

Electroplating, Anodizing & Metal Treatment Hand Book

Author: NIIR Board

Format: Paperback

ISBN: 8178330652

Code: NI63

Pages: 708

Price: Rs. 975.00 **US\$** 100.00

Publisher: National Institute of Industrial Research

Usually ships within **3** days

Electroplating & Metal finishing both are an art and science. This book is concerned with chemical, physical, electromechanical and Electroplating processes. Electrodeposition of metals is a very significant industrial process. A large number of metals are electrodeposited on metals and non-metals. The general principles, processes preparatory to heating like degreasing, cleaning, pickling etc. are all delineated.

Contents

I. METAL SURFACE PREPARATION AND CLEANING

1. Basic Metal Surface

Nature of the Surface

Brightness

2. Polishing, Brushing and Buffing

Polishing

Adhesives

Lubrication

Brushing

Deburring

Buffing and Polishing Equipment

3. Mass Finishing Methods

Vibratory Finishing Equipment

Centrifugal Barrel Finishing

Parts to Media Ratios

Mass Finishing Media and Compounds

4. Electropolishing

The Electropolished Surface

Types of Metal Electropolished

Electropolishing Equipment

- 5. Solvent Cleaning
 - Solvent Cleaning
 - Diphase Cold Cleaning
 - Stability
 - Materials of Construction
 - Design Consideration
 - Location of Vapour Degreaser
 - Shutdown Procedure
 - Choosing a Vapour Degreasing Solvent
 - Water Removal
- 6. Alkaline Cleaning
 - Soils
 - Machining and Forming Oils
 - Alkaline Descalers
- 7. Oxide Removal
 - Oxide Removal from Copper Alloys
 - Equipment for Pickling and Bright Dipping

II. TYPICAL PROCESSING AND OPERATING SEQUENCES

- 8. Metals
 - Pretreatments
 - Preliminary Treatment
 - Final Treatment
 - Low-Carbon Steel
 - High-carbon and Low-Alloy Steels
 - Stainless Steels
 - Cast Irons
 - Copper and Copper-Base Alloys
 - Zinc-Base Die Castings
 - Magnesium and Its Alloys
 - Lead and Lead Alloys
 - Powder Metal Compacts
 - Less common Metals
 - Intermediate Electrodeposited Coating as Basis Metal Surface
- 9. Plastics
 - Plating
 - Electroless Plating
- 10. Wastewater Control and Treatment
 - Water Supply
 - Water and Chemical Conservation
 - Chemical and Water Recovery
 - Evaporative Recovery
 - Reverse Osmosis
 - Electrodialysis
 - Ion Exchange
 - Waste water Treatment-Segregation and Collection
 - Hexavalent Chromium Reduction
 - Pretreatment
 - Neutralization
 - Flocculation
 - Special Treatment Methods
 - Solids Management
 - Maintenance

11. Plating Bath Compositions and Operating Conditions
Effects of Hydrogen
Stripping and Salvaging of Defective Plated Items

III. TESTING ELECTRODEPOSITED COATINGS

12. Thickness Tests
Microscopic-Optical Methods
Double-Beam Interference Microscope, Interferometry
Magnetic Method
Eddy Current
Mass per Unit Area
Weight Gain Method
X-Ray Methods
Beta Backscatter (BBS)
Microresistance Technique
13. Corrosion Tests
Outdoor Exposure Tests
Electrolytic Corrosion (EC) Test
14. Inspection
Factors in Visual Inspection
Arriving at a Standard of Acceptability
Degree of Finish
Inspection of Coloured and Other than Bright Finishes
Inspection Equipment
Inspection Personnel

IV. SURFACE PROTECTION AND FINISHING TREATMENTS

15. Phosphate Coating Processes
Amorphous Phosphate Coatings on Aluminum Surfaces
Process Cycles
Discussion of Process Steps in Practical Procedures
Immersion Processes
Spray Processes, with Solution Recirculation
Design Features
Simplified and Specialized Processes
16. Chromate Conversion Coatings
Metals Commonly Chromated
Control of Electroplating Solutions
Coatings for Conversion Coatings
17 Sulfuric and Chromic Acid Anodizing of Aluminium
Sulfuric Acid Anodizing
Colouring
Power Supply
Coating Properties
Chromic Acid Anodizing
Processing Steps
Electrolyte Maintenance
Designation System for Anodic Coatings
Anodizing and Surface Conversion Treatments
for Magnesium
Pickling
Tank Equipment for Cleaning Acid Pickling
Anodizing Processes

18. Electroplating Formulae of Various
Electroplating and Allied Chemicals
Electroplating not alluminium
Gold Electroplating
Iron Electroplating
19. Principles of Electroplating
Polarisation
20. Properties of Electroplating 428
Conducting Salts
Plating Quality
21. Electroplating or Coatings on Silver, Copper and leads
Coating of Silver
Alkaline Bath
Plant and Machineries Details for Electroplating Baths Salts
22. Conservation of Materials and Energy in
Electroplating Industries with Effluent Treatment
Regeneration and Recovery Techniques Applications
for Waste Water Treatment
Techniques for Uniform Metal Distribution Chemicals
will exceed the costs associated with purchasing
Choice of Finish and Process
Plating From Low Concentrated Solutions at
Room Temperatur
23 Black Chrome Plating for Solar Energy Conversion
Hull Cell Studies
Effect of Plating Time on Optical Properties
24 Pickling of Metals
Chemical and Electrolytic Pickling Compared
Tin and Lead Additions
Regeneration of Pickling Solutions
25 Pickling Conditions and Solution Compositions
Pickling of Cast Iron
Pickling in Salt Baths
Pickling of Copper and Copper Alloys
Pickling of Copper Alloys
Pickling of Aluminium
Acid or Cold Pickling
Pickling of Magnesium
Pickling of Silver
Pickling of Titanium
26 Cadmium Plating
27 Cobalt Plating
28 Copper Plating
Coppering by Simple Immersion
Bath Preparation
29. Iron Plating
30 Nickel Plating
Nickel fluoborate bath
Precautions
Semi-Bright Nickel Plating
Stabilisers
Barrel Nickel Plating
Heavy Nickel Plating

Nickel Electroforming & Electrotyping
31 Silver Plating
Application of silver Plating
32 Gold Electroplating
Stripping Gold
Current-Density, 0.15 Ampere
Gold Baths for Hot Gilding
Tanks for Gold Baths
For Gold-Plating in the Cold Bath the Process Is As Follows
Gold Thread
Methods of Plating Stainless Steel
33 Nonelectrolytic Metal Coating Processes
Non-Catalytic Chemical Methods
Maintenance of Immersion and Contact Baths
Sensitizing for Chemical Reduction
34 Vapour-Phase Methods
Vacuum Evaporation
Coating Properties
Sputtering
Range of Applicability
Apparatus Configuration
Ion Plating
Chemical Vapour Deposition (CVD)
Apparatus Configuration
35 Catalytic Methods
Catalytic Chromium Plating
Electroless Copper Plating
Reducing Agents
The Operation of Electroless Copper Baths
Electroless Copper Treatment Sequence
Solution Formulations
Analysis of Deposit
Corrosion Resistance of Deposits
Applications for Electroless Nickel
Boron Nickel Alloys
36 Electroforming
Mandrel Types and Materials
Mandrel Design and Fabrication
Preparation of Mandrel Surfaces
Electroforming Solutions and Deposit Properties
Control of Electroforming Processes
Machining and Final Finishing of the Electroform
37. Industrial Anodising of Aluminium and its Alloys
Impurities and Bath Control
38. Environmental-Regulatory Restrictions, Response of Paint Industry and Eco-Friendly Coating
Enactment of Rule 66 on the Use of Organic Solvents
Strategy of Paint Industry
Powder Coatings
39 Plating of Precious Metals
Silver Plating
Operating Conditions
Materials of Construction
Maintenance and Control of Solutions

40. Control of Electroplating Solutions Using Hull
Cell Studies
Hull Cell
Case Studies using Hull Cell
Current Efficiency Test
41 Corrosion and their Preventive Measures and
Pollution Control Consideration
The Mechanism of Basic Corrosion
Protection of Intergranular Corrosion

About NIIR

NIIR Project Consultancy Services (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are: Pre-feasibility study, New Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies, Market Surveys and Studies, Preparation of Techno-Economic Feasibility Reports, Identification and Selection of Plant and Machinery, Manufacturing Process and or Equipment required, General Guidance, Technical and Commercial Counseling for setting up new industrial projects and industry.

NPCS also publishes various technology books, directory, databases, detailed project reports, market survey reports on various industries and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by Indian and overseas professionals including project engineers, information services bureau, consultants and consultancy firms as one of the input in their research.

National Institute of Industrial Research , 106-E, Kamla Nagar, New Delhi-110007, India. **Email:** niir@vsnl.com **Website:** NIIR.org
