# The Complete Book on Jatropha (Bio-Diesel) with Ashwagandha, Stevia, Brahmi & Jatamansi Herbs (Cultivation, Processing & Uses)

Author: - NIIR Board of Consultants and

**Engineers** 

Format: paperback

Code: NI176 Pages: 592

Price: Rs.1500US\$ 150

Publisher: NIIR PROJECT CONSULTANCY

SERVICES

Usually ships within 5 days

Jatropha proves to be a promising Biofuel plantation and could emerge as a major alternative to diesel thus reducing our dependence on oil imports and saving the precious Foreign Exchange besides providing the much needed energy security. Jatropha oil displacing conventional fossil fuel makes the related project fully eligible. The Jatropha plantation primarily focuses cultivated green biodiesel as an alternate source of fuels that can propel engines, generators and transportation as well as power generation in the future and replace existing sources. The main factor that makes the major difference is the cost of the bio fuel that it can be made cheaper than the petro diesel and on a long term basis without affecting the operational economics. Ashwagandha (also called as, Indian Ginseng), Stevia a natural non caloric sweetener, Brahmi (brain tonic) and Jatamansi are the important herbs which have very good medicinal values. Ashwagandha increases the count of white blood cells and prepares the body to produce antigens against various infections and allergies. It is also considered as a tonic for the heart and lungs as its regular intake controls the blood pressure and regulates the heartbeat. It has a strong nourishing and protective effect on the nervous system. Ashwagandha has been used as a sedative, a diuretic, a rejuvenating tonic, an anti inflammatory agent, aphrodisiac and an immune booster. It is especially beneficial in stress related disorders such as arthritis, hypertension, diabetes, general debility, etc. It has also shown impressive results when used as stimulants for the immune system. It is considered as an adaptogen that stimulates the immune system and improves the memory. Stevia also known as the sweet leaf which is an all natural sweetener, derived from a plant called stevia rebaudiana. It has no calories, no carbohydrates, and it has a glycemic index of zero, which makes it the sweetener of choice for many diabetics all over the world. The herbs are carefully nurtured and harvested at only certain times of the year. Stevia comes in many forms; stevia supreme, stevita ultimate stevia, stevita liquid stevia, fruit flavoured stevia and many more. Brahmi is used as a herbal brain tonic, to rejuvenate the body, as a promoter of memory and as a nerve tonic. It improves memory and helps overcome the negative effects of stress. It is unique in its ability to invigorate mental processes whilst reducing the effects of stress and nervous anxiety. Brahmi induces a sense of calm and peace. Brahmi has gain worldwide fame as a memory booster and mind alertness promoter. Jatamansi has the power to promote awareness and calm the mind. It is a very useful herb for palpitation, tension, headaches, restlessness and is used for promoting awareness and strengthening the mind. It aids in balancing the body of all three Ayurvedic doshas. This herbs sedative properties increase awareness, as opposed to valerian that dulls the mind. Aromatic, antispasmodic,

diuretic, emmenagogue, nervine, tonic, carminative, deobstruent, digestive stimulant, reproductive some of the properties of Jatamansi herb.

This book is describes about the medical properties, important uses and applications, cultivation, chemical constituents, harvesting and post harvesting, yield and other properties of herbs like safed mulsi, brahmi, jatamansi, ashwagandha, senna, shatavari and more. This book also deals with biodiesel, biofuel and petro crops: an alternative to conventional fuels, the potential of jatropha curcas in rural development and environment protection, prospects of expanding market for use of jatropha oil, jatropha: potential as insecticide/pesticide etc. The present system of medicine is gradually gaining popularity mainly because of less or no toxic or side effects of herbal drugs. So, these herbs have very good future prospects globally. This book contains cultivation, processing and uses of Jatropha, Ashwagandha (Withania somnifera), Stevia rebaudiana, Brahmi (Bacopa monnieri) and Jatamansi (Nardostachys Jatmansi DC.). This book will prove to be an invaluable resource for researchers, technocrats, agriculturist, agriculture universities etc.

## 1. BIO DIESEL - JATROPHA CURCAS

**Business Opportunities** 

2. BIODIESEL, BIOFUEL AND PETRO CROPS : AN ALTERNATIVE TO CONVENTIONAL

**FUELS** 

Introduction

Background

R&D Program and Major Achievements

Development of Biodiesel Crops like Jatropha Curcas

Evaluation of Petro Crops: Euphorbs

Evaluation and Improvement of Guayule (Parthenium Argentatum)

# 3. LIST OF IMPORTANT GOVERNMENT AND PRIVATE INSTITUTE/SCIENTIST ENGAGED IN RESEARCH AND DEVELOPMENT OF JATROPHA

# 4. TREE DESCRIPTION

Leaves

**Flowers** 

**Fruits** 

Seeds

Roots

# 5. THE POTENTIAL OF JATROPHA CURCAS IN RURAL DEVELOPMENT AND ENVIRONMENT PROTECTION

Introduction

Objectives of the Workshop

Production of Jatropha curcas

Jatropha curcas as an Energy Source

Other products of Jatropha curcas

Costs and Returns

**Expected Output** 

# 6. JATROPHA: THE WONDER OIL BEARING TREE!

Introduction

**Botanical Features** 

**Ecological Requirement** 

Interesting History and Future of the Plant

Uses of Jatropha curcas

Jatropha: As ornamental Plant

Jatropha: As a fence

Jatropha curcas: As a potential oil crop

Jatropha oil: As raw material for industrial use

Jatropha: Potential as medicinal plant Jatropha bark: As raw material for dye

Jatropha- For enrichment of soil Jatropha: As potential feed stoke

Jatropha: Potential as insecticide/pesticide Jatropha: As non conventional energy crop Jatropha: As profitable agro forestry crop

Cultivation

Soils

Climates requirements Spacing and seeds rate

Propagation

Inter-Cultivation

Irrigation

**Expected Yield** 

Prospects of expanding market for use of Jatropha oil

Jatropha oil as an alternative to diesel

Diesel engine test for Jatropha oil

Jatropha oil; as alternative to kerosene as fuel

# 7. BIO DIESEL

What is Bio Diesel?

This fuel is called Bio-Diesel

The Advantages of Bio Diesel

The Process

The Technology

The Cost

International Laws and regulation

Biodiesel Scenario In India

**Bio Diesel Experiments** 

Conclusion

# 8. GUJARAT OLEO CHEM TO EXPAND BIO-DIESEL PRODUCTION CAPACITY Up to promote Jatropha seed oil farming

## 9. JATROPHA: THE BIO-FUEL PLANT

Introduction

Uses

Leaves, Bark & Roots

Seeds & Oil

Folk Remedies

**Bio-Fuel** 

**General Cultivation** 

Origin and Distribution

Cultivation

Description of the plant

Description of the species

Varieties

Seed rate and spacing

Field preparation and Planting

Inter-cultivations

Plant Protection

Jatropha Oil

Harvesting and yield

Post harvest processing

**Project Profile** 

# 10. TRANS-ESTRIFICATION BIODIESEL PROCESS

Ingredients

Manufacturing Process

Process in Detail

Quantity of methanol to be used

Glycerine

# 11. CENTRE FOR JATROPHA PROMOTION: GROWING DIESEL FUEL PLANT:

# **CULTIVATION FOR BIO DIESEL PRODUCTION**

Breaking the cycle of poverty

Can diesel be "cultivated―?

# 12. BIODIESEL IN INDIA

Field Trials of Biodiesel

**Economics of Jatropha Biodiesel** 

Target of biodiesel production

Raw Material ( Jatropha curcas seed and oil)

Biodiesel Work in India

Work-Done In India

Indian Railways

# 13. OIL EXTRACTION - OIL EXPELLERS FOR JATROPHA SEEDS

# 14. BIODIESEL PROJECT 10 KI PER DAY

Introduction

**Product Description and Uses** 

How is Biodiesel made?

**Biodiesel Benefits** 

Description

**Applications** 

Standards

Transport information

Personal protection

**Consumer Safety** 

Alternative Fuels Incentives and Laws

Market Survey and Demand Supply Position

Raw Materials and Suppliers

Manufacturing Process Description

Project Implementation Schedule

**Power Requirement** 

**Utilities Specifications** 

Market and Selling Arrangements

Salient Features and Project Highlights Basis and Presumptions Manpower and Organization

# 15. PLANT OF 1000 LITERS PER DAY

Background

Description

**Brief Process Description** 

Plant of 1000 liters per hour. (24 Kilo Liters per day)

**Commercial Conditions** 

Oil Expeller Manufacturers

# 16. EQUIPMENT FOR DECENTRALISED COLD PRESSING OF OIL SEEDS

Introduction

General advice for a complete oil mill

Influences on product quality in decentralised oil mills

Pre-treatment of the seed

Parameters of the press

Examples of a complete oil mill

Oil seed expeller

Equipment for pre-treatment of the seed

Overview manufactures of cold pressing oil expeller

Oil expeller manufactures

Purification of plant-oil

Filter equipment manufactures

Standardisation of cold pressed Rape Seed Oil

Fuel for Plant Oil Adapted Diesel Engines

#### 17. Stevia

Shelf Life

**Botanical Trait and Constituent** 

History

Application and Benefits

Growing Stevia in Home Garden

Process for Extraction and Grades

Sweetvia Produced by Stevia Co.inc., USA

Liquid Concentrates

Grades Internationally Available

Safety

Regulations

FDA, USA Investigation on Stevia

Important Players

# **About NIIR**

**NIIR PROJECT CONSULTANCY SERVICES (NPCS)** is a reliable name in the industrial world for offering integrated technical consultancy services. NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our various services are: Detailed Project Report, Business Plan for Manufacturing Plant, Start-up Ideas, Business Ideas for Entrepreneurs, Start up Business Opportunities, entrepreneurship projects, Successful Business Plan, Industry Trends, Market Research, Manufacturing Process, Machinery, Raw Materials, project report, Cost and Revenue, Pre-feasibility study for Profitable Manufacturing Business, Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Business Opportunities, Investment Opportunities for Most Profitable Business in India, Manufacturing Business Ideas, Preparation of Project Profile, Pre-Investment and Pre-Feasibility Study, Market Research Study, Preparation of Techno-Economic Feasibility Report, Identification and Section of Plant, Process, Equipment, General Guidance, Startup Help, Technical and Commercial Counseling for setting up new industrial project and Most Profitable Small Scale Business.

NPCS also publishes varies process technology, technical, reference, self employment and startup books, directory, business and industry database, bankable detailed project report, market research report on various industries, small scale industry and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by professionals including project engineers, information services bureau, consultants and project consultancy firms as one of the input in their research.

Our Detailed Project report aims at providing all the critical data required by any entrepreneur vying to venture into Project. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.
