

## Hand Book on Neem & Allied Products

**Author:** NIIR Board  
**Format:** Paperback  
**ISBN:** 8178330415  
**Code:** NI49  
**Pages:** 478  
**Price:** Rs. 975.00 **US\$** 100.00  
**Publisher:** National Institute of Industrial Research  
Usually ships within **3** days

The neem tree, which is also known as Margosa or Indian lilac, grown extensively in Asian and African countries. The neem is very useful tree due to its medicinal and insecticidal properties and can be grown even under semi arid and subhumid conditions upto 700m above sea level. The book covers cultivation of neem and processing of its products. It will be of immense value to all concerned with manufacturing of neem products; consultants Institutions or those who want to diversify in to production of neem based products.

### Contents

1. Technology for Production of Insecticides of Plant Origin at Rural Level
  - Materials and Methods
  - Results and Discussion
  - Use of leaf Bits
  - Use of Leaf Extracts
  - Impregnation of Bags with Kernel Extract
  - Surface Treatment of Bins
  - Vapour Effect of Extract/Oil
  - Technology for Rural Level
2. Neem seed cake as a Source of Pests Control Chemicals
  - Methods and Materials
  - Results and Discussion
3. Neem oil as Possible Biorational Insecticide
  - Materials and Methods
  - Results and Discussion
4. Improving the Productivity of Neem Trees
  - Distribution

Agroclimatic Adaptability  
Establishment and Growth  
Production and uses  
Non-wood Products  
Environmental Safety  
Problems of Neem Production and Utilization  
Propagation of Neem  
Variation in Germplasm  
Silvicultural Practices to Improve Productivity  
Establishment of neem  
Fruiting  
Seed Collection and Processing  
Promotion of Neem Production  
Packaging of Silvicultural Practices  
Popularising the Use of Neem Products  
Marketing of the Produce

5. Vegetative Propagation of *Azadirachta indica* A. Juss.

Materials and Methods

Mist Propagation

Micropropagation

Results

Mist Propagation

Micropropagation

Discussion

6. An Assay of Genetic Variability through Phenological Studies on Neem (*Azadirachta indica* A. Juss.)

Plantation

Materials and Methods

Observations and Discussions

7. Chemistry of Neem (*Azadirachta indica*), a Sustainable Source of Natural Pesticides

8. Photo-oxidation of Tetranortriterpenoids

Materials and Methods

Results and Discussion

9. New Tetra and Pentanortriterpenoids from *Azadirachta indica* A. Juss.

Results and Discussion

1 a-Destigloyl-1a-benzoylazadirachtin (II)

11b-Hydroxyazadirachtinin (III)

4a-benzoyl nimbandiol [V]

Ochinin Acetate [VII] and Ochinolide B [VIII]

10. Machineries for Neem Processing

Materials and Methods

Results and Discussion

Summary and conclusion

Suggestions for Further Work

## 11. Engineering Properties of Neem Nut

Introduction

Review of Literature

Materials and Methods

Apparatus and Procedure

Dimensions and Hardness

Nut weight and Kernel-shell Mass Ratio

Angle of Repose

Porosity

Bulk Density and Particle Density

Friction

Preparation of Samples

Results and Discussion

Dimensions and Hardness

Nut Weight and Kernel-Shell Mass Ratio

Angle of Repose and Porosity

Bulk Density and Particle Density

Coefficient of Friction

Conclusions

## 12. Neem and Transfer of Technology

Use of Neem Pest Control

Transfer of Neem Technology to the Farmers in India

As Pest Control Agent

On Tobacco

On-Farm Trial

Demonstration Trials

Lab-to Land Programme

NSKS in Integrated Pest Management

On Cotton

On Paddy

On Pulses

On Castor

Use of Neem Cake as Nematicide

Use of Neem Oil as a Suckericide on Tobacco

Neem Cake as Organic Manure

## 13. Processing of Neem Fruit and Seed

Availability of neem

Collection and processing of fruit and seed

Depulpers, driers and decorticators

Driers

Decorticators

Discussion of Results

Maturity, storage and pressing of seed

Maturation of Oil in Stored Fruits

Depulping of The Neem Fruit

Cost of Operation

Crushing of Neem Seed Kernels in Wardha Ghani

Fall of Oil yield with Storage

Processing of Neem Seed Kernel and production of

Neem Oil

Crushing

Storage Experiments on Neem Seed

Conclusions

Characteristics of neem oil and its quality

Specific Gravity and Refractive Index

Acid Value

Alcohol Soluble Material in the oil

Other Characteristics

Unsaponifiable Matter

14. Processing of Neem Oil and its Utilization

Quantitative estimation of the different constituents of neem oil by alcohol extraction

Total Dilute Alcohol Extractive of Neem Oil

Large Scale Alcohol Extraction of Neem Oil

Refining of alcohol-extracted oil

Alkali Treatment

Refining Loss on Alkali Treatment

Bleaching of Neutral oil (Alcohol-Extracted and Alkali-Refined)

Hydrogenation Experiments (Laboratory Scale) with Neutral and Bleached Neem Oil

Refining Loss in Factory Pilot Unit

Tentative Cost of the Process of Alcohol Extraction of Neem oil based on the Pilot Plant work

High Pressure Splitting

Deodorization and hydrogenation of purified and refined oil

Alkali Refining

Hydrogenation of Refined Neem Oil

Soap

Stearin and olein

Pyronimin, a denaturant

Pyronimis-A Denaturant for Alcohol

Production of the Denaturants

Requirement of the Denaturants

Results of tests with the denatured spirit

Tentative Specifications for Pyronimin-250

Tentative Specifications for 'Total Bitters' Fraction

Tentative Specifications for the Spirit Denatured with Pyronimin and 'Total Bitters' on Neem

Pharmaceutical Preparations with the Bitter Constituents

Preparations from Nimbodin-T and their uses

Costing

Other Experiments at Refining

Factors influencing industrial utilization of neem oil and its by-products

15. Medicinal Uses

Uses of neem in indigenous system of medicine

Medicinal Uses of Neem in Recent Times

16. Cold Processing of Neem Seed

Experiment

Seed Cleaning  
Mechanical Destoner  
Mechanical Sieve-shaker Separator Fitted with  
Air Cyclone System  
Sedimentation (Gravitational) Technique  
Decoration of Seed  
Crushing  
Discussion

#### 17. Products from Neem

Semi-greaseless cold cream  
Skin toning lotions  
Cream Cholesterin Type  
Herbal Soap (Neem based)  
Neem based tooth paste  
Radhas Ayurvedic Soap  
Arya Neem Plus Turmeric Herbal Soap  
Krishna Tulsi Herbal Soap  
Medimix Skin Care Capsule  
Shodha  
Alargin forte  
Beauty plus  
Dantshodhak  
Hemoclin syrup  
Epidermoil Oil  
Neem capsule  
Charmi capsules  
Hemocleen

#### 18. Repellent Action of Neem Oil on Insects of

Public Health Importance  
Methodology  
Results  
Discussion  
Conclusion

#### 19. Effect of Neem Oil: Structural and Functional

Change in the Epididymis of Rats  
Materials and Methods  
Neem Oil  
Animals  
Sperm Motility and Sperm Count  
Biochemical Estimations  
Histological Investigation  
Statistical Analysis  
Results  
Discussion

#### 20. Rat Toxicity Studies with Neem Oil

Materials and Methods  
Neem Oil  
Animals  
Biochemical Studies

Statistical Analysis  
Results  
Tissue Biochemical Parameters  
Blood and Serum Parameters  
Histological Studies  
Discussion

21. Evaluation of Neem Extract Sprays on Maize

Introduction  
Materials and Methods  
Results  
Discussion

22. Antifeedant and Insecticidal Activity of Some  
Neem Fractions

Materials and Methods  
Results and Discussion

23. *Azadirachta indica* A. Juss. Stem Bark as an  
Anti-Leprosy Source

Materials and Methods  
Observation and Results  
Pharmacognosy  
Macromorphology of Bark  
Micromorphology of Bark  
Powder Study  
Phytochemistry  
Biochemical Estimation (Percentage on Dry Weight Basis)  
Geochemical Estimation  
Active Principle Determination (from Ethanolic Extract)  
Chemical Identity Comparison  
Discussion

24. Evaluation of Neem Derivatives and *Lantana camara* L.  
against Cardamom Pests

Materials and Methods  
Field Evaluation of Neem Derivatives against the  
Cardamom Thrips, *Sciothrips cardamomi* (Ramk.)  
Field Evaluation of Neem Oil against Cardamom  
Whitefly, *Dialeurodes cardamomi* David & Subr.  
Laboratory Evaluation of the Crude Extract of Stem of  
*Lantana camara* against the Cardamom Hairy  
Caterpillar, *Eupterots undata*  
Laboratory Evaluation of the Crude Extract of the Stem of  
*Lantana camara* L. against Cardamom Shoot Borer,  
*Conogethes punctiferalis* (Guen.)  
Results and Discussion  
Effect of Neem Derivatives on Cardamom Thrips  
Effect of Neem Oil on Cardamom Whitefly  
Effect of 1 per cent Suspension of the Extract of *Lantana*  
*camara* on *E. undata*  
Effect of 1 per cent Suspension of the Extract of *L. camara*  
on *C. punctiferalis*

25. Development of a Neem Formulation and Its Evaluation  
for Control of Crop Pests

Materials and Methods

Product Development

Laboratory Studies

Field Studies

Results and Discussion

Laboratory Studies

Field Studies

26. Effect of Neem Cake, Neem Oil, Repelin and  
Carbofuran on Control of Soybean Nematodes

Materials and Methods

Results and Discussion

27. Thyroid Hormones and Intermediary Metabolism  
in Fish: Influence of Neem Kernel Extract

Materials and Methods

Results

Effect of T3 or T4 in Fish Injected with NKE

Effect of T3 and T4 in Fish Immersed in NKE-treated Water

Discussion

28. Clinical Studies with Praneem Polyherbal Cream in  
Chlamydial Cervicitis

Materials and Methods

Polyherbal Cream

Patients

Diagnostic Methods for *C. trachomatis*

Dose Schedule

Follow-up

Results

Discussion

29. Identification and Characterization of the Immunomodulator  
Fraction from Neem Seed Extract Responsible for  
Long-term Anti-fertility Activity

Materials and Methods

Results

Conclusion

30. Identification of Effective and Inexpensive Neem  
(*Azadirachta indica* A. Juss.) Seed Kernel Extract

Materials and Methods

Seed Collection and Processing

Extraction

Aqueous Extract (AE)

Ethanollic Extract (EtoHE)

Hexane Extract (HE)

Chloroform Extract of DNKP (CHEDK)

Ethanol Soluble (Eto HSHE) and Insoluble (EtoHIHE)

Part of Hexane Extract

Extract Yield  
Formulation of the Extracts  
Rearing Culture of *H. armigera*  
Biological Testing  
Oviposition  
Ovicidal  
Feeding deterrent  
Growth and Development  
Results  
Effect on Oviposition  
Effect on Egg Hatching  
Effect on Feeding  
Effect on Growth and Development  
Pupal Mortality and Adult Emergence  
Discussion  
Effect of oviposition  
Effect on Egg Hatching  
Effect on Feeding  
Effect on Growth and Development of Larvae  
Conclusion

31. Field Evaluation of Some Botanical Insecticides Alone  
and in Combination with Other Insecticides for  
Management of Bollworm Complex on Cotton  
Materials and Methods  
Results and Discussion  
RD-9 Repelin  
Neemark  
Ind-Ne  
Conclusions

32. Evaluation of Enriched Neem (*Azadirachta indica* A. Juss.)  
Seed Extracts against Mango Hoppers, *Idioscopus*  
*nitidulus* Walker and *Amritodus atkinsoni* Leth.  
Materials and Methods  
Laboratory Trial  
Field trials  
Results  
Laboratory trials  
Field Trials  
Evaluation of neem derivatives for control of mango  
hopper, *I. nitidulus*  
Discussion

33. Potential of Neem in Insect Pest Management in Rice  
Introduction  
Materials and Methods  
Results and Discussion  
Effect of Neem Oil on Rice Leaf Folder and Stem Borer  
Efficacy of Neem-based Insecticides Against Stem Borer  
Effect of Neem-based Insecticides on the Growth  
and Development of White-backed Planthopper  
Combination of Neem-based Products with Synthetic

## Insecticides

### 34. Effect of Neem Kernel Extract and Neem Oil on Nutritive and Reproductive Physiology of *Heliothis armigera* Hub.

#### Materials and Methods

#### Mass Culture and Biological Studies

#### Preparation of Extracts

#### Treatment

#### Quantitative Food Utilization

#### Efficiency of Digestion

#### Reproduction Studies

#### Biochemical Assays

#### Enzyme Assays

#### RESULTS

#### Effects on Reproductive Parameters

#### Effects on Quantitative Food Utilization

#### Effects on Efficiency of Digestion and Digestive Enzymes

#### Effect on Protein, Glycogen, Lipid and Enzyme Profiles in Subsequent Female Moths

#### Effect on Protein, Glycogen, Lipid and Enzyme Profiles in Subsequent Male Moths

#### Discussion

#### Conclusion

### 35. Bioefficacy of Some Neem Formulations against *Spodoptera litura* F.

#### Materials and Methods

#### Laboratory Tests

#### Nursery Experiment

#### Studies on Effect of Repelin B versus Repelin A and

#### NSKS against *S. litura* on Castor in Laboratory

#### Studies on Effect of Repelin B Alone and in Combination with Endosulfan against *S. litura* (1992)

#### Bio-efficacy of Repelin B and Other New Neem

#### Formulations against *S. litura* on Tobacco (1992)

#### Results and Discussion

#### Laboratory Tests

#### Nursery Experiments

#### Effect of Repelin B versus Repelin A and NSKS against

#### *S. litura* on Castor in Laboratory

#### Choice Situations

#### No-choice Situation

#### Effect of Repelin B alone and in Combination with

#### Endosulfan against Tobacco Caterpillar, *s. litura* on Tobacco

#### Bio-efficacy of Repelin B and Other New Neem

#### Formulations against *S. litura* (1992)

#### Laboratory tests

#### No-choice Situation

#### Nursery Tests

### 36. Effects of Extracts from Neem on Aphids

## (Homoptera: Aphididae) and Their Natural Enemies

Materials and Methods

Azadirachtin Content

Aphid Control

Aphid Natural Enemies

Antifeedant Activity

Aphid Reproduction

Results and Discussion

Aphid Control

Aphid Natural Enemies

Antifeedant Activity

Aphid Growth and Development

Aphid Reproduction

Conclusion

## 37. Azadirachtin Content and Bioactivity of Some Neem

Ecotypes of India

Materials

Methods

Estimation of Azadirachtin Content

Kernels

Oil

Extraction and Enrichment

Physicochemical Properties of Oil

Azadirachtin Estimation by PHLC

Insect Growth Regulation (IGR)

Fungicidal Activity

Results and Discussion

Azadirachtin Content of Neem Ecotypes

Kernels

Oil

Enrichment

Insect Growth Regulation

Fungicidal Property

## 38. The Effects of Various Neem Formulations on Mortality

Rate and Morphogenetic Defects Upon *Schistocerca*

*gregaria* (Forsk.) Larvae

Materials and Methods

Laboratory Insects

Field Insects

Neem Products

Controls

Application of the Larvae

Application of the Vegetation

Results

Mortality Rates Following Application of Neem

Products to Larvae

Mortality Rates after Treatment of the Plants with

Enriched Neem Oil; The Repellent Effect of Neem

Morphogenetic Defects

Discussion

39. Efficacy of Cakes in the Management of Root Knot  
Nematode (*M. arenaria*) in Groundnut

Materials and Methods  
Results and Discussion

40. Efficacy Profile of a Commercial Neem Insecticide  
Factors Influencing the Commercial Success of  
Azadirachtin

Consistency and Quality of Extracts  
Product Positioning  
Supply and Availability  
Increase in Environmental Awareness  
The Acceptance of Insect-Growth-Regulators  
Cost of Raw Material  
Important Commercial Characteristics of Azadirachtin  
Representative Efficacy Data with Azatin/Turplex/Align  
in the United States

41. Evaluation of Nematicidal Potential in Neem

Allelochemicals  
Materials and Methods  
Results  
Discussion

Directory Section

## About NIIR

**NIIR Project Consultancy Services (NPCS)** is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are: Pre-feasibility study, New Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies, Market Surveys and Studies, Preparation of Techno-Economic Feasibility Reports, Identification and Selection of Plant and Machinery, Manufacturing Process and or Equipment required, General Guidance, Technical and Commercial Counseling for setting up new industrial projects and industry.

NPCS also publishes various technology books, directory, databases, detailed project reports, market survey reports on various industries and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by Indian and overseas professionals including project engineers, information services bureau, consultants and consultancy firms as one of the inputs in their research.
