BUSINESS
IDEAS**

Gold and Diamond Jewellery

Jewellery could also be made from a large vary of materials. Gemstones and similar materials similar to amber and coral, precious metals, beads, and shells are widely used, and enamel has usually been important. In most cultures Jewellery are often understood as a status image, for its material properties, its patterns, or for meaningful symbols. [Jewellery](#) has been created to adorn nearly all and sundry part, from hairpins to toe rings, and even genital Jewellery.

Related Projects: - [Miscellaneous Products, Projects](#)

Jewellery helps in enhancing one's beauty. It also symbolizes wealth, power, and status. For some, [Jewellery](#) could be a form of art for self and creative expression. Then, there are some people who use Jewellery as a part of their tradition and culture. Though they may differ in terms of importance and relevance, they all play significant roles.

Related Videos:- [Manufacturing of Gold and Diamond Jewellery](#)

India is deemed to be the hub of the worldwide Jewellery market due to its low costs and availability of high-skilled labour. [India](#) is that the world's largest cutting and polishing centre for diamonds, with the cutting and polishing business being well supported by government policies. Moreover, India exports 75 per cent of the world's polished diamonds, as per statistics from the Gems and [Jewellery](#) Export promotion Council (GJEPC). India's Gems and Jewellery sector has been contributing during a huge way to the country's foreign exchange earnings (FEEs). The government of India has viewed the sector as a thrust area for export promotion. The Indian government presently allows 100 per cent Foreign Direct Investment (FDI) within the sector through the automatic route. The sector employs over 4.64 million employees and is expected to use 8.23 million by 2022.

Cold Storage (Shrimp & Agricultural Products)

Cold Storage may be a special kind of room, the temperature of that is kept very low with the help of machines and precision instruments. India has a unique geographical position and a wide variety of soil therefore producing variety of fruits and vegetables like apples, grapes, oranges, potatoes, chillies, ginger, etc. Marine products are being produced in large quantities because of large coastal areas. The current production level of fruits and vegetables is more than 100 million MT and keeping in view the growth rate of population and demand, the production of perishable commodities is increasing each year. The cold storage facilities are the prime infrastructural component for such perishable commodities. Besides the role of stabilizing market costs and evenly distributing each on demand basis and time basis, the cold storage business renders different advantages and benefits to each the farmers and therefore the consumers.

Related Projects: - Cold storage, Controlled Atmosphere Storage, Multipurpose, Multi-commodity Cold Storage

The farmers get opportunity of producing cash crops to get remunerative costs. The customers get the availability of perishable commodities with lower fluctuation of prices.

Commercially apples, potatoes, oranges are hold on large scale in the cold storages. different vital costly raw materials like dry fruits, chemicals, essences and processed foods like fruit juice/pulp, concentrate dairy products, frozen meat, fish and eggs are being hold on in cold storages to regulate marketing channels of these products.

Related Books: [Infrastructure, Hospitality, Medical, Entertainment, Warehouse, Real Estate, Education, Cold Storage](#)

India is that the largest producer, consumer and exporter of spices and [spice](#) products within the world and produces over 50 [spices](#). India is also a big exporter of chilli, turmeric, cumin, pepper and lots of different spices. The country also imports various [spices](#) to meet its local demand of taste as Indian dishes are incomplete without adding varieties of spices to them. Besides, quality of a sizable quantity of produce also deteriorates by the time it reaches the consumer. This is mainly because of perishable nature of the produce which requires a cold chain arrangement to take care of the quality and extend the shelf-life if consumption is not meant immediately after harvest.

Related Videos:- [Projects on Cold Storage: Multipurpose Cold Storage](#)

Growth in Organized [Food](#) Retail: Organized retail is expected to be amongst the most important drivers of the cold chain market in India. With the growth of the organized food retail, we have a tendency to expect consumers to get access to a very large variety of fresh fruits and vegetables, dairy products, meat and poultry products and a number of different temperature sensitive commodities that require cold chain storage and transportation. Most of the organized retail players have already acknowledged that setting up of a strong cold chain infrastructure may be a key step in efficiently managing their provide chains

Growth within the Processed [Food](#) Sector:

There has been a marked improvement in the consumer demand for processed [foods](#). The Indian government has also declared the intent of establishing several mega food parks. This augurs well for the event of the cold chain business in the country.

India's cold chain business continues to be evolving, not well organized and operating below capacity. Most equipment in use is outdated and single commodity based mostly. According to government estimates, India has 5,400 cold storage facilities, with a combined capacity of 23.66 million metric tons which will store less than 11% of what is made. The majority of [cold storage](#) facilities are used for one commodity, such as potatoes. Most of these facilities are located within the states of [Uttar Pradesh](#), Uttaranchal, [Punjab](#), Maharashtra, and [west Bengal](#). The following table shows distribution of facilities by commodity.

Related Videos:- [Cold Storage- A fruitful investment opportunity](#)

The Indian [Cold Storage](#) market was worth INR 1,121 Billion in 2018. The market is further projected to reach INR 2,618 Billion by 2024, growing at a CAGR of 14.8% during 2019-2024.

Related Videos:- [How to Start a Cold Storage Business Project](#)

The estimated annual production of [fruits and vegetables](#) in the country is about 130 million tonnes. This accounts for 18% of our agricultural output. Because of various agro climatic conditions and better availability of package of practices, the production is step by step rising. Although, there's a vast scope for increasing the production, the lack of cold storage and cold chain facilities are becoming major bottle necks in tapping the potential. The cold storage facilities currently on the market are mostly for a single commodity like potato, orange, apple, grapes, pomegranates, flowers, etc. which results in poor capacity utilization.

Ladies Undergarments

Undergarments are items of article of clothing worn beneath outer garments, usually in direct contact with the skin, though they'll comprise more than a single layer. They serve to stay outer garments from being soiled or damaged by bodily excretions, to lessen the friction of outerwear against the skin, to shape the body, and to provide concealment or support for elements of it. In cold weather, long underwear is usually worn to provide further warmth. Special types of undergarments have religious significance. Some things of clothing are designed as undergarments, while others, such as T-shirts and sure types of shorts, are appropriate both as undergarments and as outer clothing. If made of suitable material or textile, some undergarments will serve as nightwear or swimsuits, and some are intended for sexual attraction or visual appeal.

Related Projects:- [Textile, Apparel, Clothing, Denim wear, Innerwear, Lingerie, Hosiery, Denim Jeans, Readymade Garments and Under Garments Industry.](#)

Undergarments are generally of two varieties, those who are worn to hide the body part and people that are worn to cover the waist and legs, although there are clothes that cover both. Totally different types of undergarments are usually worn by females and males. Undergarments commonly worn by females these days include bras and panties

They are considered as an important garment among females for properly supporting and covering their sensitive body parts, it keeps them fit for daily general works. It also aids to boost the figure of ladies and thence it's used throughout the world.

Related Videos:- [Men & Women Undergarment Manufacturing Business](#)

India [lingerie](#) market stood at around \$ 3 billion in 2017 and is projected to grow at a robust CAGR of around 14% to reach \$ 6.5 billion by 2023, on the back of growing demand for lingerie sets, rising middle class population and increasing number of financially independent women. Technical advancements in lingerie manufacturing, with a rising number of manufacturers using luxurious, delicate fabrics and designs such as mesh and lace, is also augment demand for lingerie products in the country. Growing e-commerce industry coupled with rising demand for premium brands are some of the other factors that are boosting lingerie sales in India during the forecast period.

Related Videos: - [Women's Lingerie-Ladies Undergarments \(Bra & Panties\)](#)

Skill Development Centre

The role of education in facilitating social and economic progress has long been recognized. [Education](#) improves purposeful and analytical ability and there by opens up opportunities for individuals and also groups to achieve greater access to labour markets and livelihoods. A better educated labour force is essential if we are to satisfy the labour provide requirements of faster growth. [Education](#) isn't solely an instrument of enhancing efficiency but is also an effective tool of widening and augmenting democratic participation and upgrading the overall quality of individual and societal life.

Related Books: - [Education Business, Educational Institution, Engineering, Dental, ITI, Management](#)

[Skill Development](#) and Entrepreneurship development efforts across the country have been highly fragmented thus far. Although India enjoys the demographic advantage of having the youngest workforce with an average age of 29 years in comparison with the advanced economies, as opposed to the developed countries, wherever the percentage of skilled force is between 60% and 90% of the whole workforce, India records a coffee 5% of workforce (20-24 years) with formal employability skills.

Related Projects: [Setting up of Educational Institutes, New Colleges, University, School and Institutions, Higher Education](#)

India's population is huge at 1.21 billion. It is fast increasing at a rate of 17% and integrating rapidly into the worldwide economy. India is among the 'young' countries in the world, with the proportion of the work force within the age group of 15-59 years, increasing steadily. However, presently only 2% of the whole workforce in India have undergone skills training. [India](#) includes a nice opportunity to meet the future demands of the world, India will become the worldwide sourcing hub for skilled workforce. The challenges for India get magnified, because it must reach out to the million and force ready population, while facing an ever increasing migration of labour from agriculture to manufacturing and services.

Related Videos:- [Start a Skill Development Training Centre](#)

With the government launching variety of schemes to empower the young workforce, the challenges magnify as there's a requirement for effective implementation of the schemes at the grass root level with equal participation from all the stakeholders concerned. India is one in all the youngest nations within the world with more than 54% of the total population below 25 years of age.

Related Videos: - [Industrial Training Institute \(I.T.I.\), Industrial Training Centers](#)

India is one of the youngest nations in the world with more than 54% of the total population below 25 years of age. India's workforce is the second largest in the world after China's. While China's demographic dividend is expected to start tapering off by 2015, India will continue to enjoy it till 2040. However, India's formally skilled workforce is approximately 2% - which is dismally low compared to China (47%), Japan (80%) or South Korea (96%). To leverage our demographic dividend more substantially and meaningfully, the Government launched the "Skill India" campaign along with "[Make in India](#)". In this brief, we look at the [Skill Development](#) ecosystem in India - the need for Skill Development, initiatives taken by the Government and schemes introduced for skill government by the present government.

Spice Powder

(Turmeric, Chilli, Pepper, Coriander and Cumin Powder)

A [spice](#) may be a seed, fruit, root, bark, or different plant substance primarily used for flavoring or coloring [food](#). [Spices](#) are distinguished from herbs that are the leaves, flowers, or stems of plants used for flavoring or as a garnish. Spices are generally utilized in medicine, religious rituals, cosmetics or perfume production.

Related Projects: [Spices and condiments, Indian Kitchen Spices, Masala Powder](#)

India, known as the house of spices, boasts a long history of trading with the ancient civilizations of Rome and China. Today, Indian spices are the most sought-after globally, given their exquisite aroma, texture, taste and medicinal price. India has the most important domestic marketplace for [spices](#) within the world. Traditionally, spices in India are grown in small land holdings, with organic farming gaining prominence in recent times. India is that the world's largest producer, consumer and exporter of spices; the country produces about 75 of the 109 varieties listed by the international organization for Standardization (ISO) and accounts for half of the worldwide trading in [spices](#).

Related Books: - [Spices And Condiments Cultivation, Processing And Extraction With Formulation](#)

Chilly is that the largest produced spice in India. It contributed to the tune of ~% of the world production. This [spice](#) is used majorly in curried cuisines. It's conjointly utilized in curry power, seasoning and different such spice mixes. MDH was the dominating player in FY'2015, with a market share of ~% in the total revenues generated from the sales of [spices](#) in the organized segment. The most important issue for the dominance of MDH is that the large distribution network comprising of 1,000 wholesalers and over 400,000 retailers in India. The Indian [spices](#) market is pegged at Rs. 40,000 crore annually, of that the branded segment makes up 15 per cent.

Related Videos: - [Spice Oleoresins. Extraction of Oleoresin from Black Pepper, Paprika and Cardamom](#)

The population in India is billowing and therefore the increasing consumer expenditure on [food](#) explains the swelling demand for [food](#) in India. Accordingly, the demand for [spices](#) is expected to grow within the future which is able to lead to a prominent growth in the revenues from the sales of spices in India. The revenues from India market are expected to expand to around USD 18 billion in FY'2020, growing with a CAGR of ~% from FY'2016 to FY'2020. The highest contribution to the current growth is expected to come from the spice mixes and blended spices.

Related Videos: [Spice Production: Masala Powder Making to Packaging Process with Formula](#)

The Indian [spices](#) market is worth INR 40,000 crore annually. Key spices produced in the country include pepper, cardamom, chilli, ginger, turmeric, coriander, cumin, celery, fennel, fenugreek, ajwain, dill seed, garlic, tamarind, clove, and nutmeg among others.

Related Videos: [Spices Industry. Spices and Condiments Processing Business](#)

India is the global [spice](#) market producing tonnes of spice each year. India is also known as the Home of Spice. No Indian food is complete with the uses of spices in it. We Indians have a liking towards food which are really spiced up.

Production of Jute Fabric and Gunny Bags

Jute could be a natural fibres obtained from the bark of the white jute plant or the tossa jute plant. It also known as the golden fibres because of its golden and silky shine, and is extensively utilized in the producing of packaging products and textiles. As a packaging material, jute offers benefits similar to good insulation, low thermal conduction and moderate moisture retention. On account of this, jute bags are used as packaging material for bulk goods still as shopping and gift bags.

Related Projects: Jute and Jute Based Project, Oil, Coir, Shopping Bags Projects

[Jute](#) could be a vegetable fibres. It's very cheap to produce, and its production levels are similar to that of cotton. It's a bast fibres, like hemp, and flax. Coarse materials made of jute are known as hessian, or burlap in America. Like all natural fibres, Jute is [biodegradable](#). "[Jute](#)" is the name of the plant or fiber that is wont to make sacking, hessian or bagging cloth. It very rough and is very difficult to cut or tear.

Related Books:- [Jute & Coir Products](#)

The global [jute](#) bag industry is currently at a nascent stage with encouraging growth aspects. The demand for [jute](#) bags has witnessed a surge over the past few years, particularly in the European Union. This can be attributed to the growing environment consciousness in the region. The imports of [jute](#) bags in non-producing countries have also been facilitated by the ban on [plastic packaging](#) materials and bags. Additionally, the benefits offered by jute bags such as their biodegradability, durability, low cost, high strength, etc. have further supported the market growth to reach a value of US\$ 3.1 Billion by 2024.

Related Videos:- [Jute and Coir Products with Cultivation and Processing](#)

Graphite Crucible

Graphite crucible will withstand the high temperature, and has good resistance to chemical erosions and thermal shock. Especially carbon crucible is right for the melting of aluminium, copper and alternative metals.

Quartz crucible has the benefits of high purity, high temperature resistance, with massive size, smart thermal insulation, economization on energy, quality stability etc. fused quartz crucibles are utilized in the manufacture of silicon metal for semiconductor wafer applications and polysilicon. So as to produce high quality wafers, starting materials are added to a crucible heated to high temperatures and force from the melt as a single crystal. Fused Quartz is one of the few materials which will combine the high purity and high temperature properties required for this process.

Related Projects: - [Minerals](#), [Marble](#), [Granite](#), [Gypsum](#), [Quartz](#), [Talc](#), [Mica Projects](#)

[Graphite crucibles](#) are refractory containers specially formed for metallurgical operations. [Graphite crucibles](#) are made from a mixture of graphite, refractory clay, grog, and different additives. These crucibles are used for melting metallic element, non-[ferrous](#) metals, alloys, and noble metals.

Growth of the manufactory business could be a major factor driving the graphite crucibles market. A growing industrial sector as well as the increasing would like for specialized metal and alloy castings is expected to reinforce the demand for graphite crucibles during the forecast period.

Related Books: - [Minerals & Mineral Processing, Glass And Ceramics](#)

As per an assessment, 8.5% growth in foundry and casting business is estimated across the world. Therefore, the utilization of graphite crucibles is expected to extend accordingly. Development of modern small scale industries and positive outlook of the special casting metallurgical business in countries in Asia Pacific is more estimated to drive the graphite crucibles market within the next few years.

Major Queries/Questions Answered in Our Report?

- 1. How has the industry performed so far and how will it perform in the coming years?**
- 2. What is the Project Feasibility of the Plant?**
- 3. What are the requirements of Working Capital for setting up the plant?**
- 4. What is the structure of the industry and who are the key/major players?**

5. **What is the total project cost for setting up the plant?**
6. **What are the operating costs for setting up the plant?**
7. **What are the machinery and equipment requirements for setting up the plant?**
8. **Who are the Suppliers and Manufacturers of Plant & Machinery for setting up the plant?**
9. **What are the requirements of raw material for setting up the plant?**

- 10. Who are the Suppliers and Manufacturers of Raw materials for setting up the plant?**
- 11. What is the Manufacturing Process of the plant?**
- 12. What is the total size of land required for setting up the plant?**
- 13. What will be the income and expenditures for the plant?**
- 14. What are the Projected Balance Sheets of the plant?**

- 15. What are the requirement of utilities and overheads for setting up the plant?**
- 16. What is the Built up Area Requirement and cost for setting up the plant?**
- 17. What are the Personnel (Manpower) Requirements for setting up the plant?**
- 18. What are Statistics of Import & Export for the Industry?**
- 19. What is the time required to break-even?**

- 20. What is the Break-Even Analysis of the plant?**
- 21. What are the Project financials of the plant?**
- 22. What are the Profitability Ratios of the plant?**
- 23. What is the Sensitivity Analysis-Price/Volume of the plant?**
- 24. What are the Projected Pay-Back Period and IRR of the plant?**
- 25. What is the Process Flow Sheet Diagram of the plant?**
- 26. What are the Market Opportunities for setting up the plant?**
- 27. What is the Market Study and Assessment for setting up the plant?**
- 28. What is the Plant Layout for setting up the plant?**

Reasons for Buying Our Report:

- The report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product
- The report provides vital information on the product like it's characteristics and segmentation
- The report helps you market and place the product correctly by identifying the target customer group of the product

- **The report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials**
- **The report provides a glimpse of government regulations applicable on the industry**
- **The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions**

Our Approach:

- **Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.**
- **The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players**
- **We use reliable sources of information and databases. And information from such sources is processed by us and included in the report**

Free Instant Online Project Identification and Selection Service

Our Team has simplified the process for you by providing a "Free Instant Online Project Identification & Selection" search facility to identify projects based on multiple search parameters related to project costs namely: Plant & Machinery Cost, Total Capital Investment, Cost of the project, Rate of Return% (ROR) and Break Even Point % (BEP). You can sort the projects on the basis of mentioned pointers and identify a suitable project matching your investment requisites.....[Read more](#)

NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our Market Survey cum Detailed Techno Economic Feasibility Report provides an insight of market in India. The report assesses the market sizing and growth of the Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.

And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

The detailed project report covers all aspect of business, from analyzing the market, confirming availability of various necessities such as Manufacturing Plant, Detailed Project Report, Profile, Business Plan, Industry Trends, Market Research, Survey, Manufacturing Process, Machinery, Raw Materials, Feasibility Study, Investment Opportunities, Cost and Revenue, Plant Economics, Production Schedule,

Working Capital Requirement, uses and applications, Plant Layout, Project Financials, Process Flow Sheet, Cost of Project, Projected Balance Sheets, Profitability Ratios, Break Even Analysis. The DPR (Detailed Project Report) is formulated by highly accomplished and experienced consultants and the market research and analysis are supported by a panel of experts and digitalized data bank.

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in India along with its business prospects.....[Read more](#)

Niir PROJECT CONSULTANCY SERVICES

An ISO 9001:2015 Company

Who are We?

- *One of the leading reliable names in industrial world for providing the most comprehensive technical consulting services*
- *We adopt a systematic approach to provide the strong fundamental support needed for the effective delivery of services to our Clients' in India & abroad*

What do We Offer?

- *Project Identification*
- *Detailed Project Reports/Pre-feasibility Reports*
- *Business Plan*
- *Market Research Reports*
- *Technology Books and Directory*
- *Industry Trend*
- *Databases on CD-ROM*
- *Laboratory Testing Services*
- *Turnkey Project Consultancy/Solutions*
- *Entrepreneur India (An Industrial Monthly Journal)*

How are We Different ?

- *We have two decades long experience in project consultancy and market research field*
- *We empower our customers with the prerequisite know-how to take sound business decisions*
- *We help catalyze business growth by providing distinctive and profound market analysis*
- *We serve a wide array of customers , from individual entrepreneurs to Corporations and Foreign Investors*
- *We use authentic & reliable sources to ensure business precision*

Our Approach

Requirement collection

Thorough analysis of the project

Economic feasibility study of the Project

Market potential survey/research

Report Compilation

Who do we Serve?

- Public-sector Companies
- Corporates
- Government Undertakings
- Individual Entrepreneurs
- NRI's
- Foreign Investors
- Non-profit Organizations, NBFC's
- Educational Institutions
- Embassies & Consulates
- Consultancies
- Industry / trade associations

Sectors We Cover

- Ayurvedic And Herbal Medicines, Herbal Cosmetics
- Alcoholic And Non Alcoholic Beverages, Drinks
- Adhesives, Industrial Adhesive, Sealants, Glues, Gum & Resin
- Activated Carbon & Activated Charcoal
- Aluminium And Aluminium Extrusion Profiles & Sections,
- Bio-fertilizers And Biotechnology
- Breakfast Snacks And Cereal Food
- Bicycle Tyres & Tubes, Bicycle Parts, Bicycle Assembling

Sectors We Cover *Cont...*

- Bamboo And Cane Based Projects
- Building Materials And Construction Projects
- Biodegradable & Bioplastic Based Projects
- Chemicals (Organic And Inorganic)
- Confectionery, Bakery/Baking And Other Food
- Cereal Processing
- Coconut And Coconut Based Products
- Cold Storage For Fruits & Vegetables
- Coal & Coal Byproduct

Sectors We Cover *Cont...*

- Copper & Copper Based Projects
- Dairy/Milk Processing
- Disinfectants, Pesticides, Insecticides, Mosquito Repellents,
- Electrical, Electronic And Computer based Projects
- Essential Oils, Oils & Fats And Allied
- Engineering Goods
- Fibre Glass & Float Glass
- Fast Moving Consumer Goods
- Food, Bakery, Agro Processing

Sectors We Cover *Cont...*

- Fruits & Vegetables Processing
- Ferro Alloys Based Projects
- Fertilizers & Biofertilizers
- Ginger & Ginger Based Projects
- Herbs And Medicinal Cultivation And Jatropha (Biofuel)
- Hotel & Hospitality Projects
- Hospital Based Projects
- Herbal Based Projects
- Inks, Stationery And Export Industries

Sectors We Cover

Cont...

- Infrastructure Projects
- Jute & Jute Based Products
- Leather And Leather Based Projects
- Leisure & Entertainment Based Projects
- Livestock Farming Of Birds & Animals
- Minerals And Minerals
- Maize Processing(Wet Milling) & Maize Based Projects
- Medical Plastics, Disposables Plastic Syringe, Blood Bags
- Organic Farming, Neem Products Etc.

Sectors We Cover *Cont...*

- Paints, Pigments, Varnish & Lacquer
- Paper And Paper Board, Paper Recycling Projects
- Printing Inks
- Packaging Based Projects
- Perfumes, Cosmetics And Flavours
- Power Generation Based Projects & Renewable Energy Based Projects
- Pharmaceuticals And Drugs
- Plantations, Farming And Cultivations
- Plastic Film, Plastic Waste And Plastic Compounds
- Plastic, PVC, PET, HDPE, LDPE Etc.

Sectors We Cover *Cont...*

- Potato And Potato Based Projects
- Printing And Packaging
- Real Estate, Leisure And Hospitality
- Rubber And Rubber Products
- Soaps And Detergents
- Stationary Products
- Spices And Snacks Food
- Steel & Steel Products
- Textile Auxiliary And Chemicals

Sectors We Cover *Cont...*

- Township & Residential Complex
- Textiles And Readymade Garments
- Waste Management & Recycling
- Wood & Wood Products
- Water Industry(Packaged Drinking Water & Mineral Water)
- Wire & Cable

MARKET RESEARCH REPORTS

Objective

- ✧ To get a detailed scenario of the industry along with its structure and classification
- ✧ To provide a comprehensive analysis of the industry by covering aspects like:
 - ✧ Growth drivers of the industry
 - ✧ Latest market trends
 - ✧ Insights on regulatory framework
 - ✧ SWOT Analysis
 - ✧ Demand-Supply Situation
 - ✧ Foreign Trade
 - ✧ Porters 5 Forces Analysis

Objective

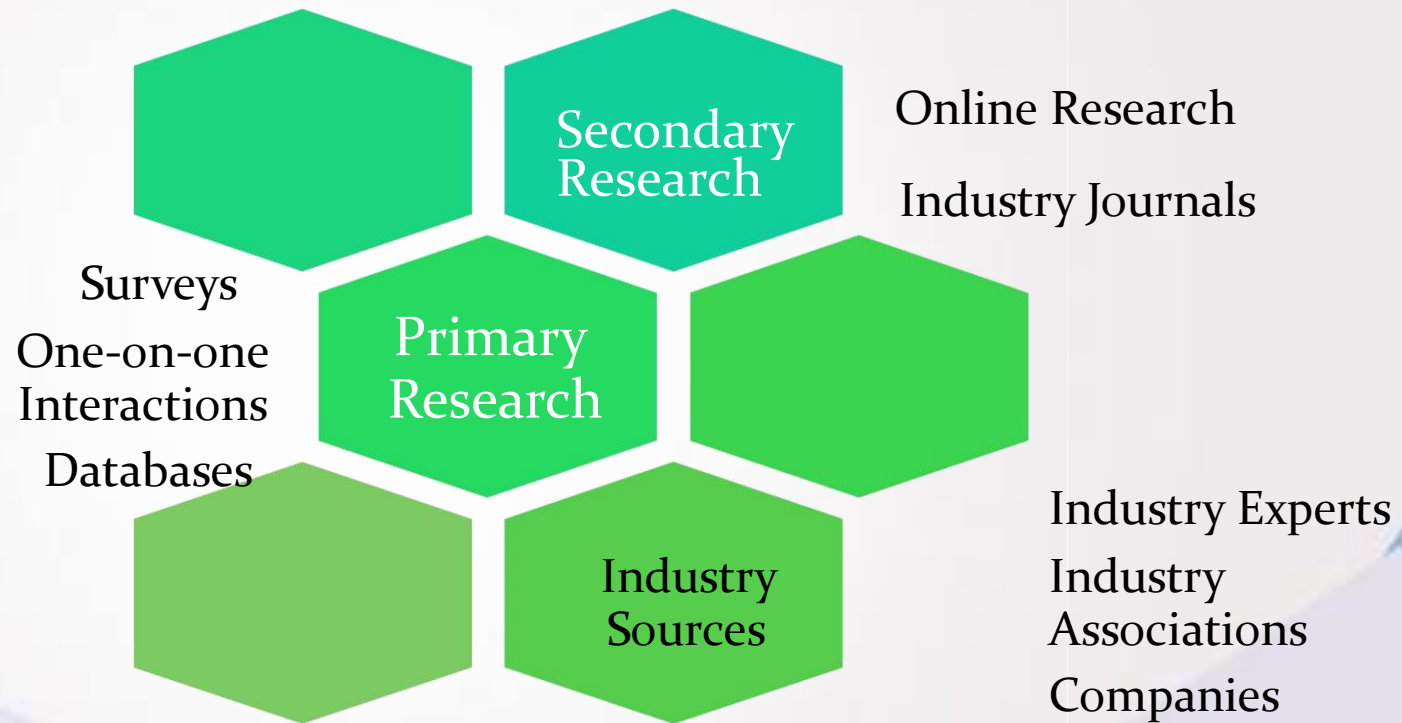

- ⌘ To provide forecasts of key parameters which helps to anticipate the industry performance
- ⌘ To help chart growth trajectory of a business by detailing the factors that affect the industry growth
- ⌘ To help an entrepreneur/manager in keeping abreast with the changes in the industry
- ⌘ To evaluate the competitive landscape of the industry by detailing:
 - ⌘ Key players with their market shares
 - ⌘ Financial comparison of present players

Clientele

- ⌘Venturist/Capitalists
- ⌘Entrepreneur/Companies
- ⌘Industry Researchers
- ⌘Investment Funds
- ⌘Foreign Investors, NRI's
- ⌘Project Consultants/Chartered Accountants
- ⌘Banks
- ⌘Corporates
