

# Modern Technology of Petroleum, Greases, Lubricants & Petro Chemicals

**Author:** NIIR Board

**Format:** Paperback

**ISBN:** 8186623582

**Code:** NI45

**Pages:** 682

**Price:** Rs. 1,100.00 **US\$** 100.00

**Publisher:** National Institute of Industrial Research

Usually ships within **3** days

Lubricants, Greases and Petrochemicals are most versatile on the Industrial Plateau now a days. The significance of Lubricants, Greases and specialty products in the day-to-day functioning of nearly every machine part, instrument, appliance & device can not be over emphasized lubricants reduce friction & wear between rubbing parts, there by enhancing their life.

## Contents

### 1. Types of Lubricating Oils

Crankcase Oils

Gear Oils

Metal Working Oils

Metal Drawing Oils

Spindle and Other Textile Oils

Steam Turbine Oils

Synthetic Lubricants

Miscellaneous Oils

Fatty Oils

Residual and Petrolatums as Lubricants

Asphalt Residual as Lubricants

Application of Asphalt Residual as Lubricants

Petrolatums as Lubricants

Paraffin Wax as Lubricant

Resinous Materials as Lubricants

Solid Lubricants

Thickeners

Carbohydrates and Proteins as Thickeners

Polymers as Thickening Agents

Acetylene Black as a Thickener

Petroleum Lubricants  
Bolt Lubricants  
Cryogenic Bearing Lubricants  
Lubricants for Missile Systems  
Lubrication with Glass  
2. Formulations and Com-pounding of Lubricants  
Additives for straight Mineral Oil gear Lubricants  
Formulation of Open or Exposed Lubricants  
Formulation of mild type E.P. Lubricants  
Aircraft Lubricant  
Miscellaneous Formulation  
3. Raw Materials for Lubricants  
Test for good fatty acid  
Preformed Soaps  
Advantages and the Use of Preformed Soaps  
Lubricating Oil  
Gravity of Lubricating Oil  
Pour Point of Oil  
Dyes for Colour  
Perfume  
Filler  
Synthetic Lubricants  
4. Equipments for Lubricants Manufacture  
Equipments  
Handling Packaged Raw Material  
Equipment for Saponification  
Equipment for Dispersion of Thickening Agents  
Manufacture of Lubricating Oils  
Milling Equipment  
5. Reclamation of used Lubricating Oil  
Nature of Contaminants in Used Lubricating Oil  
Gravity Methods of Purification  
Filtration  
Regenerating Process of Used Lube Oil  
Contaminants present in Used Lube Oil  
Principles of Used Lub Oil  
Existing Process for Regeneration of Used Lubricating Oils  
Lubricant Recycling  
Reprocessing  
Reclamation  
6. Additives for Lubricants  
Antioxidants, Rust & Corrosion Inhibitors  
Extreme Pressure Additives Antiwear Agents  
Foam Inhibitors  
Viscosity Index Improvers  
Detergents and Dispersants  
Pour Point Depressants  
Antiknock Agents  
Antiscrackers Agents  
7. Characteristics of Lubri  
Viscosity Index of Lubricating Oils  
Vapour Pressure  
Gravity of Lab Oil

Thermal Properties  
Electrical Properties  
Properties under High Pressure  
Surface Properties  
Carbon Residue  
Colour of Tube Oils  
Neutralisation No  
Saporifications No of Petroleum Products  
Aniline Point of Petroleum Products  
Ash content of Petroleum Oils  
Precipitation No of Lube Oils  
8. Cutting Oils  
Metal Forming and Deforming Lubricant  
Cutting Oils  
Heat Treatment Oils  
Industrial Applications  
Types of Cutting Oils  
E.P. Additives or Antiweld  
Future Trend of Cutting Oil  
Formulations of cutting oils  
Hydrogenation Process in Lube Oil Production  
Choice of Catalyst  
9. Greases  
Solid Lubricants  
Semi Solid Lubricants  
Solid Lubricants  
Gareavs Lubricants  
Type of Greeses  
Calcium Soap  
Sodium Soap Greases  
Lithium Soap Greases  
Aluminium Soap Greases  
Mixed Soap Greases  
Complex Soap Greases  
Non-Soap Greases  
Properties of Greases  
Grease Applications  
Market Position  
Fillers  
Carbon Black  
Asbestos  
Mica  
Vermiculite  
Talc  
Various clay or silicate  
Metal Powder  
Metal Oxide  
Manufacturing Process for Grease  
Industrial Grease  
Manufacturing Process of Greases in General  
Fire Hazards in the Manufacture  
Processing of aluminium base lubricants and greases  
Production of another Barium Base Lubricating Grease

Preparation of Lead Soaps  
Preparation of Lead Base Lub Greases  
10. Formulation of Greases  
Mixed Base Lubricating Greases  
Colouring Lubricating Oils  
Refining of Lube Oil  
Purification of Lube Oil  
Reclaiming Used Lub Oil  
Non-Bleeding Grease  
11. Lubricants and their Manufacture  
Composition of Mineral Oil  
Refining  
Blending  
Synthetic Hydrocarbons  
Synthetic Non hydrocarbons  
Polyalkylene Glycols  
12. Various Formulations of Lubricants and Greases  
Textile Lubricant for Spinning Jute, etc.  
Application of Lead Base Lubricating Greases  
Preparation of Lub Grease from Normal Strontium Soap  
Mixture Base Strontium Soap Lubricating Greases  
Complex Soap Lubricating Greases  
Importance of Soap Salt complexes and their characteristics  
13. Analysis of Quality Assessment of Lubricating  
Greases and Petroleum Products  
Lubricating Greases  
Analysis  
Tests for Melting or Liquefaction  
14. Cracking  
Thermal Cracking  
Coke Removal  
Viscosity Breaking  
Delayed Coking  
Vapour-Phase Cracking  
Gas Cracking  
Catalytic Cracking  
Fixed Bed Catalytic Cracking  
Moving Bed Catalytic Cracking Process  
Fluid Flow Catalytic Cracking Process  
Types of Fluid flow catalysts  
Suspensoid Catalytic Cracking  
Cycloversion Catalytic Cracking  
Reforming  
Gas Reversion and Polyforming  
Catalytic Reforming  
Hydroforming  
Fluid Hydroforming  
Platforming  
Processing of Cracked Gases  
Cold Sulphuric Acid Polymerization  
Hot Sulphuric Acid Polymerisation  
Solid Phosphoric Acid Polymerisation  
Low pressure regenerative Process

High Pressure Non-regenerative Chamber Process  
High Pressure Non-Regenerative Reactor Process  
Hydrogenation  
Dehydrogenation  
Alkylation  
Isomerization  
15. Refining of Petroleum Products  
Chemical Refining  
Physical Refining  
Solvent Extraction Processes  
Dewaxing  
Propane Dewaxing  
Benzol-Acetone Dewaxing  
Benzol Sulphur Dioxide Dewaxing  
16 Manufacture of Asphaltic Bitumen  
Steam-Refined Asphaltic Bitumen  
Blown Asphaltic Bitumen  
Pitch-Type Asphaltic Bitumen  
17. Chemicals from Petroleum  
Feedstocks  
Chemicals from saturated hydrocarbons  
Chemicals from Olefins  
Oxidation of Olefins  
Chlorination of Ethylene  
Chlorination of Olefins  
Chlorination of Propylene  
Chlorination of Butenes  
Chlorhydrination of Olefins  
Hydrochlorination of Olefins  
Sulphonation of Olefins  
Oxo Process  
Ketones and their derivatives  
Aldehydes and their derivatives  
Acids and their derivatives  
Acetic Acid and Acetic Anhydride  
Olefin oxides and their derivatives  
Aromatics  
Naphthenes and Naphthenic Acids  
Carbon Monoxide-hydrogen system  
Inorganic Compounds  
18. Natural and Cracked Gases  
General Properties  
Natural Gas  
Refinery gas  
Liquefied petroleum gas  
19. Petroleum Waxes  
Nature of the petroleum waxes  
Composition of the petroleum waxes  
Production of waxes  
The properties of petroleum waxes  
Paraffin Waxes  
Microcrystalline waxes  
Solid state transitions in paraffin waxes

The effect of crystalline modifying agents of the properties of paraffin wax

Utilization of petroleum waxes

20. Bitumen

Emulsions and cutbacks

Rheological Properties

Wetting and adhesive properties

Application

Industrial applications

21. Petroleum Products

L.P.G. (Liquefied Petroleum Gas)

Synthesis Gas

Motor Gasoline

Aviation Gasoline

Kerosene

Jet Fuels

Diesel Fuels

Industrial Naphthas

Heating Oils and Residual Fuel Oils

Light, Medium and Heavy Fuel Oils

Petroleum Waxes

Micro Crystalline Wax from slack wax

Petroleum Jelly

Bitumen

Petroleum Coke

Carbon Black

22. ABS Resin

Uses and Applications

Manufacturing Process

23. Acetaldehyde

24. Acetic Acid

25. Acetone

26. Acrylamide Monomer

27. Acrylonitrile

28. Benzaldehyde

29. Adipic Acid

30. Benzene Hexachloride (B.H.C.)

31. Benzoic Acid

32. Benzyl Chloride

33. Bisphenol -A

34. Butadiene

35. Diethyl Toluamide

36. Dimethyl Formamide

37. Ethyl Acetate

38. Ethylene Oxide

39. Formaldehyde

40. Formic Acid

41. Fumaric Acid

42. Iso Propyl Alcohol

43. Methyl Amines

44. Nitrobenzene

45. Phthalic Anhydride

46. Poly Carbonates

- 47. Polyols
- 48. Polyurethane Foam
- 49. Vinyl Chloride

## About NIIR

**NIIR Project Consultancy Services (NPCS)** is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are: Pre-feasibility study, New Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies, Market Surveys and Studies, Preparation of Techno-Economic Feasibility Reports, Identification and Selection of Plant and Machinery, Manufacturing Process and or Equipment required, General Guidance, Technical and Commercial Counseling for setting up new industrial projects and industry.

NPCS also publishes various technology books, directory, databases, detailed project reports, market survey reports on various industries and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by Indian and overseas professionals including project engineers, information services bureau, consultants and consultancy firms as one of the inputs in their research.
