The Complete Technology Book on Textile Spinning, Weaving, Finishing and Printing (3rd Revised Edition)

Author: NIIR Board of Consultants & Engineers Format: Paperback ISBN: 9788178331638 Code: NI107 Pages: 564 Price: Rs. 1,725.00 US\$ 46.62 Publisher: Asia Pacific Business Press Inc. Usually ships within 5 days

Textile industry is one of the few basic industries, which is characterised as a necessary component of human life. One may classify it as a more glamorous industry, but whatever it is, it provides with the basic requirement called clothes. Spinning is the process of converting cotton or manmade fibre into yarn to be used for weaving and knitting. Weaving is a method of textile production in which two distinct sets of yarns or threads are interlaced at right angles to form a fabric or cloth. Finishing refers to the processes that convert the woven or knitted cloth into a usable material. Printing is the process of applying colour to fabric in definite patterns or designs.

The textile industry occupies an important position in the total volume of merchandise trade across countries. Developing countries account for little over two-third of world exports in textiles and clothing. It is the second largest employer after agriculture, providing employment to over 45 million people directly and 60 million people indirectly. The future for the textile industry looks promising, buoyed by both strong domestic consumption as well as export demand.

This book is based on the latest technology involved in textile industry, which describes the processes available at the spinning and fabric forming stages coupled with the complexities of the finishing and colouration processes to the production of wide ranges of products.

The major contents of the book are dyeing of textile materials, principles of spinning, process preparatory to spinning, principles of weaving, textile chemicals, yarn preparation, weaving and woven fabrics, knitting and knit fabrics, nonconventional fabrics, cellulosics, mixed fibers, printing compositions, printing processes, transfer dyes, transfer inks etc. It describes the manufacturing processes and photographs of plant & machinery with supplier's contact details.

It will be a standard reference book for professionals, entrepreneurs, textile mill owners, those studying and researching in this important area and others interested in the field of textile industry.

Contents

1. THE DYEING OF TEXTILE MATERIALS

Mordants Assistants **Dvestuffs** Indigo The Ingrain Dyes Water Used in Dyeing Interdependence of Processes Processes Preliminary to Dyeing Wool Scouring "Boiling-off" Silk Cotton Bleaching Wool Dyeing Processes Dyeing of Loose Wool Slubbing (Silver) Yarn Dyeing Piece Dyeing "Woaded Colours" Blacks on Wool Dark Blues, Greens, and Browns on Wool Cotton Dyeing Processes Fast Blacks on Cotton Fast Colours on Cotton **Basic Colours on Cotton** Dyeing of Mercerized Cotton Union Dyeing Processes Silk Dyeing Processes The Dyeing of Artificial Silk Colour Matching Fastness Properties of Dyes

2. THE PRINCIPLES OF SPINNING Long Fibre Spinning Short Fibre Spinning

3. PROCESS PREPARATORY TO SPINNING Four Methods of Preparing Vegetable Fibres for Spinning Four Methods of Preparing Animal Fibres for Spinning Two Methods of Silk Preparation Typical Example of the Method of Preparing and Spinnig A Textile Material (China-grass or Ramie) Preparatory Machines The Cotton Gin The Washing or Scouring Machine The Drver The Cotton Scutcher The Flax Scutcher The Backwasher The Preparing Gill-box The Carder The Dresser The Comb The Drawing-box

The Cone Drawing-box. The French Drawing-box

- 4. THE PRINCIPLES OF WEAVING
 Group-unit Weaving
 Shedding
 Picking
 Beating-up
 Letting-off and Taking-up
 The Boxing Mechanism
 The Stop-rod and Loose-reed Mechanism
 The Weft-fork Mechanism
 The Warp-stop Mechanism
 The Spooling or Shuttling Mechanism
- 5. THE PRINCIPLES OF DESIGNING AND COLOURING Materials Interlacing The Use of Point-paper
- Colour Figure Designing

6. THE PRINCIPLES OF FINISHING Finishing Processes and Machines Mending, Knotting and Burling Scouring Milling Crabbing Steaming Dyeing Washing-off Drying Tentering Brushing and Raising Cropping or Cutting Singeing Pressing Calendering Schreincring Filling Conditioning Waterproofing **General Notes**

7. TEXTILE CHEMICALS

Indian Demand Demand for Bleaching Agents Textile Bleach Formulation Industry Trends and Success Factors Outlook and Opportunities Fluorescent Whitening Agent Sector of Applications

Usage Pattern Industry Trends and Success Factors Outlook and Opportunity Flame Retardants Halogenated Compounds Non Halogenated Compounds Application Sector of Applications **Bleaching Agents** Use of Various Bleaching Agents on **Textile Fibres** Hydrogen Peroxide Sodium Hydrosulphite (Hydros) Sodium Hypochlorite Application and Formulations Bleaching Assistants **Chelating Agents** Fatty Alcohol Ethoxylate Carboxy Methyl Cellulose Demand Acrylates Industry Treands and Success Factors Pattern of Use and Formulation - Starch/ Modified-Starch The Spin Finish Compositions for Polyester and Polya Ide Yarn White Oil Industry Trends and Success Factors Warp Sizes Sector of Applications for Sizing Agents Filament Yarns Staple or Spun Yarn Starch/Modified Starch Demand Polyvinyl Alcohol Operations Involved in the Use of the **Textile Chemicals Classification of Textile Chemicals** Classification Based on Use Pattern Group Classification Yarn Lubricants Spin Finishing Agent

8. GLOBAL SCENARIO FOR TEXTILE CHEMICALS

Consumption Pattern of Textile Chemicals Estimated Global Market for Textile Chemicals Estimated Markets for Textile Chemicals in the Asia-pacific Region (2001) Estimated Consumption of Textile Chemical in Different Regions Categories of Textile Chemicals Value (In Millions of Dollars) Us Market for Textile Chemicals

Industry Trends and Success Factors **Outlook and Opportunities Oxalic Acid** Polyehtylene Glycol Applications in Textile Industry Silicone Oil/ Silicone Emulsion Indian Demand for Silicone Oil/ Emulsion in Textile Sector Industry Trends and Successful Factor **Outlook and Opportunities** Emeu/Dmdheu Industry Trends and Success Factors Sulphur Black Industry Trends and Outlook Textile Enzymes Cellulase/Amylase **Classification of Thickening Agent Pigment Binders** Guar Gum Sodium Alginate Sodium/Zinc Formaldehyde Sulphoxylate Styrene Butadiene Rubber - Lattices Formaldehyde Based Resins Industry Trends and Outlook Indian Scenario **Consumption Pattern of Flame Retardent** Printing Auxiliary

9. YARN PREPARATION Introduction Winding Quill Winding Warping Slashing or Warp Sizing Drawing-In and Tying-In

10. WEAVING AND WOVEN FABRICS Introduction Woven Fabrics Plain Weave **Rib Weaves** Basket Weaves Twill Weaves Satin Weaves Drawing-In Draft, Chain and Reed Plans Cover Factor Other Terms Related to Single Fabrics Weaving Shedding Filling Insertion Beat-up Warp and Fabric Control The Weaving Cycle

Woven Fabric Production Secondary Mechanisms (Motions) In A Power Loom Warp Stop Motions Filling Stop Motions Warp Protector Motion Selvage Motion Box Motion Automatic Filling Transfer Shuttleless Looms Introduction Rapier Looms Projectile (Gripper) Looms Fluid Jet Looms New Weaving Technologies - Multiple Shed Looms Filling Accumulation Systems Modification of the Salvege **11. KNITTING AND KNIT FABRICS** Introduction Knitting Elements Needles and Knitting Action Sinkers Weft Knitting Single Knitting Single Knit Fabrics **Double Knitting Double Knit Fabrics** Purl Knit Fabrics Knit, Tuck and Float Loops Weft Knit Design Stitch Notation Weft Knit Fabrics Weft Knitted Fabric Production Warp Knitting Introduction Major Machine Classification Knitting Elements Warp Knitting Action Comparison between Tricot and Raschel Warp Knit Design **Point Paper Notation** Single Bar Fabric Two Bar Fabrics Warp Knit Fabric Production

12. NONCONVENTIONAL FABRICS Introduction Nonwoven Systems and Fabrics Chemically or Adhesively Bonded Fabrics Mechanically Bonded Fabrics Tufting Flocking Laminated and Bonded Fabrics Wet Adhesive Bonding Foam Flame Bonding

13. SYNTHETIC SUBSTRATES

Anthraquinones Diverse synthetic substrates Monozao Dyestuffs Water-Insoluble Monoazo Dyestuffs Mixture of Monoazo Dyestuffs for Polyesters Azo Containing Compounds Water-Soluble Disazo Dyestuffs for Polyamides Gold and Orange Prints on Polyamides Azocoumarinic Dyes for Hydrophobia **Synthetics** Dyestuffs Tolerant to Temperature and pH Variations Printing of Nickel-Containing Polyolefins **14. NATURAL AND SYNTHETIC SUBSTRATES** Anthraquinones Polyfluoro Acid Anthraquinone Dyestuffs for Polyamides Fibre Reactive Anthraquinone Compounds Aminoan Thraquinone Reactive Disperse Dyes Azo Compounds Naphtheylene and Tetrahydronaphthylene- containing Azo Dyestuffs Monoazo Dyestuff Containing Fiber-Reactive Group Cold Water soluble Acid Dye Compositions Polyvalent Metal and Azo-Barbituric Acid Anionic and Cationic Dyes Fluid and Stable Dispersions of Anionic Dyes Heterocyclic Cationic Dyestuffs Water-soluble Quaternary Ammonium Phenylazo Cationic Dyes **15. CELLULOSICS Reactive Dyes**

Reactive Dyes Organic Dye with Phosphonic Acid Monofluoride Aminonaphthyl Azobenzene Vinyl Rective Dyes Phthalocyanine Reactive Dyestuffs Water-Soluble Fiber-Reactive Dyestuffs Disperse Dyes Fixation with Aliphatic Alcohols, Amines, or Aminoalcohols Azo Dyes having Substituted 2, 6-Diaminopye Coupling Component Acylating Cellulose Fibers

16. MIXED FIBERS Polyester and Wool Tone-in-Tone Dyeing of Polyester-Wool Blend Cellulosics and Synthetic Polyamides Marked Reactive Dyestuff Swellable Cellulosics and Synthetics Ethoxylated Condensate of Monocarboxylic Acid and Hydroxyalkylamine Water-soluble Solvent and Swelling Agent Disazo Dyes Derived from Amino-pyrazole Unformed Disperse Dye and Swelling Agent Cellulosics and Synthetics Unformed Disperse Dye with Reactive Dye Textile Treated with Epoxy-group-containing Compounds Impregnation with an Aqueous

Composition Blends of Natural and Synthetic Fibers

17. PRINTING COMPOSITIONS

Printing Pastes with Developing Dyes Improved Base Printing Process Formic Acid as Developing Medium for Azo Dyes Auxiliary Agents in Print Formulations Hydroxyalkyl Carboxyalkyl Cellulose Thickening Agent Sodium Cellulose Sulfate as Thickening and Acid Fixing Agent Additive for Pigmentary Printing Pastes Salts of Diaryl Ether Sulfonic Acids Carrier for Cationic Dyes Dye Carrier Comprising Phenyl Cyclohexane and Derivatives

18. PRINTING PROCESSES
Fixation
Fixation with Vapor of Organic Solvent
Dyestuffs for Methylene Chloride Fixation
Processes
Improved Fixation of Reactive Dyes on
Cellulose Fibers
Continuous Dyeing and Printing of Piece
Goods
Printing Heavy Pile Fabrics with Powder
Preparations
Improved Alignment of Printed Patterns
Uniform Heat-setting of Continuous Synthet

Filament Groups Voluminous Substrate Rolled up with Foramed Dye Continuous Printing Process by Direct Liqui Film Transfer Method for Printing and Flocking Simultaneously Sprayed Carriers for Continuous Print Fixation

19. TRANSFER DYES Anthraquinones Anthraquinone Ink Formulation Anthraguinone Dyes for Synthetics **Deep Yellow Colors on Polyesters** Indolenine Methines for Acid-modified **Synthetics** Heterocyclic Naphthalene Derivatives Printing Polyacrylonitriles with Disperse Dyes **Disperse Dyes Containing Carboxylic Acid** Groups Hydrolyzable Silyl-substituted Dyestuffs Nitroacridone Dyestuffs Heat Transfer Black Dyestuff A Heat Transfer Black Dyestuff B **Dyestuff Combinations for Long-Pile** Fabrics

20. TRANSFER INKS **Organic Base** Cationic Dyes in Organic Solvents Carbinol Base of Cationic Dyestuff as **Dyestuff Intermediate** These Inks are characterized in that they contain at Least Sublimable Dyestuff Base on Acid-Modified Fibres Aqueous and Oil in Water Aqueous Preparations of Sparingly Soluble **Dyestuffs Organic-aqueous Printing Inks** Water-dilutable Transfer Ink Compositions Dry Preparation Hot-Melt and Hot-Stamp Inks Hot-Melt Ink Composition N-Methoxymethylated Nylon Copolymer for Hot-Stamp Ink Production of Transfer Paper by Rotary Screen Printing Transfer Inks for Household Use Inks of High Filler Content UV-curable Inks For Offset-printing Transfers

About NIIR

NIR PROJECT CONSULTANCY SERVICES (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our various services are: Detailed Project Report, Business Plan for Manufacturing Plant, Start-up Ideas, Business Ideas for Entrepreneurs, Start up Business Opportunities, entrepreneurship projects, Successful Business Plan, Industry Trends, Market Research, Manufacturing Process, Machinery, Raw Materials, project report, Cost and Revenue, Pre-feasibility study for Profitable Manufacturing Business, Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Business Opportunities, Investment Opportunities for Most Profitable Business in India, Manufacturing Business Ideas, Preparation of Project Profile, Pre-Investment and Pre-Feasibility Study, Market Research Study, Preparation of Techno-Economic Feasibility Report, Identification and Section of Plant, Process, Equipment, General Guidance, Startup Help, Technical and Commercial Counseling for setting up new industrial project and Most Profitable Small Scale Business.

NPCS also publishes varies process technology, technical, reference, self employment and startup books, directory, business and industry database, bankable detailed project report, market research report on various industries, small scale industry and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by professionals including project engineers, information services bureau, consultants and project consultancy firms as one of the input in their research.

Our Detailed Project report aims at providing all the critical data required by any entrepreneur vying to venture into Project. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.

NIR PROJECT CONSULTANCY SERVICES , 106-E, Kamla Nagar, New Delhi-110007, India. Email: npcs.india@gmail.com Website: NIIR.org
