

# Herbal Soaps & Detergents Handbook

**Author:** H. Panda

**Format:** Paperback

**ISBN:** 9789381039007

**Code:** NI53

**Pages:** 536

**Price:** Rs. 1,275.00    **US\$** 125.00

**Publisher:** NIIR PROJECT CONSULTANCY SERVICES

Usually ships within **5** days

The use of herbs for medicinal and cosmetic purpose goes back to the ancient times. The emphasis at the present hour has been laid on the spectacular growth of the herbal and ayurvedic products. The demand in past is found to have increased with increase in number of middle class population. People are now a days very much aware of the ingredients in cosmetic products, the benefits of plant products and the harmful effects of chemical ingredients. The presence of artificial and chemical ingredients in cosmetic products has made people to rethink about suitable alternatives to suit their personal care regime. The herbal products have finally made their appearance in packaged form in the domestic markets, as cosmetics and personal care preparation such as soaps, shampoos, detergent bars, liquid soaps, liquid detergents, etc. These products play a vital role in our sense of well being and quality of life. The herbal soaps and detergents directly influence our emotions and can trigger moods. These creations not only protect the skin from harmful sun radiations but also leave behind a pleasant fragrance. Due to the increasing awareness and importance of cleanliness and healthiness, the use of herbal products is also increasing. Future demand for herbal products depends upon the per capita rate of consumption and segment of population using these products. This handbook provides detailed information on the manufacturing process of herbal soaps and detergents. This book contains numerous formulae, manufacturing process of different type of soaps and detergents which are used in day to day life. The book is an unique compilation and will be very helpful to all its readers, new entrepreneurs, professionals, beauty care product manufacturers, existing units, technical institutions, etc.

## Contents

### CONTENT

Soaps and Detergents

Soaps

Synthetic Detergents

Physical Properties of Soap

Viscosity

Specific heat

Latent heat

Density of soap

66% Rule

Salt distribution between curd and lye

Glycerol distribution between curd and lye

Rate of drying of soap

## Uses

Raw Materials

Classification of Fats/Oils

Fatty Oils are Further Classified as  
Colour

Availability of oils for Soapmaking

Saponification Value

Iodine Value

Free fatty acids

Titre

Fatty acids containing—OH and —CO  
groups, hydroxy and keto-stearic acids

Characteristics of individual Oils

Rice bran oil

Sal

Castor oil

Coconut oil

Linseed oil

Mowrah

Kusum oil

Neem oil

Acid oils

Karanja Oil

Palm Oil

Plam kernel oil

Tallow

Rosin

Other indigenous oils

Abbreviations of Fatty Acids

Fatty Acid Isomers

Pre-Treatment and Upgradation of oils and fats

Introduction

Techniques for Upgrading Oils

De-gumming

Earth bleaching

Air bleaching

Chemical bleaching

Hydrogen peroxide

Benzoyl peroxide

Chlorine

Sodium chlorite or chlorate

Hydrogenation

De-odorisation

Formulation of oil Blends for Soaps

Introduction

Choice of oils and fats

Iodine value, titre and fatty acid composition

Facilities for upgrading oils

Toilet Soaps

FA Composition of Toilet Soap

Typical Oils Blends for Toilet Soap (Compositions %)

Non Fatty Raw Materials for Soap

The Alkalis  
Soap Builders  
Filler  
Stabilizers, Antioxidants  
Other Additives (Foam Producers)  
Foaming Agents Used in Soap  
Solvents  
Medicaments/Deodorants/Bacteriostatic agents  
Clarifiers  
Colouring Matters  
Preparation of Colours  
Water Soluble  
Oil Soluble  
Alcohol Soluble  
Milled Soaps  
For a batch of 100 kg. soap colour required is  
Full-boiled/Semi-boiled/cold-made Soaps  
The oil soluble colours recommended are  
Soap Bases and Liquid Soaps  
Popular shades and the colours used to obtain them are  
Washing/Laundry Soaps  
Medicated Soaps  
Perfumes  
(Comprehensive Details)

Synthetic Odourous Chemicals  
Fixatives

Raw Materials : Herbal Products

Acacia arabica

A. indica Benth

Parts Used : Bark, gum, leaves, seeds, pods.

Acalypha Indica

(N.O. - Euphorbiaceae)

ANDROPOGON MURICATUS. Retz. or A. Squarrosus

Angelica (Angelica archangelica)

Anise (Pimpinella anisum)

Associated Oil

AZADIRACHTA INDICA

Basil (Ocimum basilicum)

BALSAMODENDRON MUKUL, HOOK. or B. agollocha

Parts Used - Gum

BALSAMODENDRON MYRRHA

(N.O. Burseraceae)

Parts Used : Gum from the bark of the tree

Bay (Laurus nobilis)

Associated Oils

Benzoin (*Styrax benzoin*)  
 Associated Oils  
 Bergamot (*Citrus bergamia*)  
 Birch (*Betula lenta*)  
 Associated Oils  
 Calendula (*Calendula Officinalis*)  
 Associated Oil  
 Caraway (*Carum carvi*)  
 Cardamom (*Elettaria cardamomum*)  
 CITRUS MEDICA, Linn  
 (N.O.—Rutaceae)  
 Carrot Seed (*Daucus carota*)  
 Caulophyllum Inophyllum  
 Cedarwood (*Cedrus species*)  
 Cinnamon (*Cinnamomum zeylanicum*)  
 Associated Oils  
 Clary Sage (*Salvia sclarea*)  
 Associated Oils  
 Celery (*Apium graveolens*)  
 Chamomile, German  
 (*Matricaria recutita*, formerly *M. chamomilla*)  
 Associated Oils  
 Coriander (*Coriandrum sativum*)  
 Curculigo orchioides Gaertn  
 (N.O.—Amaryllidaceae)  
 Ayurvedic Properties  
 CURCUMA LONGA, Linn  
 (N.O.—Scitamineae)  
 Associated Oil  
 Cypress (*Cupressus sempervirens*)  
 Eucalyptus (*Eucalyptus globulus*)  
 Associated Oils  
 Fennel (*Foeniculum vulgare*)  
 Associated Oil  
 Fir (*Abies alba* and other species)  
 Associated Oils  
 Associated Oils  
 FICUS RELIGIOSA LINN  
 (N.O. Moraceae)  
 Parts Used : Bark, Fruit, Root  
 Ayurvedic Properties  
 Galbanum (*Ferula galbaniflua*)  
 Associated Oils  
 Geranium (*Pelargonium graveolens*)  
 Associated Oil  
 Ginger (*Zingiber officinale*)  
 Associated Oil  
 Helichrysum (*Helichrysum angustifolium*)  
 Hyssop (*Hyssopus officinalis*)  
 Associated Oil  
 Inula, Sweet (*Inula graveolens*, or *I. odorata*)  
 Associated Oil  
 HEMIDESMUS INDICUS, R. BR.,

Asclepias pseudosarsa, var. latifolia  
 (N.O. Asclepiadaceae)  
 Jasmine  
 (Jasminum officinale and J. grandiflorum)  
 Associated Oil  
 Juniper (Juniperus communis)  
 Associated Oils  
 Labdanum (Cistus labdaniferus)  
 Associated Oils  
 Lavender (Lavandula angustifolia, previously L. vera and L. Officinale)  
 Associated Oils  
 Lemon (Citrus limon)  
 Associated Oil  
 Associated Oils  
 Lemongrass Cochin (C. flexuosus)  
 Grown in India primarily for isolation of citral  
 Lovage (Levisticum officinale)  
 Marjoram  
 (Origanum marjorana or Marjorana hortensis)  
 Associated Oils  
 Melissa (Melissa Officinalis)  
 Associated Oil  
 Mimosa (Acacia decurrens var. dealbata)  
 Associated Oil  
 Myrrh (Commiphora myrrha)  
 Associated Oils  
 Myrtle (Myrtus communis)  
 Oakmoss (Evernia prunastri)  
 Associated Oil  
 Orange (Citrus sinensis)  
 Associated Oils  
 Orange Blossom (Neroli)  
 (Citrus aurantium var. amara)  
 Associated Oils  
 Patchouli (Pogostemon cablin)  
 Pepper, Black (Piper nigrum)  
 Associated Oils  
 Cubeb (Piper cubeba)—A litsea substitute  
 Peppermint (Mentha piperita)  
 Associated Oils  
**PSORALEA CORYLIFOLIA LINN.**  
 (N.O. Papilionaceae, Fabaceae)  
 Parts Used : Roots, leaves, fruits, seeds  
 Ayurvedic Properties  
 Ravensare (Ravensara aromatica)  
 Rose (Rosa damascena, R. gallica, and others)  
 Associated Oils  
 Rosemary (Rosmarinus officinalis)  
 Associated Oils  
 Rosewood (Aniba rosaeodora)  
 Sage (Salvia officinalis)  
 Sandalwood (Santalum album)

Associated Oil  
Spikenard (*Nardostachys jatamansi*)  
Associated Oils  
SMILAX CHINA  
(N.O. - Liliaceae)  
TERMINALIA CHEBULA RETZ.  
(N.O. Combretaceae)  
Parts Used : Fruit  
Ayurvedic Properties  
TERMINALIA BELERICA ROXB  
(N.O. Combretaceae)  
Parts Used : Fruit (unripe and ripe)  
Ayurvedic Properties  
Healing Power and Curative Properties  
Cough  
Stomach Disorders  
Sore Throat  
Chronic Constipation  
Intestinal Worms  
Eye Disorders  
Other Diseases  
Tea Tree (*Melaleuca alternifolia*)  
Associated Oils  
Thyme (*Thymus vulgaris*)  
Associated Oils  
Thymus vulgaris has many chemotypes  
Tuberose (*Polianthes tuberosa*)  
Vanilla (*Vanilla planifolia*)  
Vetiver (*Vetiveria zizanoides*)  
Violet (*Viola odorata*)  
Associated Oil  
Yarrow (*Achillea millefolium*)  
Ylang-Ylang (*Cananga odorata*)  
Associated Oils

Preparation and Properties of Surface Active Agents from Castor Oil  
Manufacture of Turkey Red Oil  
Preparation of Esters by Alcoholysis

## About NIIR

**NIIR PROJECT CONSULTANCY SERVICES (NPCS)** is a reliable name in the industrial world for offering integrated technical consultancy services. NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our various services are: Detailed Project Report, Business Plan for Manufacturing Plant, Start-up Ideas, Business Ideas for Entrepreneurs, Start up Business Opportunities, entrepreneurship projects, Successful Business Plan, Industry Trends, Market Research, Manufacturing Process, Machinery, Raw Materials, project report, Cost and Revenue, Pre-feasibility study for Profitable Manufacturing Business, Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Business Opportunities, Investment Opportunities for Most Profitable

Business in India, Manufacturing Business Ideas, Preparation of Project Profile, Pre-Investment and Pre-Feasibility Study, Market Research Study, Preparation of Techno-Economic Feasibility Report, Identification and Section of Plant, Process, Equipment, General Guidance, Startup Help, Technical and Commercial Counseling for setting up new industrial project and Most Profitable Small Scale Business.

NPCS also publishes various process technology, technical, reference, self employment and startup books, directory, business and industry database, bankable detailed project report, market research report on various industries, small scale industry and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by professionals including project engineers, information services bureau, consultants and project consultancy firms as one of the input in their research.

Our Detailed Project report aims at providing all the critical data required by any entrepreneur vying to venture into Project. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.
