Production of Powder-Free *Disposable Nitrile Gloves.*

Startup Business Opportunities

in *Nitrile Gloves*

Manufacturing.

24

Introduction

Nitrile gloves are a lot of hypoallergenic choice. Created from synthetic rubbers, the incidence of nitrile rubber allergy is extraordinarily low. Nitrile gloves are not packed in powder and are easy to handle directly on removal from the box. Nitrile gloves are thought-about to be the perfect choice in emergency things once the allergy standing of a patient or user isn't best-known.

Nitrile gloves are extraordinarily durable and puncture resistant. Nitrile gloves will withstand exposure to oils, solvents, and chemicals that simply destroy natural latex gloves. Nitrile gloves are familiar for providing most protection with the ability to provide chemical protection.

How are Nitrile Gloves Made?

Nitrile itself is made in a chemistry lab, undergoing processes that only those of us who have a degree in chemistry would understand. However, what we can wrap our minds around is that the production of Nitrile is much less complicated and much more cost effective than the production of natural latex rubber. Nitrile gloves are made in an assembly line where glove forms are first dipped in a calcium nitrate solution. This solution coagulates on the glove form, and is a factor in how thick the glove is in its final form. Once the calcium nitrate solution has dried evenly on the glove form, the glove form is dipped in the Nitrile solution to form the glove. This cures on the glove form before a strong, direct burst of air blows the newly created glove right off the glove form.

Uses

Nitrile gloves bear one in all three processes: chlorination, polymer coating or by adding cornstarch. Chlorination involves exposing the gloves to chlorine – as an acid mixture or gas – to make the material tougher and slicker. Polymer coating lubricates the glove surface by adding a layer of polymer. For pulverized nitrile gloves about 1/8 teaspoon of cornstarch is usually placed within every glove to act as a lubricating substance and make it easier to done

Nitrile gloves are normally used as test gloves, however because of their strength, lend themselves to multiple uses. Nitrile comes in fine-grained kind, sterile, non-sterile and offered at totally different lengths from wrist to forearm. They're designed for multiple uses that embody basic communicating area checks, to hazardous materials handling, like operating with chemotherapy [chemicals](#).

Powder Free nitrile Gloves are anti-static in behavior, smart solvent resistant, odour free, and therefore helpful in food and dairy farm business. Powder-free gloves reduce the explanation for allergies by lowering protein and [chemical](#) content.

Powdered gloves are sometimes lubricated with cornstarch that makes them a lot of easier to place on. Cornstarch coatings have replaced different powdering choices similar to lycopodium powder and talc because these other coating varieties are found to irritate tissue. Nevertheless, even cornstarch will impede healing once coming back into contact with tissues, thus powder-free gloves are typically most popular for surgeries and alternative sensitive procedures.

Nitrile gloves but don't seem to be as soft as latex gloves, and aren't well-known for being simple to wear. In fact, their strength may be a weakness once coping with applications that need fine movements and dexterity. Nitrile is also slightly more expensive to produce.

Nitrile gloves are most popular over vinyl glove because the latex different. Some hospitals are able to switch to a 100% nitrile glove house-wide policy. For different health care facilities, nitrile examination gloves are utilized in a combination of different medical glove materials. In such cases, these health care facilities have a restricted offer of nitrile gloves that are reserved for useful purposes wherever further protection is required. Nonetheless, it's common to find nitrile gloves in critical and noncritical care units, emergency rooms, labor and delivery wards, laboratories, phlebotomy, pharmacy, medical specialty departments, and [environmental](#) services.

Nitrile gloves are primarily utilized in the medical sector as a safety tool to prevent the spreading of infection between caretakers and patients. The advantages offered by nitrile gloves include superior strength, longevity, and higher protection against blood borne pathogens. Nitrile gloves are latex-free, that has created it a most popular alternative for medical professionals in allergic cases.

Medical gloves are utilized by health care personnel to stop unfold of infection or unhealthiness. Medical gloves are disposable and include patient examination gloves and surgeon's gloves. to assist expand the availability of medical gloves, the Food and Drug Administration is providing restrictive flexibility, as described within the enforcement policy for gloves that's in impact throughout the COVID-19 public health emergency. Once someone touches an object/surface contaminated by COVID-19 infected person, then touches his own eyes, nose, or mouth, he might get exposed to the virus. Though this can be not thought to be a predominant mode of transmission, care ought to be exercised whereas handling objects/surface potentially contaminated by suspect/confirmed cases of COVID-19.

Special Features Nitrile Gloves:-

- Mold to your hand for a great fit
- Latex free
- Good durability
- Excellent puncture resistance
- Have a long shelf life
- Available in powdered and powder free
- Can be worn for longer periods of time
- Work well for high-risk situations involving infectious materials

Advantages

Price: Thin nitrile examination gloves can compete directly in price with latex examination gloves, yet offer significant other benefits.

Comfort: Nitrile softens rapidly on the skin to provide the most comfortable experience, even when the glove is used for extended periods.

Tactility: Close fitting nitrile provides enhanced tactility, especially with micro roughened fingertips.

Chemical Resistance: Nitrile is inherently more chemical resistant than latex.

Improved Heat Dissipation: The thin film nitrile is able to dissipate heat from the hand faster, reducing sweating and skin irritation

Environmental Issues: thin nitrile gloves provide significant environmental advantages, in storage and transportation. Cases of gloves contain up to double the number within the same volume. This ends up in the halving of transportation costs of gloves from the manufacturing website to the distributor, and in addition from the distributor to finish user. Storage prices throughout the availability chain are equally reduced. Finally the cost of disposal of the used product to landfill or incineration is considerably reduced.

Market Outlook

Growing awareness concerning well-being and hygiene amongst medical professionals and patients is estimated to spice up market growth. However, the risk of worth rivalry from native producers is predicted to limit the growth of the market. Prospects in untapped markets that have high potential because of the continuing development of health care [infrastructure](#), increase in occurrences of chronic diseases, and therefore the demand for surgical interventions would any fuel the demand for nitrile gloves within the forecast period.

Asia Pacific market is estimated to witness the fastest growth rate of 6.5% in the nitrile gloves market. This can be chiefly attributed to the growth of the healthcare sector and the food processing industry in the leading countries in this region, especially China, India, and South Korea. The Global Nitrile Gloves Market is expected to reach USD 3.50 Billion by 2027. Growth in the incidences of epidemic diseases and the subsequent increase in the demand for infection prevention and control utilities are expected to drive the market demand.

By end-use business, global nitrile gloves market is segmented as automotive, oil and gas, healthcare, [food](#) process, construction, chemical, and others. Health care accounted for a large share within the world nitrile glove market. Nitrile gloves are fashioned from a synthetic rubber that conjointly resembles to latex. It's best-known to exhibit superior resistance to punctures as compared with typical merchandise. Nitrile, which occurs in pulverized, sterile and non-sterile form, provide several advantages over latex or vinyl products. Nitrile gloves go together with variable lengths from wrist to forearm.

Applications of the nitrile gloves range from basic exam room checks, to hazardous materials handling, such as chemotherapy chemicals. It is also identified as medical grade products. Additionally, higher approval rate and rising product penetration in newer markets are expected to favor market demand over the coming years. It is put through a series of tests conducted by the [Food](#) and Drug Administration (FDA) to assure product durability. The nitrile gloves market is broadly categorized into major segments based on the application type such as automotive industry, oil & gas industry, healthcare sector, [food processing industry](#), building & [construction](#) industry, and chemical sector. Healthcare segment is growing rapidly in the nitrile gloves market with substantial revenue generation in the last few years.

Key players

Ansell, Hartalega Holdings Berhad, Dynarex Corporation, United Glove Inc., Kossan Rubber Industries Ltd., Supermax Corporation Berhad, Rubberex, Adventa Berhad, Kimberly Clark and 3M among others.

Major Queries/Questions Answered in the Report?

- 1. What is Nitrile Gloves Manufacturing industry ?**
- 2. How has the Nitrile Gloves Manufacturing industry performed so far and how will it perform in the coming years ?**
- 3. What is the Project Feasibility of Nitrile Gloves Manufacturing Plant ?**
- 4. What are the requirements of Working Capital for setting up Nitrile Gloves Manufacturing plant ?**

5. What is the structure of the Nitrile Gloves Manufacturing Business and who are the key/major players ?

6. What is the total project cost for setting up Nitrile Gloves Manufacturing Business?

7. What are the operating costs for setting up Nitrile Gloves Manufacturing plant ?

8. What are the machinery and equipment requirements for setting up Nitrile Gloves Manufacturing plant ?

9. Who are the Suppliers and Manufacturers of Plant & Machinery for setting up Nitrile Gloves Manufacturing plant ?

10. What are the requirements of raw material for setting up Nitrile Gloves Manufacturing plant ?

11. Who are the Suppliers and Manufacturers of Raw materials for setting up Nitrile Gloves Manufacturing Business?

12. What is the Manufacturing Process of Nitrile Gloves?

- 13. What is the total size of land required for setting up Nitrile Gloves Manufacturing plant ?**
- 14. What will be the income and expenditures for Nitrile Gloves Manufacturing Business?**
- 15. What are the Projected Balance Sheets of Nitrile Gloves Manufacturing plant ?**
- 16. What are the requirement of utilities and overheads for setting up Nitrile Gloves Manufacturing plant?**
- 17. What is the Built up Area Requirement and cost for setting up Nitrile Gloves Manufacturing Business?**

18. What are the Personnel (Manpower) Requirements for setting up Nitrile Gloves Manufacturing Business?

19. What are Statistics of Import & Export for Nitrile Gloves?

20. What is the time required to break-even of Nitrile Gloves Manufacturing Business?

21. What is the Break-Even Analysis of Nitrile Gloves Manufacturing plant?

22. What are the Project financials of Nitrile Gloves Manufacturing Business?

- 23. What are the Profitability Ratios of Nitrile Gloves Manufacturing Project?**
- 24. What is the Sensitivity Analysis-Price/Volume of Nitrile Gloves Manufacturing plant?**
- 25. What are the Projected Pay-Back Period and IRR of Nitrile Gloves Manufacturing plant?**
- 26. What is the Process Flow Sheet Diagram of Nitrile Gloves Manufacturing project?**

- 27. What are the Market Opportunities for setting up Nitrile Gloves Manufacturing plant?**
- 28. What is the Market Study and Assessment for setting up Nitrile Gloves Manufacturing Business?**
- 29. What is the Plant Layout for setting up Nitrile Gloves Manufacturing Business?**

Table of Contents of the Project Report

Our Detailed Project Report contains

- Introduction
- Properties
- Uses & Applications
- List of Plant & Machineries
- Miscellaneous Items and Accessories
- Instruments, Laboratory Equipments and Accessories
- Electrification, Electric Load and Water
- Maintenance, Suppliers/Manufacturers of Plant and Machineries
- Process of Manufacture
- Flow Sheet Diagram
- List of Raw Materials
- Availability of Raw Materials
- Requirement of Staff & Labour
- Skilled & Unskilled Labour
- Requirement of Land Area
- Built up Area
- Plant Layout.

➤ **Along with financial details as under:**

➤ **Assumptions for Profitability workings**

- Plant Economics
- Production Schedule
- Land & Building
- Factory Land & Building
- Site Development Expenses

➤ **Plant & Machinery**

- Indigenous Machineries
- Other Machineries (Miscellaneous, Laboratory etc.)

➤ **Other Fixed Assets**

- Furniture & Fixtures
- Pre-operative and Preliminary Expenses
- Technical Knowhow
- Provision of Contingencies

Working Capital Requirement Per Month

- Raw Material
- Packing Material
- Lab & ETP Chemical Cost
- Consumable Store

Overheads Required Per Month And Per Annum

- Utilities & Overheads (Power, Water and Fuel Expenses etc.)
- Royalty and Other Charges
- Selling and Distribution Expenses
- Salary and Wages
- Turnover Per Annum
- Share Capital
- Equity Capital
- Preference Share Capital

Annexure 1 Cost of Project and Means of Finance

Annexure 2 Profitability and Net Cash Accruals

- Revenue/Income/Realisation
- Expenses/Cost of Products/Services/Items

Gross Profit

- Financial Charges
- Total Cost of Sales
- Net Profit After Taxes
- Net Cash Accruals

Annexure 3 :: Assessment of Working Capital requirements

- Current Assets
- Gross Working. Capital
- Current Liabilities
- Net Working Capital
- Working Note for Calculation of Work-in-process

Annexure 4 :: Sources and Disposition of Funds

Annexure 5 :: Projected Balance Sheets

- ROI (Average of Fixed Assets)
- RONW (Average of Share Capital)
- ROI (Average of Total Assets)

Annexure 6 :: Profitability ratios

- D.S.C.R
- Earnings Per Share (EPS)
- Debt Equity Ratio

Annexure 7 :: Break-Even Analysis

- Variable Cost & Expenses
- Semi-Var./Semi-Fixed Exp.
- Profit Volume Ratio (PVR)
- Fixed Expenses / Cost
- B.E.P

Annexure 8 to 11 :: Sensitivity Analysis-Price/Volume

- Resultant N.P.B.T
- Resultant D.S.C.R
- Resultant PV Ratio
- Resultant DER
- Resultant ROI
- Resultant BEP

Annexure 12 :: Shareholding Pattern and Stake Status

Equity Capital

Preference Share Capital

Annexure 13 :: Quantitative Details-Output/Sales/Stocks

- Determined Capacity P.A of Products/Services
- Achievable Efficiency/Yield % of Products/Services/Items
- Net Usable Load/Capacity of Products/Services/Items
- Expected Sales/ Revenue/ Income of Products/ Services/ Items

Annexure 14 ::Product wise domestic Sales Realisation

Annexure 15 :: Total Raw Material Cost

Annexure 16 :: Raw Material Cost per unit

Annexure 17 :: Total Lab & ETP Chemical Cost

Annexure 18 :: Consumables, Store etc.

Annexure 19 :: Packing Material Cost

Annexure 20 :: Packing Material Cost Per Unit

Annexure 21 :: Employees Expenses

Annexure 22 :: Fuel Expenses

Annexure 23 :: Power/Electricity Expenses

Annexure 24 :: Royalty & Other Charges

Annexure 25 :: Repairs & Maintenance Exp.

Annexure 26 :: Other Mfg. Expenses

Annexure 27 :: Administration Expenses

Annexure 28 :: Selling Expenses

Annexure 29 :: Depreciation Charges – as per Books (Total)

Annexure 30 :: Depreciation Charges – as per Books (P & M)

Annexure 31 :: Depreciation Charges - As per IT Act WDV (Total)

Annexure 32 :: Depreciation Charges - As per IT Act WDV (P & M)

Annexure 33 :: Interest and Repayment - Term Loans

Annexure 34:: Tax on Profits

Annexure 35 :: Projected Pay-Back Period And IRR

Reasons for Buying our Report:

- **This report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product**
- **This report provides vital information on the product like it's characteristics and segmentation**
- **This report helps you market and place the product correctly by identifying the target customer group of the product**

- **This report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials**
- **The report provides a glimpse of government regulations applicable on the industry**
- **The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions**

Our Approach:

- **Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.**
- **The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players**
- **We use reliable sources of information and databases. And information from such sources is processed by us and included in the report**

Scope of the Report

The report titled “Market Survey cum Detailed Techno Economic Feasibility Report on Nitrile Gloves provides an insight into Nitrile Gloves market in India with focus on uses and applications, Manufacturing Process, Process Flow Sheets, Plant Layout and Project Financials of Nitrile Gloves project. The report assesses the market sizing and growth of the Indian Nitrile Gloves Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line. And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in the Nitrile Gloves sector in India along with its business prospects. Through this report we have identified Nitrile Gloves project as a lucrative investment avenue.

▪ Detailed Project Reports

NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our Market Survey cum Detailed Techno Economic Feasibility Report provides an insight of market in India. The report assesses the market sizing and growth of the Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.

And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

The detailed project report covers all aspect of business, from analyzing the market, confirming availability of various necessities such as Manufacturing Plant, Detailed Project Report, Profile, Business Plan, Industry Trends, Market Research, Survey, Manufacturing Process, Machinery, Raw Materials, Feasibility Study, Investment Opportunities, Cost and Revenue, Plant Economics, Production Schedule,

Working Capital Requirement, uses and applications, Plant Layout, Project Financials, Process Flow Sheet, Cost of Project, Projected Balance Sheets, Profitability Ratios, Break Even Analysis. The DPR (Detailed Project Report) is formulated by highly accomplished and experienced consultants and the market research and analysis are supported by a panel of experts and digitalized data bank.

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in India along with its business prospects.....[Read more](#)

Niir PROJECT CONSULTANCY SERVICES

An ISO 9001:2015 Company

www.entrepreneurindia.co

Who are we?

- *One of the leading reliable names in industrial world for providing the most comprehensive technical consulting services*
- *We adopt a systematic approach to provide the strong fundamental support needed for the effective delivery of services to our Clients' in India & abroad*

We at NPCS want to grow with you by providing solutions scale to suit your new operations and help you reduce risk and give a high return on application investments. We have successfully achieved top-notch quality standards with a high level of customer appreciation resulting in long lasting relation and large amount of referral work through technological breakthrough and innovative concepts. A large number of our Indian, Overseas and NRI Clients have appreciated our expertise for excellence which speaks volumes about our commitment and dedication to every client's success.

We bring deep, functional expertise, but are known for our holistic perspective: we capture value across boundaries and between the silos of any organization. We have proven a multiplier effect from optimizing the sum of the parts, not just the individual pieces. We actively encourage a culture of innovation, which facilitates the development of new technologies and ensures a high quality product.

What do we offer?

- *Project Identification*
- *Detailed Project Reports/Pre-feasibility Reports*
- *Market Research Reports*
- *Business Plan*
- *Technology Books and Directory*
- *Industry Trend*
- *Databases on CD-ROM*
- *Laboratory Testing Services*
- *Turnkey Project Consultancy/Solutions*
- *Entrepreneur India (An Industrial Monthly Journal)*

How are we different ?

- *We have two decades long experience in project consultancy and market research field*
- *We empower our customers with the prerequisite know-how to take sound business decisions*
- *We help catalyze business growth by providing distinctive and profound market analysis*
- *We serve a wide array of customers , from individual entrepreneurs to Corporations and Foreign Investors*
- *We use authentic & reliable sources to ensure business precision*

Our Approach

Requirement collection

Thorough analysis of the project

Economic feasibility study of the Project

Market potential survey/research

Report Compilation
