India is one of the leading Herbs producer and exporter in the world. Several meticulous researches were conducted and experimented with herbs. They arrived at more precise conclusions about the usefulness of diverse plants and herbs that are utilized in different fields like medicine, cosmetics, perfumes and so on. The Ayurveda healing is completely based on herbs, which have definite medicinal importance or significance. In the primeval times, the Indian sagacious held the view that ayurveda herbs are the only resolution to treat numeral health related problems and diseases. Herbal products are replacing the synthetics products because of its harsh nature. Herbal products are in huge demand in the developed world for health care for the reason that they are efficient, safe and have lesser side effects. Growing herbs is easy to do, and people continue to turn their love for gardening into successful businesses growing and selling fresh cut herbs, herb plants, and other herb related products. The book makes an attempt to provide information on cultivation and utilization of herbs. The book also contains the described process of the cultivation of medicinal herbs, spices etc with photograph and diagrams. This book also describes about the role of perfumery, analysis of essential oils and flavors, recent development of some natural products and more. This book covers the comprehensive information on herbs cultivation & their utilization. We hope that this book will be very helpful for new Entrepreneurs, Herb Growers, professionals & research Institutions.

1. MEDICINAL PLANTS-PRIORITIES IN INDIAN MEDICINES

Medicinal Plants Based Drug Industry

Medicinal Plants Based Drug Industries in Indian systems of Medicine

Plant Parts Extract and Galenicals

Essential Oils from Plants

Phytopharmaceuticals

India's Strength in Medicinal Plant Wealth

Priorities in Research on Medicinal Plants & Diverse Studies

Antiprotozoal Drugs from Plants

Antiulcer Drugs from Plants

Antirheumatic Plant

Antidiabetic Plants

Antiasthmatic Plants

Antiviral Plants

Hepatoprotective Plants

Fertility Control by Plants

Anti-Cancer Drugs from Plants
Plant for Urinary Stones
Plants as sedatives/tranquillizers
Plant Laxatives
Pitfalls in Plant-Drug Research and Implications
Herbal Drug/Intellectual Property Rights (IPR)
Herbal Drug Trade
Herbal Medicines-Medicinal Marvel or Money Spring Malarkey
Sociopolitical,Economical & Ethical Issues in Medicinal Plants Research
Herbal Drug Development
Standardization of Herbal Drugs
2. MEDICINAL PLANTS IN ORAL HEALTH CARE IN INDIA

INTRODUCTION

Use of Medicinal Plants for Dental Care
Plants Useful as Chewing Stick

3. CHAMOMILE CULTIVATION

INTRODUCTION

Description of the Plant

41 LEMONGRASS CULTIVATION

Method of Lemongrass Cultivation
Preparation of Land
Need of Manure
Seeds for Sowing Lemongrass or Planting Material
Time of Sowing
Method of Sowing
Need of Irrigation
Need of Roeing and Weeding
Reaping of Crop
Oil Extraction from Leaves
Various Species/Kinds of Lemongrass
Profits from Lemongrass Cultivation
Where to Contact for Selling of Lemongrass Oil
42 Menthol Mint Cultivation
Present Situation
Various Species of Menthol Mint:
Preparation of Field for sowing Mentha
Method of Sowing Mentha
Irrigation
Manure and Fertilizer
Control
Method of Cropping
Cutting of Crops
Main Insects Causing Damage to Mentha Crop
Production of Oil from Mentha Leaves
Future of Mentha Oil
Present Market Situation of Mentha Industry
and its future Possibilities
The Supplirs of Mentha Seeds

About NIIR

NIIR PROJECT CONSULTANCY SERVICES (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our various services are: Detailed Project Report, Business Plan for Manufacturing Plant, Start-up Ideas, Business Ideas for Entrepreneurs, Start up Business Opportunities, entrepreneurship projects, Successful Business Plan, Industry Trends, Market Research, Manufacturing Process, Machinery, Raw Materials, project report, Cost and Revenue, Pre-feasibility study for Profitable Manufacturing Business, Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Business Opportunities, Investment Opportunities for Most Profitable Business in India, Manufacturing Business Ideas, Preparation of Project Profile, Pre-Investment and Pre-Feasibility Study, Market Research Study, Preparation of Techno-Economic Feasibility Report, Identification and Section of Plant, Process, Equipment, General Guidance, Startup Help, Technical and Commercial Counseling for setting up new industrial project and Most Profitable Small Scale Business.

NPCS also publishes various process technology, technical, reference, self employment and startup books, directory, business and industry database, bankable detailed project report, market research report on various industries, small scale industry and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by professionals including project engineers, information services bureau, consultants and project consultancy firms as one of the input in their research.

Our Detailed Project report aims at providing all the critical data required by any entrepreneur vying to venture into Project. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.
