

Cereal Food

[Modern Technology Of Food Processing & Agro Based Industries \(2nd Edn.\)](#)

Author: NIIR board

Format: Paperback

Book Code: NI10

Pages: 1024

ISBN: 8186623345

Price: Rs. 1,575.00 **US\$** 150.00

The book contains confectionery, bakery, canning and preservation, fruits and vegetable products, agro based projects with processes, formulae, machinery and raw materials sources etc.

[Cereal Food Technology \(with Project Profiles\)](#)

Author: P.K.Chattopadhyay

Format: Hardcover

Book Code: NI15

Pages: 195

ISBN: 8186623116

Price: Rs. 1,295.00 **US\$** 125.00

The impact of green revolution since the late sixties was felt mostly on the output of cereals. India become second largest producer of rice and fourth largest of wheat processed food exports have shown encouraging trends in the recent past. The time is now ripe to initiate steps to boost productivity through this sector. This publication is edited by NIIR's Hon. Chief consultant Mr. P. K. Chttopadhyay. He is specliased in cereal processing engineering. This book covers the most advanced technologies available in cereal processing. This book contains following chapters. a) Rice Milling b) Rice products c) Utilities Of storage and preservation techniques of food grains, corn products etc.

[Wheat, Rice, Corn, Oat, Barley and Sorghum Processing Handbook \(Cereal Food Technology\)](#)

Author: NIIR Board of Consultants & Engineers

Format: Paperback

Book Code: NI171

Pages: 464

ISBN: 8178330024

Price: Rs. 975.00 **US\$** 100.00

Cereal grains play an important role in meeting the nutrient needs of the human population. Like any food, they are good to excellent sources of some nutrients and low or void in other nutrients. The vitamins content varies from one part of grain to another. The quality of cereal products is determined by a variety of characteristics which may be assigned different significance depending on the desired and use or type of product. The present book contains processing of various cereal like wheat, rice, corn, oat, barley and sorghum with latest techniques. This is very useful book of entrepreneurs, agriculturists, researchers and professionals.

[Handbook on Rice Cultivation and Processing](#)

Author: NPCS Board of Consultants & Engineers

Format: Paperback

Book Code: NI200

Pages: 544

ISBN: 9788190568524

Price: Rs. 1,075.00 **US\$** 125.00

Since its origin, the spread of rice cultivation is extensive and rice is now being grown wherever water supply is adequate and ambient temperature are suitable. The rice grain is covered with a woody husk or hull, which is indigestible and is to be removed in the first step during processing for making the rice edible. The present book contains cultivation and processing of rice in various ways. The book is very useful for the entrepreneurs, technocrats, research scholars etc.

About NIIR

NIIR Project Consultancy Services (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. Its various services are: Pre-feasibility study, New Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Preparation of Project Profiles and Pre-Investment and Pre-Feasibility Studies, Market Surveys and Studies, Preparation of Techno-Economic Feasibility Reports, Identification and Selection of Plant and Machinery, Manufacturing Process and or Equipment required, General Guidance, Technical and Commercial Counseling for setting up new industrial projects and industry.

NPCS also publishes various technology books, directory, databases, detailed project reports, market survey reports on various industries and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by Indian and overseas professionals including project engineers, information services bureau, consultants and consultancy firms as one of the input in their research.
