About the Book

**********Limited Edition- available in Photostat Version Only**********

Livestock farming is raising animals for food or to sell and is very well planned. Livestock animals play an important role in rural economic development. Some of these animals include cattle or dairy cows, chickens, goats, pigs, sheep, etc. India is the second largest market worldwide and aquaculture contributes 1.5 per cent to the gross domestic product (GDP), Livestock gives us meat, eggs and milk apart from using the skins and hair of some animals for blankets, clothing, and brushes. Manure from these animals will be used to make plants grow better. Poultry farming is raising chickens for meat or eggs and India is the fourth largest market worldwide in poultry. Dairy farms are farms where cows are raised to make milk and milk products like cheese, ice cream, butter and whipping cream. Today, poultry raising and dairy farming are big business. India has a high potential in the sheep industry and also a very diverse genetic resources through which, if scientifically bred the production in sheep industry can be enhanced. India is endowed with livestock resources of vast genetic diversity and accounts for about 11 percent of the world livestock population. The country boasts of 55 per cent of the world buffalo population, 20 per cent of the goat population and 16 per cent of the cattle population in the world. India has the second rank with respect to goat and sheep world population. Indian exports of live animals like sheep and goat over the years continued to dominate with a registered growth of 9.98 per cent over the last three years. The government is making concerted efforts to tap the vast export potential of the country huge livestock population.
