

# The Complete Book on Cultivation and Manufacture of Tea (2nd Revised Edition)

**Author:** H. Panda

**Format:** Paperback

**ISBN:** 9788178331683

**Code:** NI242

**Pages:** 574

**Price:** Rs. 1,625.00 US\$ 150.00

**Publisher:** Asia Pacific Business Press Inc.

Usually ships within **5** days

Tea is one of the most popular beverages that are being consumed all over the world. Tea is known as a soothing drink and a way of life. Owing to its increasing demand, tea is considered to be one of the major components of world beverage market. Tea is very beneficial for health and is also known as anticarcinogenic properties. Green tea acts as an antiviral agent. Growing tea requires sufficient amount of work and there is additional level of work that must be incorporated to harvest it. Tea is cultivated in tropical and sub tropical regions. There are various kinds of tea such as black tea, green, oolong tea that can be obtained from real tea plant, *Camellia sinensis*. The making of different varieties of tea mainly depends upon plucking and rolling, spreading, storing process.

The handbook describes aspects of tea cultivation, ranging from the history of old crop, machinery & equipment for various Tea, biological control, organic tea- and many more. This is a sincere attempt to open up the world of this wonderful beverage, its cultivation methods, types of tea available worldwide, manufacturing process, to the common man.

Some of the fundamentals of the book are growth of tea in other countries, tea in Indian economy, biochemical constituents, pharmacological properties, selection, pollination and propagation, nutritional requirements, growth, photosynthesis and respiration, nursery management, water theory, oxidative degradation of protein, biological effect of polyphenols, analysis of tea, tea processing, green tea processing, tea bag production etc.

This book will be a mile stone for its readers who are new to this sector, will also find useful for entrepreneurs, tea scientists and tea research establishments.

## Contents

### 1. HISTORICAL EVIDENCES

Tea in India

Growth of Tea in Other Countries

Tea in Indian Economy

### 2. RELATION WITH HEALTH

The Core Compounds

Flavonoids in Tea Infusion

Antioxidant Activity of Tea Flavonoids

Tea Flavonoids and Cancer

Caveats

### 3. IMPORTANCE OF THERAPEUTIC COMPOUNDS

Polyphenols  
Caffeine  
Vitamins  
Carbohydrates  
Lipids  
Triterpenoids  
Carotenoids and Pigments  
Minerals  
Overall Distribution of Compounds

#### 4. PRODUCTION OF THERAPEUTIC COMPOUNDS

Polyphenols  
Variations in Specific Compounds  
Changes During Processing  
Theaflavins and Thearubigins  
Discussion

#### 5. BIOCHEMICAL CONSTITUENTS

Biochemical Constituents  
Enzymes  
Polyphenolic Compounds  
Amino-acids  
Phosphate Esters, Nucleotides and Caffeine  
Carbohydrates  
Lipids  
Chlorophyll and Carotenoids  
Volatile Compounds  
Biochemical Changes during Leaf Processing  
Withering  
Rolling  
Fermentation  
Development of Aroma  
Changes in Carotenes and Fatty Acid  
Firing  
Biochemical Basis of Tea Quality

#### 6. PHARMACOLOGICAL PROPERTIES

Pharmacological Actions  
Pharmacological Aspects Associated with Tea Consumption  
Cardiovascular System  
Cancer  
Tea and Dental Health  
Tea and Fluid Replenishment  
Gastrointestinal System  
Skin and Topical wound Healing Activity  
Antimicrobial Action  
Angiogenesis Inhibition  
Absorption of Tea Flavonoids  
Potential Health Concerns Associated with Tea Consumption  
Tea and Iron Absorption  
Conclusion

#### 7. IMPORTANCE OF BLACK TEA

Composition and Chemistry of Tea  
Pharmacological Properties of Tea  
Antioxidative Effects of Tea  
Modulation of Metabolizing/Detoxifying Enzymes

Modulation of Immune Function  
Antimutagenic Activity  
Anticarcinogenic Activity  
Prevention of Coronary Heart Disease  
Germicidal and Antiviral Activity  
Regulation of Intestinal Microflora  
Prevention of Dental Caries  
Conclusion

## 8. TAXONOMICAL PROPERTIES

Tea Varieties  
(1) The China variety  
(2) The Assam Variety  
(3) The Cambod Variety  
Biology of the Plant  
Phasic and Vegetative Growth  
Tea Flowers and Reproductive Phase  
Dormancy  
Longevity  
Tea Gene Pool  
Cytotaxonomy and Chromosome Numbers  
Wild Populations of Tea  
Germplasm Collection

## 9. SELECTION, POLLINATION AND PROPAGATION

Development of Seed Varieties  
Vegetative Propagation and Development of Clones  
Selection for Yield and Quality  
Hybridisation  
Interspecific Hybridisation  
Polyploid Breeding  
Mutation Breeding  
Tissue Culture and Genetic Engineering  
Breeding Strategies  
Seed and Clone  
Techniques of Vegetative Propagation and Clonal Selection  
The Nucleus Plot  
Manuring of Mother Bushes  
Type of Cuttings  
Time of Taking Cuttings  
Nursery Bed and Shade  
Use of Hormone in V.P.  
Clonal Selection Procedure  
Mother Bush Selection  
Technique of the Seed Bari and Grafting  
Bringing into Bearing  
Collection  
Sorting  
Storage and Transport  
Upgrading a Seed Bari (Seed Nursery)  
Vegetative Propagation (V.P.)  
The Mother Bush  
The Nucleus Plot  
Taking Cuttings  
Setting the Cutting

## 10. CHARACTERISTICS OF SOIL BIOLOGY

Origin and Characteristics of Tea Soils

Soil: Physical Properties

The Basis of Soil Nutrition

Soil Acidity

Soil Physical Properties

Soil Texture

Soil Aggregate

Soil Compactness

Soil Management for Tilt

(a) Drainage

(b) Land Levelling

(c) Cultivation

(d) Lime or Dolomite Applications

(e) Soil Improvement

Soil Biology

Physical Environment

Rainfall

Temperature

Humidity

Wind Speed

Day Length

## 11. NUTRITIONAL REQUIREMENTS

Nutrient Composition of the Tea Plant

Assimilation of Various nutrients by Parts of the Plant

Individual Nutrients

Nitrogen

Basis of Nitrogen Absorption and Uptake

Sources of Nitrogen

Determination of Quantity for N: K ratio

Phosphorus

Increasing Phosphate Efficiency

Phosphate Uptake and Mycorrhiza

Phosphate Solubilising Microorganisms

Rock Phosphate: Amendments

Interactions of Phosphorus with Other Nutrients

Fertiliser with Soluble Phosphorus

Potash

Potassium Reactions in the Soil

Potassium in Growth Stages of Tea

Factors Affecting Potassium Uptake

Potassium Interactions

Nitrogen: Potash interactions

Interaction with Other Nutrients

Collateral Effects of Potassium

Sulphur

Sulphur Containing Fertilisers

Zinc

Other Micronutrients

Organic Fertilizers

Nutrition and Crop Quality

Deficiency Symptoms

## 12. GROWTH, PHOTOSYNTHESIS AND RESPIRATION

Carbon Input; Sink Source Ratio  
Limitation of CO<sub>2</sub> Assimilation  
CO<sub>2</sub> Assimilation and Light Limitation  
Regulation of Photosynthesis  
Regulation of Photosynthesis by Transport and Partitioning  
Effect of Leaf Age on Photosynthesis  
Photorespiration and Dark Respiration  
Dry Matter Partitioning and Productivity

### 13. NURSERY MANAGEMENT

Nursery Management  
Planting  
Land Preparation  
Planting Density  
Field Planting  
Planting Operations  
Bringing up of Young Tea and Bush Formation

### 14. THEORY OF PRUNING, PLUCKING AND MAINTENANCE FOLIAGE

Theory of Pruning  
Types of Pruning  
Collar Pruning  
Medium Pruning  
Top or Light Pruning  
Lung Pruning  
Skiffing  
Choice of Pruning System  
Tipping  
Shoot Growth  
Leaf and Bud Dynamics  
Plucking  
Plucking System  
Plucking Standard  
Plucking Interval  
Plucking and Maintenance Foliage  
(1) Pruning: definitions  
(2) Requirements before Pruning  
(3) Pruning Administration  
(4) Factors Affecting Pruning Time  
(5) Crop Distribution  
(6) Pruning Cycles

### 15. HISTORICAL PERSPECTIVE OF SHADE TREES

Historical Perspective of Shade Problem  
The Genesis of Shade Problem  
Effect of Shade per se  
Shade and Light Intensity  
Shade and Tea Leaf Temperature  
Effect of Shade Trees on Light Climate  
Shade and Partition of Growth  
Shade Effect on Quality of Made Tea  
Current Perspective  
Sylviculture of Shade Trees  
Mixture of Shade Tree Species  
Intimate Mixtures

- (a) Square Planting
- (b) Triangular Planting
- Non-Intimate Mixtures
- (1) Tea and Shade Square Planted
- Spacing of Shade
  - (i) Suggested Spacings
  - (ii) Planting of Shade Trees
- Propagation of Shade Trees
- 16. WATER THEORY
- Theory of Drainage
- Approach to Drainage Problem
- Problems in Tea Areas
- Models of Drainage Systems and Water-table
- Objective of Drainage
- Diagnosis of Drainage Problems
- A. Growth Pattern
- B. Physical Indicators of Waterlogging
- Outline of the Drainage
- Designing the Main Drain
- The Field Drains and Removal of Surface Water
- The Drainage System
- Construction of Drains
- Pipe Drainage
- Rationale of Irrigation
- Parameters of Irrigation
- Irrigation Requirement: Net and Gross Irrigation Requirements
- Irrigation Frequency
- Scheduling of Irrigation
- Rainfall Deficit
- Types of Irrigation
- Irrigation Efficiency
- Significance of Irrigation in Total Water Management
- Soil Conservation
- Criteria for Water Relation Between Soil and Tea Plants
- Moisture
- Soil Water
- Moisture Extraction Pattern by Tea Roots
- Effect of Drainage and Irrigation
- Weed Effect
- Effects of Weeds on Tea
- Biology of Weeds
- Weed Reproduction
- Weed Density
- Growth
- Dispersal of Weeds
- Weed Dispersal
- Methods of Weed Control: The Manual Aspect
- Chemical Weed Control
- Herbicides in Tea
- Herbicide Mixtures
- Application Technology
- Perspectives on Weed Management
- Common Weeds of Tea

A. Dicotyledonous or Broad Leaved Weeds

B. Monocotyledonous and Grass Weeds

Outline of Weed Control

Manual Control

Mechanical Control

Chemical Weed Control

Preplanting Control of Thatch

Additives for Herbicides

Herbicide Mixtures 'Cocktails'

Weed Control Outside the Tea Area

Equipment

Climatic Factors Affecting Weedicide Application

Safety Precautions

Herbicide Damage to Tea

## 17. DISEASES OF SEEDS AND CUTTINGS

Diseases of Tea Seeds and VP Nursery diseases

Leaf Diseases

Stem Diseases

Root Diseases

Strategies for Controlling Diseases

Outline of Disease Control

Leaf Diseases

Root Diseases

Secondary Stem Diseases

## 18. PESTICIDE MANAGEMENT

Crop Losses

Mite Phytophagy

Defoliators

Sap Feeding Insects

Root Damaging and Soil-borne Pests

Pests of Shade Tree and Ancillary Crops

Leaf and Petiole Eaters

Stem Borers

Seasonal Abundance of Pests

Pesticide Specifications for Tea

Pesticides: Applications and Management

Management of Pesticide Residues

Strategies in Pest Management

Outline of Pest Control

Mite Damage

Insect Attacks

Young Tea Sick or Dying

New Flush Stunted

## 19. BENEFICIAL IN CANCER

Lifestyle and Diet in Cancer

Effect of Tea in Animal Systems

Prevention of Cancer in Man

Effects of Tea on the Incidence of Human Cancer

Interaction of Genetic Actions in Carcinogenesis in Humans

## 20. CANCER PREVENTION

Cancer—an Overview

Cancer and the Intrinsic Defense Machinery of the Host: A Tug-of-War

Why Cancer Therapy Fails

Dietary Therapy

Why Tea?

Tea and Its Constituents - A Historic view

Hypothesis

(1) Direct Effect of Tea in Tumor Regression

(2) Indirect Effect of Tea in Cancer Prevention: Tea-induced Tumor Regression by Rejuvenation of Host's

Intrinsic Defense Machineries

Conclusion

## 21. OXIDATIVE DEGRADATION OF PROTEIN

Materials and Methods

Results

Discussion

## 22. BIOLOGICAL EFFECT OF POLYPHENOLS

Biological Effects

Chemoprevention

An Overview

## 23. PREVENTING BONE LOSS

Functions of Marketing

Promotional Techniques

The Product Concept

The Sales Process

## 24. ANALYSIS OF TEA

Analysis of Green Tea Leaf

Sampling

Polyphenols

Determination of Total Polyphenols

Separation and Identification of the Individual Polyphenols

Determination of Flavonol Glycosides

Determination of Flavylogens

Determination of Phenolic Acids

Amino Acids

Carbohydrates

Chlorophyll

Carotenoids

Minerals

Enzymes

Analysis of Manufactured Black Tea

Traditional Methods

Alkaloids

Polyphenols

Separation of the Polyphenols

Analysis of Theaflavins and Thearubigins

Determination of Total Tannin

Cream

The Aroma Complex

Analysis of Instant Tea

## 25. TEA PROCESSING

Types of Tea

Brief Outline of Tea Manufacturing Process

Withering

Rolling

Fermentation/Oxidation

Drying  
Sorting and Grading  
Storage and Packaging  
Tea Manufacturing Process Flow Diagram-CTC  
CTC  
Orthodox  
Withering  
Rolling  
Fermentation/Oxidation  
Drying  
Sorting and Grading  
Storage and Packaging  
Tea Manufacturing Process Flow Diagram-Orthodox  
Tea Manufacturing Process  
Quality Control  
Oolong Tea  
Oolong Tea Process  
White Tea  
Source of Technology  
Machinery and Equipment  
CTC Tea Processing  
26. GREEN TEA PROCESSING  
Green Tea Ingredients  
Green Tea Processing  
Pan Firing or Steaming  
Rolling  
Drying/Firing  
Sorting/Grading/Packing  
Tea Manufacturing Process Flow Diagram - Green Tea  
Machinery and Equipment  
Green Tea Processing (Moroccan Type)  
27. TEA BAGS  
Tea Bag Processing  
Tea Bag Filter Papers  
Non-Heat Sealable Filter Papers  
Heat Sealable Filter Papers  
Withering  
Rolling  
Drying  
Milling  
Blending  
Measuring  
Tea Bag Assembly  
Tea Manufacturing Process Flow Diagram - Tea Bag  
Process of Tea Bag Manufacturing  
Machinery and Equipment  
28. MACHINERY & EQUIPMENT FOR CTC TEA/  
ORTHODOX TEA/OOLONG TEA/TEA BAGS  
1. Withering  
Axial Flow & Centrifugal Fans  
Technical Data  
Centrifugal Fans (Hot Air, Induced Draft and Fermenting Fans)  
Technical Data

Direct Fired Oil/Gas Heaters

## 2. Rolling

Rotovanes (Rolling Solutions For CTC Tea)

Technical Data

Sifter-CTC Machines

Technical Data

Balanced Green Leaf Sifter

'Rotomax' Rolling Tables for Orthodox Tea

## 3. Fermenting/Oxidation

Continuous Fermenting Machines (The Ideal Fermenting Solution)

Technical Data

## 4. Drying

Fluidized Bed Tea Dryers

Technical Specification

Advanced Conventional Tea Dryers

Technical Specifications

Indirect Fired Coal/LECO/Firewood Heaters

(The Most Efficient Solid Fuel Based Indirect Fired Heaters for the Tea Industry)

Technical Specifications

Chain Grate Stokers

Technical Specification

Ghoogie

## 5. Sorting & Grading

'Fibro' Slow Speed Fibre Extractor

(Horizontal Design Vibratory Sifter & Grader for Tea)

Vibro Screen Sorter

(Vertical Design Vibratory Sifter & Grader for Tea)

Pulverizer

Powdering Machine for Tea

## 6. Packaging

Range of Packaging Machine (Menu Driven Computerized Pneumatically Controlled)

Vertical Form-Fill-Seal Machines

Pillow Pack FFS Machines for Granules

Technical Specification

Tea Bag Packaging Machine

Technical Specification

## 28. MACHINERY & EQUIPMENT FOR CTC TEA/TEA/ OOLONG TEA/ TEA BAGS

## About NIIR

**NIIR PROJECT CONSULTANCY SERVICES (NPCS)** is a reliable name in the industrial world for offering integrated technical consultancy services. NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our various services are: Detailed Project Report, Business Plan for Manufacturing Plant, Start-up Ideas, Business Ideas for Entrepreneurs, Start up Business Opportunities, entrepreneurship projects, Successful Business Plan, Industry Trends, Market Research, Manufacturing Process, Machinery, Raw Materials, project report, Cost and Revenue, Pre-feasibility study for Profitable Manufacturing Business, Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Business Opportunities, Investment Opportunities for Most Profitable Business in India, Manufacturing Business Ideas, Preparation of Project Profile, Pre-Investment and Pre-Feasibility Study, Market Research Study, Preparation of Techno-Economic Feasibility Report, Identification and Section of Plant, Process, Equipment, General Guidance, Startup Help,

Technical and Commercial Counseling for setting up new industrial project and Most Profitable Small Scale Business.

NPCS also publishes various process technology, technical, reference, self employment and startup books, directory, business and industry database, bankable detailed project report, market research report on various industries, small scale industry and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by professionals including project engineers, information services bureau, consultants and project consultancy firms as one of the input in their research.
