Everyone wants to do something that gives them chance to earn more money and it is possible by becoming an entrepreneur. Starting your own business is one of the few remaining paths to wealth. Entrepreneurship is one of the critical decisions to be made and it involves number of risk and has its own advantages also. But the charm of being a master of you is always above any other form of work. To start your own venture you have to decide on many things. Making a choice of the right project is a difficult decision for an entrepreneur and is an imperative decision. For the reason that rest of the challenges for setting up a business is based on the type of the product and fund to invest. It is necessary for the entrepreneur to have qualities like ability to plan, maintain good public relation, reasonable risk taking capacity and of course have adequate financial resources. The first step towards setting up an industry is the identification of product and feasible product line after a thorough study of the market for the product, its demand and supply position, peoples changing attitudes, competition in the line, method of distribution etc. In both developed and developing countries, the Government is turning to small and medium scale industries and entrepreneurs, as a means of economic development and a veritable means of solving problems. It is a seedbed of innovations, inventions and employment. You do not need to be a genius to run a successful small business, but you do need some help. And that is exactly what this book is, a guide into the stimulating world of small business ownership and management.

## Startup India Stand up

Our Prime Minister unveiled a 19-point action plan for start-up enterprises in India. Highlighting the importance of the Standup India Scheme, Hon'ble Prime minister said that the job seeker has to become a job creator. Prime Minister announced that the initiative envisages loans to at least two aspiring entrepreneurs from the Scheduled Castes, Scheduled Tribes, and Women categories. It was also announced that the loan shall be in the ten lakh to one crore rupee range.

A startup India hub will be created as a single point of contact for the entire startup ecosystem to enable knowledge exchange and access to funding. Startup India campaign is based on an action plan aimed at promoting bank financing for start-up ventures to boost entrepreneurship and encourage startups with jobs creation.

Startup India is a flagship initiative of the Government of India, intended to build a strong ecosystem for nurturing innovation and Startups in the country. This will drive sustainable economic growth and generate large scale employment opportunities. The Government, through this initiative aims to empower Startups to grow through innovation and design.

What is Startup India offering to the Entrepreneurs?

Stand up India backed up by Department of Financial Services (DFS) intends to bring up Women and SC/ST entrepreneurs. They have planned to support 2.5 lakh borrowers with Bank loans (with at least 2 borrowers in both the category per branch) which can be returned up to seven years.

PM announced that “There will be no income tax on startups’ profits for three years”

PM plans to reduce the involvement of state government in the startups so that entrepreneurs can enjoy freedom.

No tax would be charged on any startup up to three years from the day of its establishment once it has been approved by Incubator.

This book is meant to help new entrepreneurs in product identification along with market survey studies, cost estimation, profitability calculation and various other aspects. Although guidance is available from the various promotional agencies, consultants etc., the initiative and zeal for setting up of industrial ventures must come from the entrepreneur himself. Some fundamentals of the book are market potential, basis and presumptions, implementation schedule, technical aspects, process of manufacture, quality control and standards, plant economics of various projects like auto miniature lamp, gold plating on metallic optical frames and jewelry, hockey sticks, multipurpose computer centre for IT enabled services/ cyber cafe etc.

The identification of a suitable project within the investment limit of a new entrepreneur is very difficult. This book offers you to choose from many businesses which you can start with Rs. 1500,000. The present book strives to meet this specific entrepreneurial need. Undoubtedly, this book is a gateway leading you to become your own boss.

## Contents

### 1. Aluminium Seal for LPG Cylinder

Introduction

Market potential

Basis and presumptions

Implementation schedule

Technical aspects

Process of manufacture

Quality control and standards

Plant economics

### 2. Auto Miniature Lamp

Introduction

Market potential

Basis and presumptions

Implementation schedule

Technical aspects

Manufacturing process

Pollution control

Energy conservation

Additional information

Plant economics

### 3. Automobile Silencer

Introduction

Market potential

Bright days ahead

Basis and presumptions

Implementation schedule

Technical aspects

Process of manufacture

Quality control and standards

Pollution control

Energy conservation

Plant economics

### 4. Bicycle Rims

Introduction

Bicycle rims

Implementation schedule

Notes

Machinery required

Market potential

Manufacturing process

Plant economics

### 5. Engine Mounting - Rubber Bonded

Introduction

Market potential

Basis and presumptions

Implementation schedule

Notes

Technical aspects

Process of manufacture

Plant economics

### 6. Gold Plating on Metallic Optical Frames and Jewellery

Introduction

Market potential

Decorative

Industrial uses

Basis and presumptions

Implementation schedule

Technical aspects

Process of manufacture

Preparation of the bath

Quality control and standards

Pollution control

Plant economics

### 7. Hard Chrome Plating

Introduction

Market potential

Basis and presumptions

Implementation schedule

Technical aspects

Process of manufacture  
Sequence of operation  
Quality control and standards  
Production capacity  
Motive power  
Pollution control  
Energy conservation  
Plant economics

#### 8. Hockey Sticks

Introduction  
Market potential  
Basis and presumptions  
Implementation schedule  
Notes  
Technical aspects  
Manufacturing process  
Quality control and standards  
Production capacity  
Plant economics

#### 9. Loud Speakers

Introduction  
Market potential  
Basis and presumptions  
Implementation schedule  
Technical aspects  
Process of manufacture  
Quality control and standards  
Production capacity  
Pollution control  
Energy conservation  
Additional information  
Plant economics

#### 10. L.T. Power Capacitor

Introduction  
Market potential  
Basis and presumptions  
Implementation schedule  
Notes  
Technical aspects  
Process of manufacture  
Quality control and standards  
Production capacity  
Pollution control  
Energy conservation  
Additional information  
Plant economics

#### 11. Multi-Purpose Computer Centre for IT Enabled Services/ Cyber Caf  

Introduction  
Market potential

Basis and presumptions  
Implementation schedule  
Notes  
Technical aspects  
Process of manufacture  
Production capacity  
Quality control and standards  
Pollution control  
Energy conservation  
Additional information  
Plant economics

## 12. Ophthalmic and Sun Photochromatic Glasses

Introduction  
Market potential  
Basis and presumptions  
Implementation schedule  
Notes  
Technical aspects  
Process of manufacture  
Quality control and standards  
Plant economics

## 13. Raw and Processed Spices

Introduction  
Market potential  
Basis and presumptions  
Implementation schedule  
Technical aspects  
Process of manufacture  
Quality control and standards  
Production capacity  
Pollution control  
Energy conservation  
Plant economics

## 14. Regulated D.C. Supplies

Introduction  
Market potential  
Basis and presumptions  
Implementation schedule  
Notes  
Technical aspects  
Process of manufacture  
Quality control and standards  
Production capacity  
Pollution control  
Energy conservation  
Additional information  
Plant economics

## 15. Thermometers (upto 150OC)

Introduction  
Market potential  
Basis and presumptions  
Implementation schedule  
Notes  
Technical aspects  
Process of manufacture  
Quality control and standards  
Production capacity  
Pollution control  
Plant economics

#### 16. Transformer and Coils (for Electronic Applications)

Introduction  
Market potential  
Basis and presumptions  
Implementation schedule  
Notes  
Technical aspects  
Process of manufacture  
Production capacity  
Pollution control  
Energy conservation  
Additional information  
Plant economics

#### 17. TV Tuners (Turret Type)

Introduction  
Market potential  
Basis and presumptions  
Implementation schedule  
Notes  
Technical aspects  
Process of manufacture  
Quality control and standards  
Production capacity  
Pollution control  
Energy conservation  
Additional information  
Plant economics

#### 18. Uninterrupted Power Supply (UPS)

Introduction  
Market potential  
Implementation schedule  
Notes  
Technical aspects  
Process of manufacture  
Quality control and standards  
Production capacity  
Pollution control  
Energy conservation  
Additional information

Plant economics  
Addresses of Present Manufacturers

19. Wind Cheater  
Introduction  
Market potential  
Basis and presumptions  
Implementation schedule  
Technical aspects  
Process of manufacture  
Quality control and standards  
Production capacity  
Pollution control  
Energy conservation  
Plant economics

20. Wire Wound Resistors  
Introduction  
Market potential  
Basis and presumptions  
Implementation schedule  
Notes  
Technical aspects  
Process of manufacture  
Quality control and standards  
Production capacity  
Pollution control  
Energy conservation  
Additional information  
Plant economics

21. Addresses of Raw Materials, Machinery / Equipments Suppliers

## About NIIR

**NIIR PROJECT CONSULTANCY SERVICES (NPCS)** is a reliable name in the industrial world for offering integrated technical consultancy services. NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our various services are: Detailed Project Report, Business Plan for Manufacturing Plant, Start-up Ideas, Business Ideas for Entrepreneurs, Start up Business Opportunities, entrepreneurship projects, Successful Business Plan, Industry Trends, Market Research, Manufacturing Process, Machinery, Raw Materials, project report, Cost and Revenue, Pre-feasibility study for Profitable Manufacturing Business, Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Business Opportunities, Investment Opportunities for Most Profitable Business in India, Manufacturing Business Ideas, Preparation of Project Profile, Pre-Investment and Pre-Feasibility Study, Market Research Study, Preparation of Techno-Economic Feasibility Report, Identification and Section of Plant, Process, Equipment, General Guidance, Startup Help, Technical and Commercial Counseling for setting up new industrial project and Most Profitable Small Scale Business.

NPCS also publishes various process technology, technical, reference, self employment and startup books, directory, business and industry database, bankable detailed project report, market research report on various industries, small scale industry and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by professionals including project engineers, information services

bureau, consultants and project consultancy firms as one of the input in their research.

Our Detailed Project report aims at providing all the critical data required by any entrepreneur vying to venture into Project. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.
