  
General Benefits of Gypsum for Soils  
Soil Crusting  
Acid Subsoil  
Sodic or Salt Contaminated Soils

Nutrient Availability  
Runoff and Water Absorption  
Animal Bedding  
Poultry Bedding  
Manure Treatment  
Crops Known to Benefit From Gypsum  
Plants that can Benefit from Gypsum Include  
Animals  
Application

## 7. DIFFERENT TYPES OF DRYWALL

1. Dry Lining Systems
2. Interior Partition Systems
3. Performance partition Systems

How to build a drywall

Installation

Drywall Tools

Fixing Tools

Cutting Tools

Marking Tools

Finishing Tools

Lifting Tools

Basic Principles to Design a Drywall

Key Design Criteria

Height

Maximum Partition Heights

Thermal Insulation

Different Types of Drywall

Benefits of Effective Thermal Insulation make

Building

## 8. GYPSUM PRODUCTS IN DENTISTRY: TYPES, USES, PROPERTIES

Desirable Properties

Types of Gypsum Products

A. Plaster

B. Stone

C. High-Strength or Improved Stone

D. Other Types of Gypsum

Setting Reaction

Water/Powder Ratio

Setting Time

Definitions

1. Working Time or Initial Setting Time

2. Final Setting Time

Measurement

Variation in Setting Times

1. Increased Setting Time (A Slower-Setting Product)

2. Decreased Setting Time (A Faster-Setting Product)

Setting Expansion

Strength

## 9. GYPSUM AS AN AGRICULTURAL PRODUCT

Benefits of Gypsum as a Soil Amendment

Processing Gypsum into a Soil Amendment  
Agricultural and Land Application uses of Gypsum  
Gypsum as a Source of Plant Nutrients for Crops  
Gypsum to Improve Soil Physical Properties  
Gypsum to Improve Soil Chemical Properties  
Gypsum for Nursery, Greenhouse, Landscape, and Sports Field Use  
Gypsum for Landscape and Sports Field Use  
Other Uses of Gypsum in Agriculture  
Use of Gypsum as a Soil Conditioner  
Causes of Poor Soil Structure  
Recognition of Gypsum Responsive Soils  
Exchangeable Sodium Percentage (ESP)  
Exchangeable Magnesium Percentage (EMgP)  
Calcium: Magnesium Ratio (Ca:Mg)  
Clay Dispersion Index

## 10. MINING TECHNOLOGY

Exploration Techniques  
Stratigraphy  
Topography  
Vegetation  
Hydrology  
Deposit Evaluation  
Drilling and Sampling  
Testing Procedures

## 11. PREPARATION OF OTHER GYPSUM AND ANHYDRITE

Phosphogypsum  
Titanogypsum  
Insoluble Anhydrite  
Calcination Methods  
Batch Kettle  
Continuous Kettles  
Submerged Combustion Kettles  
Conical Kettle  
Rotary Kilns  
Impact Mill Calciner  
Ring Ball and Roller Mills  
Calcidyne Unit  
Anhydrous and Multiphase Plaster  
Hemihydrate Plasters

## 12. ROLE OF GYPSUM IN CEMENT

The Effect of Gypsum on Setting of Cement  
The Effect of Gypsum Solubility  
Optimum Gypsum Content  
Strength and Volume Stability  
Effects of Gypsum on Cement

## 13. TECHNOLOGY OF GYPSUM AND GYPSUM PLASTERS

## 14. GYPSUM TRANSPORTATION

Power Station to Plaster Board Factory  
Packaging

Transportation

Truck

Rail

Barge

Ship

## 15. GYPSUM HANDLING AND STORAGE

Handling and Transportation

Gypsum Storage

Gypsum Panel Products

Safety Tips for Handling

Handling and Storage of Gypsum Panel Products:

A guide for distributors, Retailers, and

Contractors

Storage

Support Risers

Preventing Sagging Gypsum Panel Products

Preventing Sagging Gypsum Panel Products, cont.

Manual Handling

Mechanical Handling

Use of Wedges

Stocking Gypsum Panel Products on Job Sites

Loading Gypsum Panel Products

Open Top Rail Flatcars

Flatbed Trucks

Guidelines for Carriers, Drivers and Trailer

Loading Personnel

## 16. GYPSUM BOARD WASTE MANAGEMENT

Gypsum and Gypsum Board

Sustainability Imperative

Gypsum Board Waste and the Management

Recycling Process and Technology

Policy Instruments for Promoting Recycling

Action on Gypsum Board Waste

CRD Waste Management in Europe

## 17. GRINDING AND CALCINING OF GYPSUM

## 18. CRYSTALLIZATION AND DISSOLUTION OF GYPSUM

Introduction

Background Information

Mineralogy

Crystal Nucleation: The Classical Nucleation

Theory

The Induction Period and the Surface Free Energy

Crystallization of Gypsum

Gypsum Nucleation Kinetics

Gypsum Nucleation Induction Period and the

## About NIIR

**NIIR PROJECT CONSULTANCY SERVICES (NPCS)** is a reliable name in the industrial world for offering integrated technical consultancy services. NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our various services are: Detailed Project Report, Business Plan for Manufacturing Plant, Start-up Ideas, Business Ideas for Entrepreneurs, Start up Business Opportunities, entrepreneurship projects, Successful Business Plan, Industry Trends, Market Research, Manufacturing Process, Machinery, Raw Materials, project report, Cost and Revenue, Pre-feasibility study for Profitable Manufacturing Business, Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Business Opportunities, Investment Opportunities for Most Profitable Business in India, Manufacturing Business Ideas, Preparation of Project Profile, Pre-Investment and Pre-Feasibility Study, Market Research Study, Preparation of Techno-Economic Feasibility Report, Identification and Section of Plant, Process, Equipment, General Guidance, Startup Help, Technical and Commercial Counseling for setting up new industrial project and Most Profitable Small Scale Business.

NPCS also publishes various process technology, technical, reference, self employment and startup books, directory, business and industry database, bankable detailed project report, market research report on various industries, small scale industry and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by professionals including project engineers, information services bureau, consultants and project consultancy firms as one of the input in their research.

Our Detailed Project report aims at providing all the critical data required by any entrepreneur vying to venture into Project. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.
