Herbal cosmetics are the product of cosmetic chemistry, a science that combines the skills of specialists in chemistry, physics, biology, medicine and herbs. Since cosmetics are applied mostly to the skin, hair and nails, a brief description of the anatomy of these is desirable. In classifying herbal cosmetics, it must be considered that the consumers of these preparations, most of whom are girls and women, are more concerned with their physical than their chemical characteristics. Now-a-days herbal cosmetic is occupying more popularity than synthetic cosmetic. So there is very good scope for new entrants, because it has both domestic as well as export market. The present book contains formulae, manufacturing processes of different herbal cosmetics like cosmetics for skin, nails, hair etc. It also covers analysis method of cosmetics, toxicity and test method. The book is very useful for new entrepreneurs, technologists, professionals, researchers and for those who are already in this field.

Indians Medical System advocates the use of medicinal plants as drug source. Drugs obtained from plant origin occupy important position in different pharmacopoeias. Products from natural sources are an integral part of human health care system because of major concern about synthetic drugs and their side effects and toxicity. The ancient Indian system of medicine needs verification on modern scientific basis. An attempt to blend ancient and modern science as well as art could be fruitful and such attempts must be carried out on sound scientific basis. The book is very useful for research scholars, technocrats, institutional libraries and entrepreneurs who want to enter into the field of manufacturing herbal beauty products.

A man entering an industry soon finds that most of the products manufactured by his company are not synthetic or definite chemical compounds, but are mixtures, blends or highly complex compounds of which he knows little or nothing. The literature in these fields, if any, may be meager, scattered or antiquated. The purpose of publishing this book is to provide proper formulations of most consumable products like cosmetics, drugs, cleaners, soaps, detergents, dentrices and depilatories. The book is very useful for chemists, new entrepreneurs, existing units, technocrats and engineering students.
