## Modern Technology of Textile Dyes & Pigments (3rd Edition)

Author:- Dr. H. Panda Format: paperback Code: NI67 Pages: 592 Price: Rs.2575US\$ 225 Publisher: NIIR PROJECT CONSULTANCY SERVICES Usually ships within 5 days

Dyestuff sector is one of the core chemical industries in India. There are two types of colorants dyes and pigments. Dyes are soluble substances used to pass color to the substrate and find applications primarily in textiles and leather. Pigments are coloring materials, which are water insoluble. Key end-user industries of pigments include wood-coloring, stone, textiles, paints & coatings, food and metals. Pigment are usually manufactured as dry colorants and grounded into fine powder. The dyes market, meanwhile, largely depends upon the fortunes of its principal end-user, textiles, which account for about 70 percent of the total demand. Their importance has grown in almost every area of an economic activity.

In the colorants market, Asia-Pacific accounts for the largest share. This region is one of the key markets for dyes and pigments production. In the Asia-Pacific, India and China are the important countries contributing towards the growth of colorants market. Rising consumer spending will drive increased demand for colorants in textiles. Increases in value demand will reflect the growing importance of expensive, higher value dyes and pigments that meet increasingly stringent performance standards. Growing demand for high-quality value-added pigments is one of the key factors expected to result in a spurt in growth.

This book describes the various formulae, manufacturing processes and photographs of plant & machinery with supplier's contact details. The major contents of the book are metal pigments, black pigments, inorganic colour pigments, organic colour pigments, extender pigments, white pigments, photocatalytic activity of titanium dioxide pigment, azo pigments, bisazo pyridine pigments, high grade organic pigments, high temperature stable inorganic pigments, anti corrosive pigments, metals and metal ions in pigmentary systems, control of organic pigment dispersion properties, pigments for plastics, rubber & cosmetics, pigments for printing inks, vat dyes, reactive dyes, disperse dyes, direct dyes and sulphur dyes etc.

It will be a standard reference book for professionals, entrepreneurs, those studying and researching in this important area and others interested in the field of textile dyes & pigments.

## **Table of Contents**

- 1. Metal Pigments
- 2. Black Pigments
- 3. Inorganic Colour Pigments

- 4. Organic Colour Pigments
- 5. Extender Pigments
- 6. White Pigments
- 7. Photocatalytic Activity of Titanium Dioxide Pigment
- 8. Use of Flocculation Gradient in Determining the Efficiency of Titanium Dioxide Utilisation in Paint
- 9. Titanium Dioxide Pigments in Water-reducible and Water soluble vehicles
- 10. Azo Pigments
- 11. Bisazo Pyridone Pigments
- 12. Novel Gold Colours and Effects with Environmentally Safe-to-use Mica Pigments
- 13. Fluorescent Pigments
- 14. High Grade Organic Pigments
- 15. Phthalocyanines
- 16. High Temperature Stable Inorganic Pigments
- 17. New Metal Complex Pigments
- 18. Latest Developments in Organic Pigments for Automotive Finishes
- 19. Preparation of Iron Oxide Pigment from Industrial Waste
- 20. Anti Corrosive Pigments
- 21. An Overview of Aluminium Pigment Technologies
- 22. Metals and Metal Ions in Pigmentary Systems
- 23. Control of Organic Pigment Dispersion Properties
- 24. Advances in the Science and Technology of Pigments
- 25. Pigments for Plastics, Rubber and Cosmetics
- 26. Pigments for Printing Inks
- 27. Vat Dyes
- 28. Reactive Dyes
- 29. Disperse Dyes
- 30. Direct Dyes
- 31. Sulphur Dyes
- 32. How to Start Textile Dyes Business
- 33. Plant Layout Description of Textile Dyes Business
- 34. How to Start Textile Pigment Business
- 35. Plant Layout Description of Textile Pigment Business
- 36. BIS Standards
- 37. Plant Layout
- 38. Photographs of Plant & Machinery with Supplier's Contact Details

## About NIIR

**NIIR PROJECT CONSULTANCY SERVICES (NPCS)** is a reliable name in the industrial world for offering integrated technical consultancy services. NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our various services are: Detailed Project Report, Business Plan for Manufacturing Plant, Startup Ideas, Business Ideas for Entrepreneurs, Start up Business Opportunities, entrepreneurship projects, Successful Business Plan, Industry Trends, Market Research, Manufacturing Process, Machinery, Raw Materials, project report, Cost and Revenue, Pre-feasibility study for Profitable Manufacturing Business, Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Business Opportunities, Investment Opportunities for Most Profitable Business in India, Manufacturing Business Ideas, Preparation of Project Profile, Pre-Investment and Pre-Feasibility Study, Market Research Study, Preparation of Techno-Economic Feasibility Report, Identification and Section of Plant, Process, Equipment, General Guidance, Startup Help, Technical and Commercial Counseling for setting up new industrial project and Most Profitable Small Scale Business.

NPCS also publishes varies process technology, technical, reference, self employment and startup books, directory, business and industry database, bankable detailed project report, market research report on various industries, small scale industry and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by professionals including project engineers, information services bureau, consultants and project consultancy firms as one of the input in their research.

Our Detailed Project report aims at providing all the critical data required by any entrepreneur vying to venture into Project. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.

NIIR PROJECT CONSULTANCY SERVICES, 106-E, Kamla Nagar, New Delhi-110007, India. Email: <a href="mailto:npcs.india@gmail.com">npcs.india@gmail.com</a> Website: <a href="mailto:NIIR.org">NIIR.org</a>
