Cocoa, Chocolate and Ice Cream are the products which have a good nutritious value and relatively inexpensive food. Cocoa butter is used in chocolate and to cover other confectionery products. Now a day chocolate and ice cream are gaining good popularity among the society all over the world. Chocolate is a key ingredient in many foods such as milk shakes, candy bars, ice creams etc. It is ranked as one of the most favorite flavors in the world. Despite its popularity, most people do not know the unique origins of this popular treat. Chocolate is a product that requires complex procedures to produce. The process involves harvesting coca, refining coca to cocoa beans, and shipping the cocoa beans to the manufacturing factory for cleaning, coating and grinding. These cocoa beans will then be imported or exported to other countries and be transformed into different type of chocolate products. Ice cream is a frozen dessert usually made from dairy products, such as milk and cream, and often combined with fruits or other ingredients and flavors. The meaning of ice cream varies from one country to another like frozen custard, frozen yogurt, sorbet, and gelato and so on. The ice cream industry has traditionally grown at a healthy rate of 12% per annum. India is the second largest milk producing country. Milk products like butter, curd, ghee, etc have become an essential part of our food and are consumed in good quantity every day. In spite of the huge demand that exists for such milk based items conventional methods are employed for producing these items. The growth in cocoa, chocolate, Ice cream and other milk product industry has been primarily due to strengthening of distribution network and cold chain infrastructure.

Some of the fundamentals of the book are cocoa bean production, sources of cocoa bean supplies, refining for production of chocolate masses for different uses, shipment of cocoa beans, cocoa processes, cocoa for drinking, instant cocosas, drinking chocolates manufacturing cocoa, cocoa butter & replacement fats, coatings and cocoa, chocolate manufacture, chocolate bars and covered confectionery, chocolate molding, determination of fat in cocoa and chocolate products, determination of cooling curve of cocoa butter and similar fats, the manufacture of dairy products, ice cream manufacture, energy value and nutrients of ice cream etc.

The present book contain formulae, processes and other relevant details related to manufacture of cocoa products, chocolates, ice cream and other milk products. An attempt has been made to bring in to focus the significant aspect of cocoa products, dairy products manufacturing. It is hoped that the subject matter contain
Contents

1. COCOA BEAN PRODUCTION
   Introduction
   Botanical types
   The preparation of cocoa beans
   Fermentation
   Drying
   The cut test
   Sources of cocoa bean supplies
   Shipment of cocoa beans
   Infestation of cocoa
   Microbiology of cocoa

2. COCOA MASS, COCOA POWDER, COCOA BUTTER
   Introduction
   Cocoa mass
   Cocoa powder
   Cocoa butter
   Quality control

3. PARTICLE SIZE REDUCTION
   Introduction
   Current types of particle size reduction process
   Grinding cocoa nib into cocoa mass
   Refining of chocolate masses
   The roll refiner
   Refining for production of chocolate masses for different uses

4. COCOA PROCESSES
   RawBean Cleaning
   Roasting
   The NARS Process
   Micronizer
   Roasting of Nib
   Sterilization
   Alkalization
   Cocoa Liquor Treatment
   Winnowing(Cracking & Fanning)
   Winnowing Machines
   Large nib:
   Small nib:
   Nib dust (fine nib)
   Shell dust, small shell, cyclone dust
   Large shell
   NIB GRINDING, COCOA LIQUOR, HEAT TREATMENT
   Ball or Bead Mills
   PROCESSING OF COCOA LIQUOR
   Flavour Development Processes
   (The following is a summary of the methods used.)
Simple Heating of Thin Films
ThinFilm Roasting and Air Scrubbing
ThinFilm Roasting with Vacuum

About NIIR

NIIR PROJECT CONSULTANCY SERVICES (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

NPCS also publishes varies process technology, technical, reference, self employment and startup books, directory, business and industry database, bankable detailed project report, market research report on various industries, small scale industry and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by professionals including project engineers, information services bureau, consultants and project consultancy firms as one of the input in their research.

NIIR PROJECT CONSULTANCY SERVICES, 106-E, Kamla Nagar, New Delhi-110007, India. Email: npcs.india@gmail.com Website: NIIR.org
