Introduction

Covid-19, undoubtedly, is bad for business. But for some products, the outbreak has opened a window of opportunity. The spread of Coronavirus pandemic has affected almost every continent and country. While it has created a great panic amongst the people, the world has seen a sudden unfolding of several events, which were beyond imaginations so far.

If you are planning to start a new business and looking for business ideas after the Covid breakdown, we have identified a list of best business ideas that can help you to generate big money.

For these Covid-proof businesses, there's no better time to make some money:-

Disposable Surgical Face Mask & N95 Masks

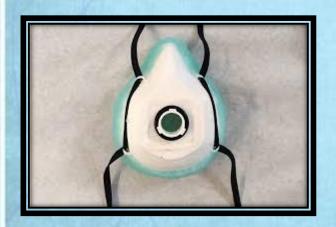

A surgical mask is a loose-fitting, <u>disposable</u> mask that's rectangular in form. The mask has elastic bands or ties that may be coiled behind ears or tied behind head to hold it in place. That has higher bacterium filtration and air permeableness while remaining less slippery than plain-woven textile. The fabric most ordinarily wont to create them is polypropene, either 20 or 25 grams per square metre (gsm) in density. Masks also can be manufactured from polystyrene, polycarbonate, polyethylene, or polyester.

A properly worn three-ply surgical mask may help block transmission of large-particle microorganisms from droplets, sprays, splatters, and splashes. The mask may also reduce the likelihood of hand-to-face contact.

N95 respirators are examples of personal protective equipment that are used to protect the wearer from airborne particles and from liquid contaminating the face. Centers for Disease Control and Prevention (CDC) National Institute for Occupational Safety and Health (NIOSH) and Occupational Safety and Health Administration (OSHA) also regulate N95 respirators.

The N95 designation means that when subjected to careful testing, the respirator blocks at least 95 percent of very small (0.3 micron) test particles. If properly fitted, the filtration capabilities of N95 respirators exceed those of face masks.

Using face-masks in public is very useful in minimizing community transmission and burden of COVID-19, provided their coverage level is high. The masks coverage needed to eliminate COVID-19 decreases if the masks-based intervention is combined with strict social distancing strategy.

Even the World Health Organization says wearing a medical mask is one of the prevention measures to limit spread of certain respiratory diseases, including novel coronavirus (SARS-CoV-2) in affected areas.

Transmission through droplets from coughing and sneezing is one of the major routes of virus spread. When worn correctly, a mask can reduce the risk of inhaling droplets containing the virus.

Surgical Mask Market size is forecast to reach \$66.70 billion by 2025, growing at a CAGR of 5.76% during the forecast period 2020-2025. Advancements in the field of medical surgery and diagnosis and increase in the number of the medical device manufacturing companies along with the frequent outbreak of epidemics are the major factors driving the growth of the market. Increase in the adoption of surgical mask among general population and the rising advancements in the field of medical surgery is set to further enhance the overall market demand of surgical mask during the forecast period 2020-2025.

Related Projects: Business Ideas after the Covid Breakdown

Disposable Surgical Mask

A <u>surgical</u> mask, in addition referred to as a procedure mask, medical mask or just as a face mask, is supposed to be worn by health professionals throughout surgery and through nursing to catch the bacteria shed in liquid droplets and aerosols from the wearer's mouth and nose. They not designed to protect the wearer from eupnoeic mobile bacteria or virus particles and are less effective than respirators, like N95 or FFP masks, that offer higher protection because of their material, type and tight seal.

Surgical masks are disposable devices that cowl the mouth and nose throughout medical procedures. They prevent the spread of infection between sick and well persons. Surgical masks are generally utilized in a health

Related Projects: <u>Hygiene Products, Essential Personal Hygiene Products, Feminine</u>

<u>Hygiene Products</u>

Surgical face masks were originally developed to contain and filter droplets of microorganisms expelled from the mouth and nasopharynx of health-care staff throughout surgery, thereby providing protection for the patient. But there are many ways that within which surgical face masks might potentially contribute to contamination of the surgical wound Facility hospitals, emergency departments, out-patient facilities, residential care facilities, emergency medical services, and residential health healthcare delivery. Throughout health outbreaks, health officers usually suggest that the overall public wear surgical masks to manage the "unfold" of the illness.

The global surgical <u>disposable</u> masks market is anticipated to register a CAGR of 7.1% during the forecast period of 2019-2027. In 2019, global sales of disposable masks are anticipated to be contributed by surgical disposable masks type segment as compared to other product type. Surgical disposable mask holds the significant share in the global disposable mask market. It is expected to reach US\$ 7,058.7 by the end of 2029.

Surgical Disposable Manufacturing Unit (Surgeon Gowns, Patient Gowns, Bed Sheets, Drapes, Surgeon Caps and Sheets)

Surgical apparel is used to produce optimum level of protection by reducing the transfer of bacteria from the skin to the surgical employees. Surgical attire is additionally referred to as surgical article of clothing. A number of the surgical appeals are <u>surgical gloves</u>, face masks, head wear, scrub suits, chemotherapy gowns, foot wear, drapes and surgical gowns. Surgical apparel is important as there are continuously microorganisms on the skin even when conducting sterilization procedure and strict hygiene. Surgical apparels defend bacteria from getting into the surgical wound. Surgical apparels conjointly defend healthcare employees from bodily fluids, blood, saline, piddle and different <u>chemicals</u> throughout surgical treatment.

The market is expected to reach USD 3.14 Billion by 2023 from USD 2.47 Billion in 2018, at a CAGR of 4.9%. Factors such as the increasing number of surgeries and the growing incidence of hospital-acquired infections is driving the growth of this market.

Factors driving the growth of this segment include increasing adoption of surgical drapes in hospitals and ambulatory surgical centers, rising variety of surgeries because of the increasing incidences of chronic diseases, and increasing demand for interference from surgical website infection.

The Surgical apparel market is anticipated to witness significant growth within the forecast period. The market is especially driven by growing demand for defense against clinical hazards. The apparel market is growing towards the high value-added product in medical uses. Technological advancement within the field of health care is considerable for the rising variety of surgeries that additionally increases the utilization of surgical apparels. Growing concern regarding patient's protection is additionally expected to spice up the growth of the surgical apparel market throughout the forecast period. Government laws on the standard and therefore the value of the products might hinder the worldwide surgical apparel market growth.

Medical Disposable Face Masks

A surgical mask, additionally called a procedure mask, medical mask or just as a face mask, is supposed to be worn by health professionals throughout surgery and through nursing to catch the bacteria shed in liquid droplets and aerosols from the wearer's mouth and nose. They not designed to protect the user from breathing airborne bacteria or virus particles and are less effective than respirators, like N95 or FFP masks, that provide higher protection attributable to their material, form and tight seal.

Related Projects: - <u>Disposable Surgical and Medical Face Mask</u>

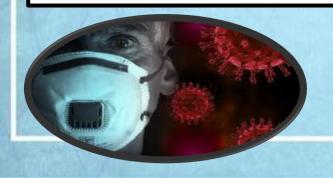

The global Medical Disposable Face Masks Market is anticipated to register a CAGR of 7.1% during of 2019-2027. In 2019, global sales of disposable face masks are anticipated to be contributed by surgical disposable face masks type segment as compared to other product type. Surgical disposable face mask holds the significant share in the global <u>disposable</u> mask market. It is expected to reach US\$ 7,058.7 by the end of 2029.

Surgical masks are made using synthetic material, such as polypropylene fabric or disposable linen. They are commonly used in surgical procedures, serving as a barrier to microorganisms and help prevent cross-contamination. that boost the growth of the India surgical mask market include rapid developments in nonwovens production technology, increase in focus toward preventing hospital-acquired infections (HAIs), and improvement in healthcare infrastructure & services. In addition, surge in disposable income, rise in health awareness, and significant increase in geriatric population supplement the market growth. However, increase in popularity of less invasive surgeries impede the growth of this market. Conversely, innovations in nanotechnology and its increased use in medical nonwoven disposables production are anticipated to create lucrative opportunities for market expansion in the near future.

Project Reports & Profiles

Business Ideas after the Covid Breakdown

Major Queries/Questions Answered in Our Report?

- 1. How has the industry performed so far and how will it perform in the coming years?
- 2. What is the Project Feasibility of the Plant?
- 3. What are the requirements of Working Capital for setting up the plant?
- 4. What is the structure of the industry and who are the key/major players?

- 5. What is the total project cost for setting up the plant?
- 6. What are the operating costs for setting up the plant?
- 7. What are the machinery and equipment requirements for setting

up the plant?

8. Who are the Suppliers and Manufacturers of Plant & Machinery

for

setting up the plant?

9. What are the requirements of raw material for setting up the plant?

- 10. Who are the Suppliers and Manufacturers of Raw materials for setting up the plant?
- 11. What is the Manufacturing Process of the plant?
- 12. What is the total size of land required for setting up the plant?
- 13. What will be the income and expenditures for the plant?
- 14. What are the Projected Balance Sheets of the plant?

- 15. What are the requirement of utilities and overheads for setting up the plant?
- 16. What is the Built up Area Requirement and cost for setting up the plant?
- 17. What are the Personnel (Manpower) Requirements for setting up the plant?
- 18. What are Statistics of Import & Export for the Industry?
- 19. What is the time required to break-even?

- 20. What is the Break-Even Analysis of the plant?
- 21. What are the Project financials of the plant?
- 22. What are the Profitability Ratios of the plant?
- 23. What is the Sensitivity Analysis-Price/Volume of the plant?
- 24. What are the Projected Pay-Back Period and IRR of the plant?
- 25. What is the Process Flow Sheet Diagram of the plant?
- 26. What are the Market Opportunities for setting up the plant?
- 27. What is the Market Study and Assessment for setting up the plant?
- 28. What is the Plant Layout for setting up the plant?

Reasons for Buying Our Report:

- The report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product
- The report provides vital information on the product like it's characteristics and segmentation
- The report helps you market and place the product correctly by identifying the target customer group of the product

- The report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials
- The report provides a glimpse of government regulations applicable on the industry
- The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions

Our Approach:

- Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.
- The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players
- We use reliable sources of information and databases. And information from such sources is processed by us and included in the report

Free Instant Online Project Identification and Selection Service

Our Team has simplified the process for you by providing a "Free Instant Online Project Identification & Selection" search facility to identify projects based on multiple search parameters related to project costs namely: Plant & Machinery Cost, Total Capital Investment, Cost of the project, Rate of Return% (ROR) and Break Even Point % (BEP). You can sort the projects on the basis of mentioned pointers and identify a suitable project matching your investment requisites......Read more

Detailed Project Reports

NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our Market Survey cum Detailed Techno Economic Feasibility Report provides an insight of market in India. The report assesses the market sizing and growth of the Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.

And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- Good Present/Future Demand
- Export-Import Market Potential
- Raw Material & Manpower Availability
- Project Costs and Payback Period

The detailed project report covers all aspect of business, from analyzing the market, confirming availability of various necessities such as Manufacturing Plant, Detailed Project Report, Profile, Business Plan, Industry Trends, Market Research, Survey, Manufacturing Process, Machinery, Raw Materials, Feasibility Study, Investment Opportunities, Cost and Revenue, Plant Economics, Production Schedule,

Working Capital Requirement, uses and applications, Plant Layout, Project Financials, Process Flow Sheet, Cost of Project, Projected Balance Sheets, Profitability Ratios, Break Even Analysis. The DPR (Detailed Project Report) is formulated by highly accomplished and experienced consultants and the market research and analysis are supported by a panel of experts and digitalized data bank. We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in India along with its business prospects.....Read more

NIIR PROJECT CONSULTANCY SERVICES

An ISO 9001:2015 Company

Who are We?

- One of the leading reliable names in industrial world for providing the most comprehensive technical consulting services
- We adopt a systematic approach to provide the strong fundamental support needed for the effective delivery of services to our Clients' in India & abroad

What do We Offer?

- Project Identification
- Detailed Project Reports/Pre-feasibility Reports
- O Business Plan
- Market Research Reports
- Technology Books and Directory
- Industry Trend
- Databases on CD-ROM
- Laboratory Testing Services
- Turnkey Project Consultancy/Solutions
- Entrepreneur India (An Industrial Monthly Journal)

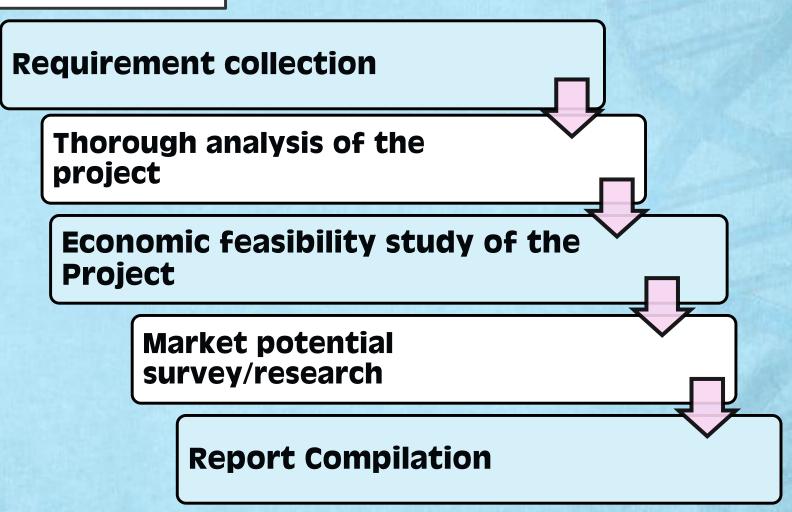

How are We Different?

- We have two decades long experience in project consultancy and market research field
- We empower our customers with the prerequisite know-how to take sound business decisions
- We help catalyze business growth by providing distinctive and profound market analysis
- We serve a wide array of customers, from individual entrepreneurs to Corporations and Foreign Investors
- We use authentic & reliable sources to ensure business precision
