AN ISO 9001 : 2015 CERTIFIED COMPANY

Author: Dr. H. Panda
Format: paperback
Code: NI67
Pages: 592
Price: Rs 2,575 | US$ 92
Publisher: NIIR PROJECT CONSULTANCY SERVICES
Shipping: 5 days

About the Book

Dyestuff sector is one of the core chemical industries in India. There are two types of colorants dyes and pigments. Dyes are soluble substances used to pass color to the substrate and find applications primarily in textiles and leather. Pigments are coloring materials, which are water insoluble. Key end-user industries of pigments include wood-coloring, stone, textiles, paints & coatings, food and metals. Pigment are usually manufactured as dry colorants and grounded into fine powder. The dyes market, meanwhile, largely depends upon the fortunes of its principal end-user, textiles, which account for about 70 percent of the total demand. Their importance has grown in almost every area of an economic activity.

In the colorants market, Asia-Pacific accounts for the largest share. This region is one of the key markets for dyes and pigments production. In the Asia-Pacific, India and China are the important countries contributing towards the growth of colorants market. Rising consumer spending will drive increased demand for colorants in textiles. Increases in value demand will reflect the growing importance of expensive, higher value dyes and pigments that meet increasingly stringent performance standards. Growing demand for high-quality value-added pigments is one of the key factors expected to result in a spurt in growth.

This book describes the various formulae, manufacturing processes and photographs of plant & machinery with supplier's contact details. The major contents of the book are metal pigments, black pigments, inorganic colour pigments, organic colour pigments, extender pigments, white pigments, photocatalytic activity of titanium dioxide pigment, azo pigments, bisazo pyridine pigments, high grade organic pigments, high temperature stable inorganic pigments, anti corrosive pigments, metals and metal ions in pigmentary systems, control of organic pigment dispersion properties, pigments for plastics, rubber & cosmetics, pigments for printing inks, vat dyes, reactive dyes, disperse dyes, direct dyes and sulphur dyes etc.

It will be a standard reference book for professionals, entrepreneurs, those studying and researching in this important area and others interested in the field of textile dyes & pigments.

Contents

Table of Contents

1. Metal Pigments
2. Black Pigments
3. Inorganic Colour Pigments
4. Organic Colour Pigments
5. Extender Pigments
6. White Pigments
7. Photocatalytic Activity of Titanium Dioxide Pigment
8. Use of Flocculation Gradient in Determining the Efficiencyof Titanium Dioxide Utilisation in Paint
9. Titanium Dioxide Pigments in Water-reducible and Water soluble vehicles
10. Azo Pigments
11. Bisazo Pyridone Pigments
12. Novel Gold Colours and Effects with Environmentally Safe-to-use Mica Pigments
13. Fluorescent Pigments
14. High Grade Organic Pigments
15. Phthalocyanines
16. High Temperature Stable Inorganic Pigments
17. New Metal Complex Pigments
18. Latest Developments in Organic Pigments for Automotive Finishes
19. Preparation of Iron Oxide Pigment from Industrial Waste
20. Anti Corrosive Pigments
21. An Overview of Aluminium Pigment Technologies
22. Metals and Metal Ions in Pigmentary Systems
23. Control of Organic Pigment Dispersion Properties
24. Advances in the Science and Technology of Pigments
25. Pigments for Plastics, Rubber and Cosmetics
26. Pigments for Printing Inks
27. Vat Dyes
28. Reactive Dyes
29. Disperse Dyes
30. Direct Dyes
31. Sulphur Dyes
32. How to Start Textile Dyes Business
33. Plant Layout Description of Textile Dyes Business
34. How to Start Textile Pigment Business
35. Plant Layout Description of Textile Pigment Business
36. BIS Standards
37. Plant Layout
38. Photographs of Plant & Machinery with Supplier’s Contact Details

Planning a unit? NPCS project reports:

- Iron Oxide project report
- Printing Ink project report
- Titanium Dioxide project report

- Cosmetics project report

NIIR PROJECT CONSULTANCY SERVICES (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our various services are: Detailed Project Report, Business Plan for Manufacturing Plant, Start-up Ideas, Business Ideas for Entrepreneurs, Market Research, Manufacturing Process, Machinery, Raw Materials, Project Feasibility, Investment Opportunities, Technical Consultancy and Startup Help.

NPCS also publishes process technology books, technical books, startup books, directory, business database, detailed project reports and market research reports.

Our Detailed Project Report aims at providing all the critical data required by entrepreneurs for starting new business ventures.

NIIR PROJECT CONSULTANCY SERVICES
106-E, Kamla Nagar, New Delhi-110007, India
