Investment Opportunities in Freeze Dried Fruits & Vegetables

**(Dry Banana, Mango, Custurd Apple,
Beetroot, Sapota, Dragon Fruit, Jamun
and Green Peas)**

Production Food Processing Sector

Introduction

Freeze drying features a scientific basis and origins. One among the priorities for scientists was the conservation of biological objects by freezing, followed by “revitalization”. Freeze-drying may be a highly effective method of dehydration of pre-frozen foods. Freeze-dried food has many advantages. Because the maximum amount as 98% of the water content has been removed, the food is extremely lightweight, which significantly reduces the value of shipping. This also makes it fashionable boaters and hikers who need to carry their food with them. Because it requires no refrigeration, shipping and storage costs are even further reduced.

Related Projects:- [Fruits and Vegetables Processing, Dehydration, Canning & Preservation Projects](#)

Freeze-dried food is additionally relatively contamination-free since the dehydration process makes it virtually impossible for yeast and potentially harmful bacteria to survive. Finally, since the physical structure of the food isn't altered during the freeze-drying process, the food retains much of its color, shape, texture, and flavor when it's prepared for consumption by reintroducing water. This makes it more attractive to consumers than food preserved by another methods.

The Manufacturing Process

A freeze-drying processing facility is usually a large plant with modern equipment. Its food-handling areas must be approved by the United States Department of Agriculture, and the company and its employees must adhere to government regulatory procedures. The plant may include a receiving and storage area for raw foods that arrive at the plant in bulk; a food cooking area for those foods that must be cooked before processing; a large area with several large freezing and drying chambers; and a packaging area.

Projects:- Detailed Project Reports

The facility may also include a research area where improved methods of freeze-drying foods are developed, and a test kitchen where new preparation techniques to improve the final taste, quality, and texture of the food are tried. Some plants are dedicated to freeze-drying only one product like freeze-dried coffee.

Others process a wide range of meats, vegetables, and fruits. Nonfood products such as chemicals and pharmaceuticals are usually processed in separate plants from food products. The freeze-drying process varies in the details of temperatures, times, pressures, and intermediate steps from one food to another.

Market Outlook

The global Freeze Dried Fruits and Vegetables market was valued at USD 27950 million in 2019 and is expected to reach USD 37070 million by the end of 2026, growing at a CAGR of 4.1% during 2021-2026. Expanding the food-processing sector and the huge demand for ready-to-eat or convenience food products, among consumers, have considerably increased in recent years, owing to the busy work lifestyle and increased number of the working population. This, in turn, has led to an increase in the demand for freeze-dried fruits and vegetables to be used in snacks, soups, dressings, and bakery and confectionery products.

Market Research: [Market Research Report](#)

Freeze Dried Fruit Market: Dynamics

Factor towards the growth of freeze dried fruit market is that the excellent time period of the merchandise with none added preservative to store for long duration reception. The increased shelf-life makes freeze edible fruit a profitable product during its supply chain. Additionally, the fast-paced lifestyle of individuals is demanding healthy, and convenience foods like freeze dried fruits and high nutritional value of those fruits will further drive the expansion of freeze dried fruits market over the forecast period. However, the freeze drying equipment is comparatively costlier than other dryers and therefore the availability of other drying techniques such as infused drying, spray drying, and others have low operational cost than freeze drying technique, which is anticipated to act as a restraint towards the expansion of freeze dried fruit market.

Related Project: - Freeze Dried Fruits & Vegetables (dry Banana, Mango, Custurd Apple, Beetroot, Sapota, Dragon Fruit, Jamun And Green Peas)

Freeze dried or lyophilized products are the food products which has long time period under particular temperature. Lyophilization may be a process that preserves most of the aroma compounds and nutrients from the first dried fruits and vegetables. This process is administered at very low temperature so as to freeze the food products. The method involves in freezing food products are removal of moisture during a vacuum chamber, then sealing it in an air tight container. The demand for the dried food products are increasing thanks to increase in population also as change in lifestyle of individuals round the world.

Projects:- [Detailed Project Reports](#)

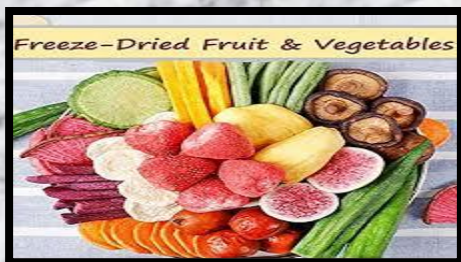

Freeze drying may be a relatively new technique to preserve food and increase their time period. Majority of fruits contains around 90% of water and is that the main reason for his or her spoilage which limits their time period and functionality. This process involves freezing the food products, removing of moisture during a vacuum chamber, then sealing it in an airtight container. Freeze dried fruits & vegetables are utilized in different packaged food formulations such as soups, juices, confectionaries, bakeries, and lots of more. a considerable amount of instant coffee commercially available across the world is formed from freeze dried coffee beans. Freeze dried are considered as best dehydrated fruits thanks to its sensory quality, superior texture and taste which is retained after rehydration.

Books:- [BOOKS & DATABASES](#)

Freeze Dried Fruits & Vegetables Market, By Product

Based on products, the freeze dried fruits & vegetables market has been segmented into fruits, vegetables, and coffee beans. Fruits are a key product segment accounting for more than one-third of the overall industry size in 2018. Increasing usage of freeze dried fruit powders for making juices and other beverages will drive the segment's growth. Vegetables product segment generated a revenue close to USD 10 billion in 2018 and is likely to grow with a CAGR of more than 5% till 2025.

Market Research: [Market Research Report](#)

Market Trends, Drivers, Restraints, and Opportunities:

Rapid urbanization, fast-paced lifestyles of consumers, increasing disposable income, aggressive marketing by the manufacturers, changing consumption patterns and increasingly hectic lifestyles of consumers are driving the growth of the market.

Developments in the global packaged food industry is driving the growth for the market.

High benefits and advantages over fresh fruits & vegetables is boosting the market growth.

High cost associated with product manufacturing hampers the growth of the market.

Related Project: - Freeze Dried Fruits & Vegetables (dry Banana, Mango, Custurd Apple, Beetroot, Sapota, Dragon Fruit, Jamun And Green Peas)

Lack of awareness about the product acts a key restraint of the market. Improvements in freezing technology has had a positive impact on the market development which is expected to bolster its growth in future. Globally, the retail space is widening, which is one of the positive trends that is going to foster the growth of the market during the forecast period.

Major Queries/Questions Answered in the Report?

- 1. What is Freeze Dried Fruits & Vegetables Manufacturing industry ?**
- 2. How has the Freeze Dried Fruits & Vegetables Manufacturing industry performed so far and how will it perform in the coming years ?**
- 3. What is the Project Feasibility of Freeze Dried Fruits & Vegetables Manufacturing Plant ?**
- 4. What are the requirements of Working Capital for setting up Freeze Dried Fruits & Vegetables Manufacturing plant ?**

- 5. What is the structure of the Freeze Dried Fruits & Vegetables Manufacturing Business and who are the key/major players ?**
- 6. What is the total project cost for setting up Freeze Dried Fruits & Vegetables Manufacturing Business?**
- 7. What are the operating costs for setting up Freeze Dried Fruits & Vegetables Manufacturing plant ?**
- 8. What are the machinery and equipment requirements for setting up Freeze Dried Fruits & Vegetables Manufacturing plant ?**

- 9. Who are the Suppliers and Manufacturers of Plant & Machinery for setting up Freeze Dried Fruits & Vegetables Manufacturing plant ?**
- 10. What are the requirements of raw material for setting up Freeze Dried Fruits & Vegetables Manufacturing plant ?**
- 11. Who are the Suppliers and Manufacturers of Raw materials for setting up Freeze Dried Fruits & Vegetables Manufacturing Business?**
- 12. What is the Manufacturing Process of Freeze Dried Fruits & Vegetables ?**

- 13. What is the total size of land required for setting up Freeze Dried Fruits & Vegetables Manufacturing plant ?**
- 14. What will be the income and expenditures for Freeze Dried Fruits & Vegetables Manufacturing Business?**
- 15. What are the Projected Balance Sheets of Freeze Dried Fruits & Vegetables Manufacturing plant ?**
- 16. What are the requirement of utilities and overheads for setting up Freeze Dried Fruits & Vegetables Manufacturing plant?**
- 17. What is the Built up Area Requirement and cost for setting up Freeze Dried Fruits & Vegetables Manufacturing Business?**

- 18. What are the Personnel (Manpower) Requirements for setting up Freeze Dried Fruits & Vegetables Manufacturing Business?**
- 19. What are Statistics of Import & Export for Freeze Dried Fruits & Vegetables ?**
- 20. What is the time required to break-even of Freeze Dried Fruits & Vegetables Manufacturing Business?**
- 21. What is the Break-Even Analysis of Freeze Dried Fruits & Vegetables Manufacturing plant?**
- 22. What are the Project financials of Freeze Dried Fruits & Vegetables Manufacturing Business?**

- 23. What are the Profitability Ratios of Freeze Dried Fruits & Vegetables Manufacturing Project?**
- 24. What is the Sensitivity Analysis-Price/Volume of Freeze Dried Fruits & Vegetables Manufacturing plant?**
- 25. What are the Projected Pay-Back Period and IRR of Freeze Dried Fruits & Vegetables Manufacturing plant?**
- 26. What is the Process Flow Sheet Diagram of Freeze Dried Fruits & Vegetables Manufacturing project?**

27. What are the Market Opportunities for setting up Freeze Dried Fruits & Vegetables Manufacturing plant?

28. What is the Market Study and Assessment for setting up Freeze Dried Fruits & Vegetables Manufacturing Business?

29. What is the Plant Layout for setting up Freeze Dried Fruits & Vegetables Manufacturing Business?

Reasons for Buying our Report:

- **This report helps you to identify a profitable project for investing or diversifying into by throwing light to crucial areas like industry size, market potential of the product and reasons for investing in the product**
- **This report provides vital information on the product like it's characteristics and segmentation**
- **This report helps you market and place the product correctly by identifying the target customer group of the product**

- **This report helps you understand the viability of the project by disclosing details like machinery required, project costs and snapshot of other project financials**
- **The report provides a glimpse of government regulations applicable on the industry**
- **The report provides forecasts of key parameters which helps to anticipate the industry performance and make sound business decisions**

Our Approach:

- Our research reports broadly cover Indian markets, present analysis, outlook and forecast for a period of five years.
- The market forecasts are developed on the basis of secondary research and are cross-validated through interactions with the industry players
- We use reliable sources of information and databases. And information from such sources is processed by us and included in the report

Scope of the Report

The report titled “Market Survey cum Detailed Techno Economic Feasibility Report on Freeze Dried Fruits & Vegetables.” provides an insight into Freeze Dried Fruits & Vegetables market in India with focus on uses and applications, Manufacturing Process, Process Flow Sheets, Plant Layout and Project Financials of Freeze Dried Fruits & Vegetables project. The report assesses the market sizing and growth of the Indian Freeze Dried Fruits & Vegetables Industry. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line. And before diversifying/venturing into any product, they wish to study the following aspects of the identified product:

- **Good Present/Future Demand**
- **Export-Import Market Potential**
- **Raw Material & Manpower Availability**
- **Project Costs and Payback Period**

We at NPCS, through our reliable expertise in the project consultancy and market research field, have demystified the situation by putting forward the emerging business opportunity in the Freeze Dried Fruits & Vegetables sector in India along with its business prospects. Through this report we have identified Freeze Dried Fruits & Vegetables project as a lucrative investment avenue.
