The alcoholic and non-alcoholic beverages are being used by human being since centuries back. Market data shows that consumption growth of these beverages has been a worldwide phenomenon, particularly over the past couple of decades. Accompanying the increase in the variety of consumption there has been a parallel increase in the variety of alcoholic and non-alcoholic beverages offered for sale. The alcoholic and non alcoholic beverages described in this book are beer, wine, rum, whisky, cider and different types of fruit juices with packaging systems and other relevant parameters related to their manufacturing. The book will be very helpful to technocrats, new entrepreneurs, research scholars and for those who are already in to this field.
