

Hand Book on Neem & Allied Products

Author: NIIR Board

Format: Paperback

ISBN: 8178330415

Code: NI49

Pages: 478

Price: Rs. 975.00 **US\$** 100.00

Publisher: National Institute of Industrial Research

Usually ships within **3** days

The neem tree, which is also known as Margosa or Indian lilac, grown extensively in Asian and African countries. The neem is very useful tree due to its medicinal and insecticidal properties and can be grown even under semi arid and subhumid conditions upto 700m above sea level. The book covers cultivation of neem and processing of its products. It will be of immense value to all concerned with manufacturing of neem products; consultants Institutions or those who want to diversify in to production of neem based products.

Contents

1. Technology for Production of Insecticides of Plant Origin at Rural Level

Materials and Methods

Results and Discussion

Use of leaf Bits

Use of Leaf Extracts

Impregnation of Bags with Kernel Extract

Surface Treatment of Bins

Vapour Effect of Extract/Oil

Technology for Rural Level

2. Neem seed cake as a Source of Pests Control Chemicals

Methods and Materials

Results and Discussion

3. Neem oil as Possible Biorational Insecticide

Materials and Methods

Results and Discussion

4. Improving the Productivity of Neem Trees

Distribution

Agroclimatic Adaptability
Establishment and Growth
Production and uses
Non-wood Products
Environmental Safety
Problems of Neem Production and Utilization
Propagation of Neem
Variation in Germplasm
Silvicultural Practices to Improve Productivity
Establishment of neem
Fruiting
Seed Collection and Processing
Promotion of Neem Production
Packaging of Silvicultural Practices
Popularising the Use of Neem Products
Marketing of the Produce

5. Vegetative Propagation of *Azadirachta indica* A. Juss.

Materials and Methods

Mist Propagation

Micropropagation

Results

Mist Propagation

Micropropagation

Discussion

6. An Assay of Genetic Variability through Phenological Studies on Neem (*Azadirachta indica* A. Juss.)

Plantation

Materials and Methods

Observations and Discussions

7. Chemistry of Neem (*Azadirachta indica*), a Sustainable Source of Natural Pesticides

8. Photo-oxidation of Tetranortriterpenoids

Materials and Methods

Results and Discussion

9. New Tetra and Pentanortriterpenoids from *Azadirachta indica* A. Juss.

Results and Discussion

1 a-Destigloyl-1a-benzoylazadirachtin (II)

11b-Hydroxyazadirachtinin (III)

4a-benzoyl nimbandiol [V]

Ochinin Acetate [VII] and Ochinolide B [VIII]

10. Machineries for Neem Processing

Materials and Methods

Results and Discussion

Summary and conclusion

Suggestions for Further Work

11. Engineering Properties of Neem Nut

Introduction

Review of Literature

Materials and Methods

Apparatus and Procedure

Dimensions and Hardness

Nut weight and Kernel-shell Mass Ratio

Angle of Repose

Porosity

Bulk Density and Particle Density

Friction

Preparation of Samples

Results and Discussion

Dimensions and Hardness

Nut Weight and Kernel-Shell Mass Ratio

Angle of Repose and Porosity

Bulk Density and Particle Density

Coefficient of Friction

Conclusions

12. Neem and Transfer of Technology

Use of Neem Pest Control

Transfer of Neem Technology to the Farmers in India

As Pest Control Agent

On Tobacco

On-Farm Trial

Demonstration Trials

Lab-to Land Programme

NSKS in Integrated Pest Management

On Cotton

On Paddy

On Pulses

On Castor

Use of Neem Cake as Nematicide

Use of Neem Oil as a Suckericide on Tobacco

Neem Cake as Organic Manure

13. Processing of Neem Fruit and Seed

Availability of neem

Collection and processing of fruit and seed

Depulpers, driers and decorticators

Driers

Decorticators

Discussion of Results

Maturity, storage and pressing of seed

Maturation of Oil in Stored Fruits

Depulping of The Neem Fruit

Cost of Operation

Crushing of Neem Seed Kernels in Wardha Ghani

Fall of Oil yield with Storage

Processing of Neem Seed Kernel and production of

Neem Oil

Crushing

Storage Experiments on Neem Seed

Conclusions

Characteristics of neem oil and its quality

Specific Gravity and Refractive Index

Acid Value

Alcohol Soluble Material in the oil

Other Characteristics

Unsaponifiable Matter

14. Processing of Neem Oil and its Utilization

Quantitative estimation of the different constituents of neem oil by alcohol extraction

Total Dilute Alcohol Extractive of Neem Oil

Large Scale Alcohol Extraction of Neem Oil

Refining of alcohol-extracted oil

Alkali Treatment

Refining Loss on Alkali Treatment

Bleaching of Neutral oil (Alcohol-Extracted and Alkali-Refined)

Hydrogenation Experiments (Laboratory Scale) with Neutral and Bleached Neem Oil

Refining Loss in Factory Pilot Unit

Tentative Cost of the Process of Alcohol Extraction of Neem oil based on the Pilot Plant work

High Pressure Splitting

Deodorization and hydrogenation of purified and refined oil

Alkali Refining

Hydrogenation of Refined Neem Oil

Soap

Stearin and olein

Pyronimin, a denaturant

Pyronimis-A Denaturant for Alcohol

Production of the Denaturants

Requirement of the Denaturants

Results of tests with the denatured spirit

Tentative Specifications for Pyronimin-250

Tentative Specifications for 'Total Bitters' Fraction

Tentative Specifications for the Spirit Denatured with Pyronimin and 'Total Bitters' on Neem

Pharmaceutical Preparations with the Bitter Constituents

Preparations from Nimbodin-T and their uses

Costing

Other Experiments at Refining

Factors influencing industrial utilization of neem oil and its by-products

15. Medicinal Uses

Uses of neem in indigenous system of medicine

Medicinal Uses of Neem in Recent Times

16. Cold Processing of Neem Seed

Experiment

Seed Cleaning
Mechanical Destoner
Mechanical Sieve-shaker Separator Fitted with
Air Cyclone System
Sedimentation (Gravitational) Technique
Decoration of Seed
Crushing
Discussion

17. Products from Neem

Semi-greaseless cold cream
Skin toning lotions
Cream Cholesterin Type
Herbal Soap (Neem based)
Neem based tooth paste
Radhas Ayurvedic Soap
Arya Neem Plus Turmeric Herbal Soap
Krishna Tulsi Herbal Soap
Medimix Skin Care Capsule
Shodha
Alargin forte
Beauty plus
Dantshodhak
Hemoclin syrup
Epidermoil Oil
Neem capsule
Charmi capsules
Hemocleen

18. Repellent Action of Neem Oil on Insects of

Public Health Importance
Methodology
Results
Discussion
Conclusion

19. Effect of Neem Oil: Structural and Functional

Change in the Epididymis of Rats
Materials and Methods
Neem Oil
Animals
Sperm Motility and Sperm Count
Biochemical Estimations
Histological Investigation
Statistical Analysis
Results
Discussion

20. Rat Toxicity Studies with Neem Oil

Materials and Methods
Neem Oil
Animals
Biochemical Studies

Statistical Analysis
Results
Tissue Biochemical Parameters
Blood and Serum Parameters
Histological Studies
Discussion

21. Evaluation of Neem Extract Sprays on Maize

Introduction
Materials and Methods
Results
Discussion

22. Antifeedant and Insecticidal Activity of Some
Neem Fractions

Materials and Methods
Results and Discussion

23. *Azadirachta indica* A. Juss. Stem Bark as an
Anti-Leprosy Source

Materials and Methods
Observation and Results
Pharmacognosy
Macromorphology of Bark
Micromorphology of Bark
Powder Study
Phytochemistry
Biochemical Estimation (Percentage on Dry Weight Basis)
Geochemical Estimation
Active Principle Determination (from Ethanolic Extract)
Chemical Identity Comparison
Discussion

24. Evaluation of Neem Derivatives and *Lantana camara* L.
against Cardamom Pests

Materials and Methods
Field Evaluation of Neem Derivatives against the
Cardamom Thrips, *Sciothrips cardamomi* (Ramk.)
Field Evaluation of Neem Oil against Cardamom
Whitefly, *Dialeurodes cardamomi* David & Subr.
Laboratory Evaluation of the Crude Extract of Stem of
Lantana camara against the Cardamom Hairy
Caterpillar, *Eupterots undata*
Laboratory Evaluation of the Crude Extract of the Stem of
Lantana camara L. against Cardamom Shoot Borer,
Conogethes punctiferalis (Guen.)
Results and Discussion
Effect of Neem Derivatives on Cardamom Thrips
Effect of Neem Oil on Cardamom Whitefly
Effect of 1 per cent Suspension of the Extract of *Lantana*
camara on *E. undata*
Effect of 1 per cent Suspension of the Extract of *L. camara*
on *C. punctiferalis*

25. Development of a Neem Formulation and Its Evaluation
for Control of Crop Pests

Materials and Methods

Product Development

Laboratory Studies

Field Studies

Results and Discussion

Laboratory Studies

Field Studies

26. Effect of Neem Cake, Neem Oil, Repelin and
Carbofuran on Control of Soybean Nematodes

Materials and Methods

Results and Discussion

27. Thyroid Hormones and Intermediary Metabolism
in Fish: Influence of Neem Kernel Extract

Materials and Methods

Results

Effect of T3 or T4 in Fish Injected with NKE

Effect of T3 and T4 in Fish Immersed in NKE-treated Water

Discussion

28. Clinical Studies with Praneem Polyherbal Cream in
Chlamydial Cervicitis

Materials and Methods

Polyherbal Cream

Patients

Diagnostic Methods for *C. trachomatis*

Dose Schedule

Follow-up

Results

Discussion

29. Identification and Characterization of the Immunomodulator
Fraction from Neem Seed Extract Responsible for
Long-term Anti-fertility Activity

Materials and Methods

Results

Conclusion

30. Identification of Effective and Inexpensive Neem
(*Azadirachta indica* A. Juss.) Seed Kernel Extract

Materials and Methods

Seed Collection and Processing

Extraction

Aqueous Extract (AE)

Ethanollic Extract (EtoHE)

Hexane Extract (HE)

Chloroform Extract of DNKP (CHEDK)

Ethanol Soluble (Eto HSHE) and Insoluble (EtoHIHE)

Part of Hexane Extract

Extract Yield
Formulation of the Extracts
Rearing Culture of *H. armigera*
Biological Testing
Oviposition
Ovicidal
Feeding deterrent
Growth and Development
Results
Effect on Oviposition
Effect on Egg Hatching
Effect on Feeding
Effect on Growth and Development
Pupal Mortality and Adult Emergence
Discussion
Effect of oviposition
Effect on Egg Hatching
Effect on Feeding
Effect on Growth and Development of Larvae
Conclusion

31. Field Evaluation of Some Botanical Insecticides Alone
and in Combination with Other Insecticides for
Management of Bollworm Complex on Cotton
Materials and Methods
Results and Discussion
RD-9 Repelin
Neemark
Ind-Ne
Conclusions

32. Evaluation of Enriched Neem (*Azadirachta indica* A. Juss.)
Seed Extracts against Mango Hoppers, *Idioscopus*
nitidulus Walker and *Amritodus atkinsoni* Leth.
Materials and Methods
Laboratory Trial
Field trials
Results
Laboratory trials
Field Trials
Evaluation of neem derivatives for control of mango
hopper, *I. nitidulus*
Discussion

33. Potential of Neem in Insect Pest Management in Rice
Introduction
Materials and Methods
Results and Discussion
Effect of Neem Oil on Rice Leaf Folder and Stem Borer
Efficacy of Neem-based Insecticides Against Stem Borer
Effect of Neem-based Insecticides on the Growth
and Development of White-backed Planthopper
Combination of Neem-based Products with Synthetic

Insecticides

34. Effect of Neem Kernel Extract and Neem Oil on Nutritive and Reproductive Physiology of *Heliothis armigera* Hub.

Materials and Methods

Mass Culture and Biological Studies

Preparation of Extracts

Treatment

Quantitative Food Utilization

Efficiency of Digestion

Reproduction Studies

Biochemical Assays

Enzyme Assays

RESULTS

Effects on Reproductive Parameters

Effects on Quantitative Food Utilization

Effects on Efficiency of Digestion and Digestive Enzymes

Effect on Protein, Glycogen, Lipid and Enzyme Profiles in Subsequent Female Moths

Effect on Protein, Glycogen, Lipid and Enzyme Profiles in Subsequent Male Moths

Discussion

Conclusion

35. Bioefficacy of Some Neem Formulations against *Spodoptera litura* F.

Materials and Methods

Laboratory Tests

Nursery Experiment

Studies on Effect of Repelin B versus Repelin A and

NSKS against *S. litura* on Castor in Laboratory

Studies on Effect of Repelin B Alone and in Combination with Endosulfan against *S. litura* (1992)

Bio-efficacy of Repelin B and Other New Neem

Formulations against *S. litura* on Tobacco (1992)

Results and Discussion

Laboratory Tests

Nursery Experiments

Effect of Repelin B versus Repelin A and NSKS against

S. litura on Castor in Laboratory

Choice Situations

No-choice Situation

Effect of Repelin B alone and in Combination with

Endosulfan against Tobacco Caterpillar, *s. litura* on Tobacco

Bio-efficacy of Repelin B and Other New Neem

Formulations against *S. litura* (1992)

Laboratory tests

No-choice Situation

Nursery Tests

36. Effects of Extracts from Neem on Aphids

(Homoptera: Aphididae) and Their Natural Enemies

Materials and Methods

Azadirachtin Content

Aphid Control

Aphid Natural Enemies

Antifeedant Activity

Aphid Reproduction

Results and Discussion

Aphid Control

Aphid Natural Enemies

Antifeedant Activity

Aphid Growth and Development

Aphid Reproduction

Conclusion

37. Azadirachtin Content and Bioactivity of Some Neem

Ecotypes of India

Materials

Methods

Estimation of Azadirachtin Content

Kernels

Oil

Extraction and Enrichment

Physicochemical Properties of Oil

Azadirachtin Estimation by PHLC

Insect Growth Regulation (IGR)

Fungicidal Activity

Results and Discussion

Azadirachtin Content of Neem Ecotypes

Kernels

Oil

Enrichment

Insect Growth Regulation

Fungicidal Property

38. The Effects of Various Neem Formulations on Mortality

Rate and Morphogenetic Defects Upon *Schistocerca*

gregaria (Forsk.) Larvae

Materials and Methods

Laboratory Insects

Field Insects

Neem Products

Controls

Application of the Larvae

Application of the Vegetation

Results

Mortality Rates Following Application of Neem

Products to Larvae

Mortality Rates after Treatment of the Plants with

Enriched Neem Oil; The Repellent Effect of Neem

Morphogenetic Defects

Discussion

39. Efficacy of Cakes in the Management of Root Knot Nematode (*M. arenaria*) in Groundnut

Materials and Methods
Results and Discussion

40. Efficacy Profile of a Commercial Neem Insecticide

Factors Influencing the Commercial Success of Azadirachtin

Consistency and Quality of Extracts

Product Positioning

Supply and Availability

Increase in Environmental Awareness

The Acceptance of Insect-Growth-Regulators

Cost of Raw Material

Important Commercial Characteristics of Azadirachtin

Representative Efficacy Data with Azatin/Turplex/Align in the United States

41. Evaluation of Nematicidal Potential in Neem

Allelochemicals

Materials and Methods

Results

Discussion

Directory Section

About NIIR

NIIR Project Consultancy Services (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are: Pre-feasibility study, New Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies, Market Surveys and Studies, Preparation of Techno-Economic Feasibility Reports, Identification and Selection of Plant and Machinery, Manufacturing Process and or Equipment required, General Guidance, Technical and Commercial Counseling for setting up new industrial projects and industry.

NPCS also publishes various technology books, directory, databases, detailed project reports, market survey reports on various industries and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by Indian and overseas professionals including project engineers, information services bureau, consultants and consultancy firms as one of the inputs in their research.

National Institute of Industrial Research , 106-E, Kamla Nagar, New Delhi-110007, India. **Email:** niir@vsnl.com **Website:** NIIR.org
