The Complete Technology Book on Polymers with Processing & Applications

Author: NIIR Board of Consultants & Engineers
Format: Paperback
ISBN: 8178330105
Code: NI181
Pages: 560
Price: Rs. 1,100.00 **US$** 29.73
Publisher: Asia Pacific Business Press Inc.
Usually ships within **5** days

Polymers are the most rapidly growing sector of the materials industry. No wonder polymers are found in everything from compact discs to high tech aerospace applications. The Indian plastic and polymer industry has taken great strides. In the last few decades, the industry has grown to the status of a leading sector in the country with a sizable base. The material is gaining notable importance in different spheres of activity and the per capita consumption is increasing at a fast pace. Continuous advancements and developments in polymer technology, processing machineries, expertise and cost effective manufacturing is fast replacing the typical materials in different segments with plastics. Monomers and polymers are of little or no practical use until the raw product from the manufacturing process been transformed by more or less standardized fabrication and processing techniques into useful forms. There are different methods of processing of polymers for solid; molding, extrusion, calendaring, sheet forming, laminating and impregnating and for liquids and melts; coating, expanding or foaming, casting, spinning, laminating and impregnating. Plastics are divided into thermosetting and thermoplastic materials. Compression and transfer molding are the two main methods used to produce molded parts from thermosetting plastics; however, injection molding is under development and may become important in future. Plastic foams are from a wide variety of polymers have a wide range of applications and are made by a variety of methods depending upon the polymer and the application. Elastomers are indispensable to our modern civilization, without them two of largest industries; transportation and electrical, would never have attained their present state of development. The reason why plastics are popular is that they may offer such advantages as transparency, self lubrication, light weight, flexibility, economy in fabricating and decorating. Properties of plastics can be modified through the use of fillers, reinforcing agents and chemical additives. Polymer Energy system is an award winning, innovative, proprietary process to convert waste plastics into renewable energy. On the basis of value added, Indian share of plastic products industry is about 0.5% of national GDP.

Some of the fundamentals of the book are modified natural products, synthetic condensation products, melamine formaldehyde resins, aniline formaldehyde resins, miscellaneous amino plasts, sulfonamide formaldehyde resins, polyesters, saturated polyesters, linear polycarbonates, unsaturated polyesters, polymerized oils, synthetic addition products, aliphatic hydrocarbons and derivatives polyethylene, powder technology for coating of plastics, acrylic and polyurethane dispersions in industrial coatings for plastics, water borne coatings for plastics

adhesion of water borne coatings on plastics, fabricating and processing, cold bending, hot bending, stretch forming, plug and ring forming, slip forming, drawing

die pressing, roto forming, veneering, post forming, fluid pressure forming, vacuum forming methods, pressure forming methods, laminating and impregnating etc.

Three factors are essential for any successful processing of polymers, namely materials, machinery and process control. Polymers have importance in manufacturing of various domestic and industrial products.

This book is an invaluable resource to new entrepreneurs, technocrats, researchers, professionals etc.

Contents

POLYURETHANES
SILICONES
POLYOXYMETHYLENES
POLYOXYETHYLENES
EPOXY RESINS
THIOPLASTS
FURAN RESINS
4. SYNTHETIC ADDITION PRODUCTS
ALIPHATIC HYDROCARBONS AND DERIVATIVES POLYETHYLENE
High-Pressure Process
Low-Pressure Process
Irradiated Polyethylene
Chlorosulfonated Polyethylene
POLYTETRAFLUOROETHYLENE
POLYCHLOROTRIFLUOROETHYLENE
POLYPROPYLENE
POLYBUTENES
Butyl Rubber
POLYSULFONES
POLY(VINYL ACETATE)
POLY(VINYL ALCOHOL)
POLY(VINYL CETALS)
POLY(VINYL AND VINYLIDENE ETHERS)
POLY (VINYL KETONES AND ALDEHYDES)
POLY(VINYLIDENE CHLORIDE)
VINYLIDENE CHLORIDE COPOLYMERS
POLYACRYLONITRILE
Vinylidene Cyanide
ALIPHATIC DIENES
Polyisoprene
POLYCHLOROPRENE
POLYBUTADIENE
Butadiene-Acrylonitril Copolymers
Butadiene-Styrene Copolymers
AROMATIC VINYL COMPOUNDS
Polystyrene
POLY(A-METHYL STYRENE)
POLY (VINYL TOLUENES)
POLY(DIVINYL BENZENES)
HETEROCYCLIC VINYL COMPOUNDS
poly(N-vinyl carbazole)
POLY(N-VINYL PYRROLIDONE)
POLY(VINYL PYRIDINES)
CYCLIC UNSATURATED COMPOUNDS
Coumarone-Indene Resins
POLYCYCLOPENTADIENE
POLYTERPENES
5. POWDER TECHNOLOGY FOR COATING OF PLASTICS
WHY POWDER COAT PLASTICS
EFFECT OF COSMIC RADIATION
RESISTANCE TO MECHANICAL WEAR
ELECTRICAL PROCESSING CHARACTERISTICS
IMPROVING WEATHER RESISTANCE

Ion Exchange
Adhesives, Coatings, and Films
ADHESIVES
COATINGS
FILMS
ELASTOMERS

About NIIR

NIIR PROJECT CONSULTANCY SERVICES (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our various services are: Detailed Project Report, Business Plan for Manufacturing Plant, Start-up Ideas, Business Ideas for Entrepreneurs, Start up Business Opportunities, entrepreneurship projects, Successful Business Plan, Industry Trends, Market Research, Manufacturing Process, Machinery, Raw Materials, project report, Cost and Revenue, Pre-feasibility study for Profitable Manufacturing Business, Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Business Opportunities, Investment Opportunities for Most Profitable Business in India, Manufacturing Business Ideas, Preparation of Project Profile, Pre-Investment and Pre-Feasibility Study, Market Research Study, Preparation of Techno-Economic Feasibility Report, Identification and Section of Plant, Process, Equipment, General Guidance, Startup Help, Technical and Commercial Counseling for setting up new industrial project and Most Profitable Small Scale Business.

NPCS also publishes varies process technology, technical, reference, self employment and startup books, directory, business and industry database, bankable detailed project report, market research report on various industries, small scale industry and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by professionals including project engineers, information services bureau, consultants and project consultancy firms as one of the input in their research.

Our Detailed Project report aims at providing all the critical data required by any entrepreneur vying to venture into Project. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.

NIIR PROJECT CONSULTANCY SERVICES , 106-E, Kamla Nagar, New Delhi-110007, India. **Email**: npcs.india@gmail.com **Website**: NIIR.org
