

# Aromatic Plants Cultivation, Processing and Uses

**Author:-** H. Panda

**Format:** paperback

**Code:** NI120

**Pages:** 504

**Price: Rs.975US\$ 25.95**

**Publisher:** NIIR PROJECT CONSULTANCY SERVICES

Usually ships within **5** days

Aromatic plants have essential or aromatic oils naturally occurring in them. They help heal mental ailments and other diseases. India is endowed with a rich wealth of medicinal plants. Aromatic (Aroma Producing) plants are those plants which produce a certain type of aroma. Their aroma is due to the presence of some kind of essential oil with chemical constituents that contain at least one benzene ring in their chemical configuration. The chemical nature of these aromatic substances may be due to a variety of complex chemical compounds. These plants have made a good contribution to the development of ancient Indian material medica. In recent years, there has been a tremendous growth of interest in plant based drugs, pharmaceuticals, perfumery products, cosmetics and aroma compounds used in food flavors and fragrances and natural colors in the world. There is a definite trend to adopt plant based products due to the cumulative derogatory effects resulting from the use of antibiotic and synthetics and except for a few cultivated crops, the availability of plant based material is mainly from the natural sources like forests and wastelands. There is a need to introduce these crops into the cropping system of the country, which, besides meeting the demands of the industry, will also help to maintain the standards on quality, potency and chemical composition. During the past decade, demand for aromatic plants and its products has attracted the worldwide interest, India being the treasure house of biodiversity, accounts for thousands of species which are used in herbal drugs. 90% of herbal industry requirement of raw material is taken out from the forests.

Some fundamentals of this book are botanical description of the plant, genetic improvement , harvesting, intercropping, transplantation, irrigation and weeding, vanilla cultivation in india, commercial cultivation of vanilla, distillation of herbage for essential oil, effect of growth hormones, jasmine crop improvement & agrotechniques, efforts for new variety of jasminum auriculatum , essential oils of agarwood, cinnamomum tamala leaves, eucalyptus citriodora and caultheria pragentissima, past and future of sandal wood oil industry, by product development from turmeric and ginger rhizomes, isolation of essential oils and its flavour profile etc.

This book contains most of the important aspects related to aromatic plants. It is being published for those who are interested in growing, processing and trading of aromatic plants.

distillation procedure, How to extract plant oils by distillation?, How to extract oil from plants?, List of aromatic plants and their uses, List of Important Aromatic Plants, Multiple Uses of Aromatic Plants, Commercial cultivation of aromatic plants

### 1. Cultivation of *Tagetes Minuta*

Botanical description of the plant

Genetic improvement

Agrotechnology

Soil and climate

Propagation

Weed control

Fertilizers and manures

Irrigation

Harvesting

Intercropping

Crop rotations

Diseases

Distillation

Chemistry

Distillation unit design availability

### 2. Cultivation of *Eucalyptus Citriodora*

Description of the plant

Cultivation

Soil and Climate

Preparation of Land

Propagation

Nursery

Transplanting

Weeding

Manures and Fertilizers

Harvesting

Pests and Diseases

Distillation

Yield

Chemical Constituents

Uses

### 3. Cultivation of *Rosmarinus Officinalis*

Introduction

Description of the plant

Cultivation

Soil and Climate

Propagation

Transplanting, interculture and fertilizer application

Irrigation

Harvesting

Pests and diseases and their control

Distillation

Oil content and yield

Chemical constituents

### 4. Cultivation of *Coriander Sativum*

Description of the Plant

Cultivation  
Soil and Climate  
Propagation  
Irrigation  
Harvesting  
Pests and Diseases  
Distillation  
Yield  
Chemical Constituents  
Uses  
Economics of Cultivation

#### 5. Cultivation of Lavender Species

Botany  
Soil and Climate  
Cultivation  
Propagation  
Propagation By Seeds  
Transplantation  
Fertilizer Application  
Weeding  
Regeneration  
Harvesting  
Distillation  
Oil Content and Oil Yield  
Chemical Constituents  
Uses  
Economics of Cultivation

#### 6. Cultivation of Matricaria Chamomilla

Description of the Plant  
Genetics  
Cultivation  
Soil and climate  
Propagation/nursery  
Transplantation, irrigation and weeding  
Cropping sequence  
Pests and diseases  
Manures and fertilizers  
Harvesting  
Collection of seeds  
Yield  
Drying and storage  
Distillation  
Yield and characteristics of the oil  
Uses  
Specification of the drug  
Economics of cultivation

#### 7. Vanilla World s second most expensive spice

Vanilla Flower  
Vanilla Beans  
Vanilla cultivation in India

Commercial Cultivation of Vanilla  
Vanilla Extract and Flavourings  
Commercial uses of Vanilla  
Market for Vanilla  
Exports grades and standards

#### 8. Cultivation of *Artemisia Annua*

Description of the plant

Soil and climate

Propagation

Weed control

Fertilizers and manures

Irrigation

Harvesting

Chemistry and uses

Distillation

Economics of cultivation

#### 9. Cultivation of *Mentha Arvensis*

Plant descriptors

Available cultivars of menthol mint

Choice of place for cultivation

Land preparation

Preparation of planting material

Production of suckers

Production of seedlings

Planting of suckers in the field

Fertilizer application

Irrigation and drainage

Interculture and weed control

Crop rotation

Intercropping

Harvesting

Yield

Storage of herbage

Pests and diseases

Insect pests

Diseases

Distillation of herbage for essential oil

Directly fired distillation tank

Design availability

Use of mint oil and its derivatives

Economics of cultivation

#### 10. Cultivation of French Basil (*Ocimum Bacilicum* L.)

1. European Type

2. Reunion Type

3. Methyl Cinnamate Type

4. Eugenol Type

Botany

Soil and Climate

Field preparation

Propagation  
(a) Raising of Nursery  
(b) Planting  
Irrigation  
Fertiliser Application  
Interculture  
Harvesting and Yield  
Agronomical Studies  
Physiological Studies  
Heavy metal tolerance  
Effect of growth hormones  
Mineral contents  
Seed mucilage studies  
Effect of photoperiodism  
Biosynthesis of Eugenol  
Tissue Culture Studies  
Genetical Studies  
Chemical Composition  
Uses  
Cosmetic  
Food  
Folk medicine  
Ayurvedic Properties

#### 11. Jasmine Crop improvement & agrotechniques

New varieties of jasmine  
Arka Surabhi  
Arka Arpan  
Efforts for new variety of *Jasminum auriculatum*  
for extraction of essential oil  
Constituent of Jasmine essential oil  
Agronomy  
Plant protection  
Water saving, labour saving low cost device for  
propagation of plant cuttings  
Details of the device  
Required materials for the device  
Detailed method  
Economic viability of growing jasmine for essential oil

#### 12. *Semecarpus Anacardium* L.f.

Introduction  
Chemistry of Nuts

#### 13. Himalayan Cedarwood Oil

Essential oil of Deodar (*Cedrus Deodara*)  
Essential oil of *Juniperus Recurva* var. *Squamata* and  
other oils of *Juniperus* spp.  
Agarwood and Oil Agarwood  
Uses

#### 14. Essential oils of Agarwood, *Cinnamomum Tamala* Leaves, *Eucalyptus Citriodora* and *Caultheria Pragrantissima*

Distillation  
Gaultheria  
Eucalyptus

#### 15. Past and Future of Sandal wood Oil Industry

Plantation and Harvesting  
Disease Control  
Distillation of Oil  
Packing  
Problems and their Solutions  
Adulteration  
Future Prospects  
Kewda Industry in Orissa

#### 16. Production Technology and Package of Practices in Chilli

Cultivated Species of Capsicum  
Constraints in Chilli Production  
Technologies Developed  
Disease and Disease Management  
Marketing in Chilli  
Value Addition in Chilli

#### 17. By Product Development from Turmeric and Ginger Rhizomes

Introduction  
By Product Development in Turmeric  
Curcumin  
Turmeric Essential Oils  
Isolation of Essential Oils and its Flavour Profile  
By product Development in Ginger  
Survey of Raw Material  
Essential oils  
Oleoresin  
Gingerol in Ginger Oleoresin  
Starch  
Protein  
Crude Fibre  
Commercial Extraction of Ginger Oleoresin  
Process Description for Oleoresins  
Oleoresin Quality  
Flavour Quality of Ginger Oleoresins  
Essential Oils of Ginger  
Profile of Flavour in Ginger Cultivars

#### 18. Synthesis of 4 Acetyl 3, 7, 7 Trimethylbicyclo [4, 1, 0]

Hept 3 ene and Related Compounds by Friedel Crafts  
Reaction on (+) ~ Car 3 ene  
Results and Discussions  
1. Synthesis of 4 acetyl 3, 7, 7 trimethylbicyclo [4, 1, 0]  
hept 3 ene and its position isomers (II).  
2. Synthesis of 4 propionyl 3, 7, 7 trimethylbicyclo [4, 1, 7]  
hept 3 ene and its position isomers (III).  
3. Synthesis of 4 Butyryl 3, 7,

## About NIIR

**NIIR PROJECT CONSULTANCY SERVICES (NPCS)** is a reliable name in the industrial world for offering integrated technical consultancy services. NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our various services are: Detailed Project Report, Business Plan for Manufacturing Plant, Start-up Ideas, Business Ideas for Entrepreneurs, Start up Business Opportunities, entrepreneurship projects, Successful Business Plan, Industry Trends, Market Research, Manufacturing Process, Machinery, Raw Materials, project report, Cost and Revenue, Pre-feasibility study for Profitable Manufacturing Business, Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Business Opportunities, Investment Opportunities for Most Profitable Business in India, Manufacturing Business Ideas, Preparation of Project Profile, Pre-Investment and Pre-Feasibility Study, Market Research Study, Preparation of Techno-Economic Feasibility Report, Identification and Section of Plant, Process, Equipment, General Guidance, Startup Help, Technical and Commercial Counseling for setting up new industrial project and Most Profitable Small Scale Business.

NPCS also publishes various process technology, technical, reference, self employment and startup books, directory, business and industry database, bankable detailed project report, market research report on various industries, small scale industry and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by professionals including project engineers, information services bureau, consultants and project consultancy firms as one of the input in their research.

Our Detailed Project report aims at providing all the critical data required by any entrepreneur vying to venture into Project. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.
