

Modern Technology of Petroleum, Greases, Lubricants & Petro Chemicals

Author: NIIR Board

Format: Paperback

ISBN: 8186623582

Code: NI45

Pages: 682

Price: Rs. 1,100.00 **US\$** 100.00

Publisher: National Institute of Industrial Research

Usually ships within **3** days

Lubricants, Greases and Petrochemicals are most versatile on the Industrial Plateau now a days. The significance of Lubricants, Greases and specialty products in the day-to-day functioning of nearly every machine part, instrument, appliance & device can not be over emphasized lubricants reduce friction & wear between rubbing parts, there by enhancing their life.

Contents

1. Types of Lubricating Oils

Crankcase Oils

Gear Oils

Metal Working Oils

Metal Drawing Oils

Spindle and Other Textile Oils

Steam Turbine Oils

Synthetic Lubricants

Miscellaneous Oils

Fatty Oils

Residual and Petrolatums as Lubricants

Asphalt Residual as Lubricants

Application of Asphalt Residual as Lubricants

Petrolatums as Lubricants

Paraffin Wax as Lubricant

Resinous Materials as Lubricants

Solid Lubricants

Thickeners

Carbohydrates and Proteins as Thickeners

Polymers as Thickening Agents

Acetylene Black as a Thickener

Petroleum Lubricants
Bolt Lubricants
Cryogenic Bearing Lubricants
Lubricants for Missile Systems
Lubrication with Glass
2. Formulations and Com-pounding of Lubricants
Additives for straight Mineral Oil gear Lubricants
Formulation of Open or Exposed Lubricants
Formulation of mild type E.P. Lubricants
Aircraft Lubricant
Miscellaneous Formulation
3. Raw Materials for Lubricants
Test for good fatty acid
Preformed Soaps
Advantages and the Use of Preformed Soaps
Lubricating Oil
Gravity of Lubricating Oil
Pour Point of Oil
Dyes for Colour
Perfume
Filler
Synthetic Lubricants
4. Equipments for Lubricants Manufacture
Equipments
Handling Packaged Raw Material
Equipment for Saponification
Equipment for Dispersion of Thickening Agents
Manufacture of Lubricating Oils
Milling Equipment
5. Reclamation of used Lubricating Oil
Nature of Contaminants in Used Lubricating Oil
Gravity Methods of Purification
Filtration
Regenerating Process of Used Lube Oil
Contaminants present in Used Lube Oil
Principles of Used Lub Oil
Existing Process for Regeneration of Used Lubricating Oils
Lubricant Recycling
Reprocessing
Reclamation
6. Additives for Lubricants
Antioxidants, Rust & Corrosion Inhibitors
Extreme Pressure Additives Antiwear Agents
Foam Inhibitors
Viscosity Index Improvers
Detergents and Dispersants
Pour Point Depressants
Antiknock Agents
Antiscrackers Agents
7. Characteristics of Lubri
Viscosity Index of Lubricating Oils
Vapour Pressure
Gravity of Lab Oil

Thermal Properties
Electrical Properties
Properties under High Pressure
Surface Properties
Carbon Residue
Colour of Tube Oils
Neutralisation No
Saporifications No of Petroleum Products
Aniline Point of Petroleum Products
Ash content of Petroleum Oils
Precipitation No of Lube Oils
8. Cutting Oils
Metal Forming and Deforming Lubricant
Cutting Oils
Heat Treatment Oils
Industrial Applications
Types of Cutting Oils
E.P. Additives or Antiweld
Future Trend of Cutting Oil
Formulations of cutting oils
Hydrogenation Process in Lube Oil Production
Choice of Catalyst
9. Greases
Solid Lubricants
Semi Solid Lubricants
Solid Lubricants
Gareavs Lubricants
Type of Greeses
Calcium Soap
Sodium Soap Greases
Lithium Soap Greases
Aluminium Soap Greases
Mixed Soap Greases
Complex Soap Greases
Non-Soap Greases
Properties of Greases
Grease Applications
Market Position
Fillers
Carbon Black
Asbestos
Mica
Vermiculite
Talc
Various clay or silicate
Metal Powder
Metal Oxide
Manufacturing Process for Grease
Industrial Grease
Manufacturing Process of Greases in General
Fire Hazards in the Manufacture
Processing of aluminium base lubricants and greases
Production of another Barium Base Lubricating Grease

Preparation of Lead Soaps
Preparation of Lead Base Lub Greases
10. Formulation of Greases
Mixed Base Lubricating Greases
Colouring Lubricating Oils
Refining of Lube Oil
Purification of Lube Oil
Reclaiming Used Lub Oil
Non-Bleeding Grease
11. Lubricants and their Manufacture
Composition of Mineral Oil
Refining
Blending
Synthetic Hydrocarbons
Synthetic Non hydrocarbons
Polyalkylene Glycols
12. Various Formulations of Lubricants and Greases
Textile Lubricant for Spinning Jute, etc.
Application of Lead Base Lubricating Greases
Preparation of Lub Grease from Normal Strontium Soap
Mixture Base Strontium Soap Lubricating Greases
Complex Soap Lubricating Greases
Importance of Soap Salt complexes and their characteristics
13. Analysis of Quality Assessment of Lubricating
Greases and Petroleum Products
Lubricating Greases
Analysis
Tests for Melting or Liquefaction
14. Cracking
Thermal Cracking
Coke Removal
Viscosity Breaking
Delayed Coking
Vapour-Phase Cracking
Gas Cracking
Catalytic Cracking
Fixed Bed Catalytic Cracking
Moving Bed Catalytic Cracking Process
Fluid Flow Catalytic Cracking Process
Types of Fluid flow catalysts
Suspensoid Catalytic Cracking
Cycloversion Catalytic Cracking
Reforming
Gas Reversion and Polyforming
Catalytic Reforming
Hydroforming
Fluid Hydroforming
Platforming
Processing of Cracked Gases
Cold Sulphuric Acid Polymerization
Hot Sulphuric Acid Polymerisation
Solid Phosphoric Acid Polymerisation
Low pressure regenerative Process

High Pressure Non-regenerative Chamber Process
High Pressure Non-Regenerative Reactor Process
Hydrogenation
Dehydrogenation
Alkylation
Isomerization
15. Refining of Petroleum Products
Chemical Refining
Physical Refining
Solvent Extraction Processes
Dewaxing
Propane Dewaxing
Benzol-Acetone Dewaxing
Benzol Sulphur Dioxide Dewaxing
16 Manufacture of Asphaltic Bitumen
Steam-Refined Asphaltic Bitumen
Blown Asphaltic Bitumen
Pitch-Type Asphaltic Bitumen
17. Chemicals from Petroleum
Feedstocks
Chemicals from saturated hydrocarbons
Chemicals from Olefins
Oxidation of Olefins
Chlorination of Ethylene
Chlorination of Olefins
Chlorination of Propylene
Chlorination of Butenes
Chlorhydrination of Olefins
Hydrochlorination of Olefins
Sulphonation of Olefins
Oxo Process
Ketones and their derivatives
Aldehydes and their derivatives
Acids and their derivatives
Acetic Acid and Acetic Anhydride
Olefin oxides and their derivatives
Aromatics
Naphthenes and Naphthenic Acids
Carbon Monoxide-hydrogen system
Inorganic Compounds
18. Natural and Cracked Gases
General Properties
Natural Gas
Refinery gas
Liquefied petroleum gas
19. Petroleum Waxes
Nature of the petroleum waxes
Composition of the petroleum waxes
Production of waxes
The properties of petroleum waxes
Paraffin Waxes
Microcrystalline waxes
Solid state transitions in paraffin waxes

The effect of crystallinely modifying agents of the properties of paraffin wax

Utilization of petroleum waxes

20. Bitumen

Emulsions and cutbacks

Rheological Properties

Wetting and adhesive properties

Application

Industrial applications

21. Petroleum Products

L.P.G. (Liquefied Petroleum Gas)

Synthesis Gas

Motor Gasoline

Aviation Gasoline

Kerosene

Jet Fuels

Diesel Fuels

Industrial Naphthas

Heating Oils and Residual Fuel Oils

Light, Medium and Heavy Fuel Oils

Petroleum Waxes

Micro Crystalline Wax from slack wax

Petroleum Jelly

Bitumen

Petroleum Coke

Carbon Black

22. ABS Resin

Uses and Applications

Manufacturing Process

23. Acetaldehyde

24. Acetic Acid

25. Acetone

26. Acrylamide Monomer

27. Acrylonitrile

28. Benzaldehyde

29. Adipic Acid

30. Benzene Hexachloride (B.H.C.)

31. Benzoic Acid

32. Benzyl Chloride

33. Bisphenol -A

34. Butadiene

35. Diethyl Toluamide

36. Dimethyl Formamide

37. Ethyl Acetate

38. Ethylene Oxide

39. Formaldehyde

40. Formic Acid

41. Fumaric Acid

42. Iso Propyl Alcohol

43. Methyl Amines

44. Nitrobenzene

45. Phthalic Anhydride

46. Poly Carbonates

- 47. Polyols
- 48. Polyurethane Foam
- 49. Vinyl Chloride

About NIIR

NIIR Project Consultancy Services (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are: Pre-feasibility study, New Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies, Market Surveys and Studies, Preparation of Techno-Economic Feasibility Reports, Identification and Selection of Plant and Machinery, Manufacturing Process and or Equipment required, General Guidance, Technical and Commercial Counseling for setting up new industrial projects and industry.

NPCS also publishes various technology books, directory, databases, detailed project reports, market survey reports on various industries and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by Indian and overseas professionals including project engineers, information services bureau, consultants and consultancy firms as one of the inputs in their research.

National Institute of Industrial Research , 106-E, Kamla Nagar, New Delhi-110007, India. **Email:** niir@vsnl.com **Website:** NIIR.org
