Citrus fruits are produced all around the world. They contain healthy nutrition content that works wonders for the body. Citrus fruits act as a fabulous source of vitamin C and a wide range of essential nutrients required by the body. India only represents a mere 4% of global citrus fruit production. But now a day, there is a rise in its cultivation. This rise in citrus production is mainly due to the increase in cultivation areas & the change in consumer preferences towards more health & convenience food consumption & the rising incomes. Citrus fruits have long been valued as part of a nutritious and tasty diet. The flavours provided by citrus are among the most preferred in the world, and it is increasingly evident that citrus not only tastes good, but is also good for people. It is well established that citrus and citrus products are a rich source of vitamins, minerals and dietary fiber (non starch polysaccharides) that are essential for normal growth and development and overall nutritional well being. However, it is now beginning to be appreciated that these and other biologically active, non nutrient compounds found in citrus and other plants (phytochemicals) can also help to reduce the risk of many chronic diseases. Appropriate dietary guidelines and recommendations that encourage the consumption of citrus fruit and their products can lead to widespread nutritional benefits across the population. All citrus fruit is acid fruit. The acid fruits are the most detoxifying fruits and excellent foods. Lemon oil is obtained from the fruits of citrus Limonum, Risso (Rutaceae). Although the majority of commercially available essential oils are extracted from the original botanical material by use of steam distillation, most citrus essential oils are extracted by pressing the rinds of the citrus fruits. The oil of sweet orange is obtained from the fruits of citrus Aurantium Risso and the oil of bitter orange from fruits of citrus Bigaradia Risso (Auranciacae). Orange Essential Oil is energizing and is usually well loved by men, women and children. Citrus fruit oils are cheaper than most other essential oils. Lemon or sweet orange oils that are obtained as by products of the citrus industry are even cheaper.

Some of the fundamentals of the book are botanical classification, classification of genus citrus, criteria for citrus classification, information on important citrus fruits, subgenus fucitrus (edible citrus fruits), citrus cultivation, citrus fruits, kinnow mandarin, citrus fruit breeding, soil inspection for citrus family, nutrition for citrus world, proper harvesting of citrus, post harvesting of citrus fruits, etc.

This handbook on citrus fruits provides relevant information on most citrus crops, the basics of citiculture & production, pre & post harvest management, picking, storage etc. Selected topics on oil extraction of citrus fruits are also given to provide knowledge of the techniques used. This book will be helpful for technocrats, farmers, research scholar, institutions etc.

Contents

Contents
1. Botanical Classification
   Classification of Genus Citrus
   Criteria for Citrus Classification
   Different Classification
   Subgenus Eucitrus (10 Species)
   Subgenus 2. Papeda (6 Species)
   Subgenera 1. Archicitrus (5 Sections, 98 Species)
   Subgenera 2. Meta Citrus (3 Sections, 46 Species)
   Others of Somewhat Doubtful Classification
   Information on Important Citrus Fruits
   Subgenus Fucitrus (Edible Citrus Fruits)
   Acid Group
   Citrus Medica Linn. (Citron)
   Citrus Lemon Burm (Lemon)
   Citrus Aurantifolia Swingle (Acid Lime)
   Citrus Latifolia Tanaka (Tahiti or Persian Lime)
   Citrus Limettioides Tanaka (Sweet Lime)
   Citrus Jambhiri Lush (Rough Lemon; Jambiri)
   Citrus Limetta Risso (Limetta of the Mediterranean)
   Citrus Karna Raff (Kharna Khatta)
   Citrus Limonia Osbeck (Rangpur Lime)
   Citrus Pennivesiculata Tanaka (Gajanimma)
   Orange Group
   Citrus Aurantium Linn (Sour, Bigarade or Soville Orange)
   Citrus Sinensis Osbeck (Sweet Orange)
   Citrus Myrtifolia Raffinesque
   Citrus Bergemia Risso (Bargmot Orange)
   Citrus Natsudaidai Hayata
   Pumelo-Grapefruit Group
   Mandarin Group
   Citrus Reticulate Blance (loose skinned orange or Santra of India)
   Citrus Unshiu M (Satsuma Mandarin)
   Citrus Deliciosa Tenore
   Citrus Nobiis Loureio (King Mandarin)
   Citrus Reshni Tanaka (Spice Mandarin)
   Citrus Medurensis Lou (Calamondin)
   Citrus Madaraspatana Tanaka
   Subgenus Papeda : (Inedible Citrus Fruits)
   Eupapeda Citrus
   Citrus Macroptera (Metanewsian Papeda)
   Papeda Citrus
   Citrus Ichangensis
   Citrus Iatipes (Khasi Papeda)
   Kumquats
   Fortunella Margarita Swingle (Nagami or Oval Kumquat)
   Fortunella Japonica Swingle (Marumi or Round Kumquat)
   Fortunella Crassiflora Swingle (Meiwa Kumquat)
   Fortunella Bindsii Swingle (Hong Kong wild Kumquat)
   Poncirus Trifoliata L. (Trifoliate Orange)
   Citrus Relatives
   Aegle Marmelos Linn. (Bael)
   Feronia Limonia (Linn) Swingle (Wood apple)
2. Citrus Cultivation
Sweet Oranges
   Citrus Sinensis Osbeck
   Batavian
   Hamlin
   Jaffa
   Malta Blood Red
   Mosambi
   Pineapple
   Sathgudi
   Shamouti
   Valencia Late
Washington Navel Oranges
Mandarin Oranges
   Citrus Reticulata B.
   Calamondin (Citrus Madurensis Lou)
   Cleopatra (Spice Tangerine) C. reshni T.
   Coorg Orange
   Dancy Tangerine
   Desi Mandarin (Pathankot)
   Khasi Orange
   King Mandarin
   Kinnow Mandarin
   Nagpur Santra
   Satsuma Orange (C. unshiu M.)
   Temple Mandarin
   Lemon C. limon Burm
   Eureka Lemon
   Lisbon Lemon
   Lucknowseedless
   Hill Lemon (Galgal) C. pseudolimon Tanaka
   Malta Lemon
   Meyer Lemon
   Napali Oblong
   Villafranca
   Lime
   Acid Lime (Citrus aurantifolia Swingle)
   Tahiti (Persian) Lime (C latifolia Tanaka)
   Rangpur Lime (Citrus Limonia Osbeck)
   Sweet Lime (Citrus Limettioides Tanaka)
   Pummelo (C. Grandis Osbeck)
   Nagpur (Chakotra)
   Grapefruit (C. Paradisi Macf)
   Duncan
   Foster
   Marsh Seedless
   Ruby
   Shaharanpur Special
   Thompson (Pink Marsh)

About NIIR

NIIR PROJECT CONSULTANCY SERVICES (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

NPCS also publishes varies process technology, technical, reference, self employment and startup books, directory, business and industry database, bankable detailed project report, market research report on various industries, small scale industry and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by professionals including project engineers, information services bureau, consultants and project consultancy firms as one of the input in their research.
