

Handbook on Printing Technology (Offset, Flexo, Gravure, Screen, Digital, 3D Printing with Book Binding and CTP) 4th Revised Edition

Author: NIIR Board of Consultants & Engineers

Format: Paperback

ISBN: 9788194099505

Code: NI73

Pages: 616

Price: Rs. 1,675.00 **US\$** 150.00

Publisher: Asia Pacific Business Press Inc.

Usually ships within **5** days

Printing is a process for reproducing text and image, typically with ink on paper using a printing press. It is often carried out as a large-scale industrial process, and is an essential part of publishing and transaction printing. Modern technology is radically changing the way publications are printed, inventoried and distributed. Printing technology market is growing, due to technological proliferation along with increasing applications of commercial printing across end users.

In India, the market for printing technology is at its nascent stage; however offers huge growth opportunities in the coming years. The major factors boosting the growth of offset printing press market are the growth of packaging industry across the globe, increasing demand in graphic applications, the wide range of application in various industry, and industrialization. 3D printing market is estimated to garner \$8.6 billion in coming years. The global digital printing packaging market is expected to exceed more than US\$ 40.02 billion by 2026 at a CAGR of 13.9%. Computer-to-plate systems are increasingly being combined with all digital prepress and printing processes.

This book is dedicated to the Printing Industry. In this book, the details of printing methods and applications are given. The book throws light on the materials required for the same and the various processes involved. This popular book has been organized to provide readers with a firmer grasp of how printing technologies are revolutionizing the industry.

The major content of the book are principles of contact (impression), principles of noncontact printing, coated grades and commercial printing, tests for gravure printing, tests for letterpress printing, tests for offset printing, screen printing, application of screen printing, offset lithography, planography, materials, tools and equipments, sheetfed offset machines, web offset machines, colour and its reproduction, quality control in printing, flexography, rotogravure, creative frees printer, shaftless spearheads expansion, digital printing, 3D printing, 3D printing machinery, book binding, computer-to-plate (ctp) and photographs of machinery with suppliers contact details.

A total guide to manufacturing and entrepreneurial success in one of today's most printing industry. This book is one-stop guide to one of the fastest growing sectors of the printing industry, where opportunities abound for manufacturers, retailers, and entrepreneurs. This is the only complete handbook on the commercial production of printing products. It serves up a feast of how-to information, from concept to purchasing equipment.

Contents

1. INTRODUCTION

- History
- Four Major Printing Processes
- Relief Printing Process
- The Process
- Letter Press Printing Process
- Plano Graphic
- Offset
- The Advantages of Offset Printing Include
- Screen Printing Process
- Other Printing Methods
- Digital Printing
- Paper for Printing

2. MODERN PRINTING TECHNIQUES

- Printing (Press Operation)
- Colour Printing
- How a Printing Press Works
- The Latest Technologies in Printing Industry
- Digital Inkjet Printing
- 3D Printing Rise
- Software Innovations
- Hybrid Print Technologies
- Efficient Technology
- Special Printing Technologies
- Basic Principles of Hybrid Printing System
- Hybrid Printing System Concepts of Combining Conventional Printing Technologies
- Hybrid Printing Systems Combining NIP Technologies
- Hybrid Printing Systems Combining Conventional and NIP Technologies
- Hybrid Printing Systems Combining Computer to Press/Direct Imaging with NIP Technologies
- Hybrid Printing Systems Combining Conventional Printing Technologies with Computer to Press Technologies
- Basic Principles of Waterless Offset Printing
- Advantages/Merits of Waterless Printing
- Qualitative Advantages
- Production Advantages
- Ecological Advantages
- Basic Principle of Digital Printing
- Flow Chart of Digital Composition of a Printed Page
- Direct Imaging (with master)
- Computer to Print (without master)
- Scope and Job suitability of Digital Printing Process
- Digital Printing has a very bright future because

- Digital Printing is Suitable for
- Basic Principle of Direct Imaging
- Once Imageable Master (Plate Imaging)
- Re-imageable Master (Surface Imaging)
- 3. PRINCIPLES OF CONTACT (IMPRESSION)
PRINTING PROCESSES
 - Introduction
 - Printing Methods
 - The Printing System
 - Preparatory Sections
 - Halftone Photography
 - Platemaking
 - Printing
 - Binding and Finishing
 - Inks for Letterpress and Lithography
 - Speciality Printing
- 4. PRINCIPLES OF NONCONTACT PRINTING
 - Introduction
 - Impactless printing system for variable printing
 - Summary
- 5. COATED GRADES AND COMMERCIAL PRINTING
 - Coated and Commercial Papers
 - Coating Methods
 - Coating Materials
 - Adhesives
 - Coated Paper Properties and Use
- 6. TESTS FOR GRAVURE PRINTING
 - Introduction
 - Print Smoothness
 - Gravure Print Testing
- 7. TESTS FOR OFFSET PRINTING
 - Introduction
 - Runnability
 - Surface Strength
 - Water Resistance
 - Mechanical Properties
 - Web Runnability
- 8. SCREEN PRINTING
 - Select Correct Screen Printing Fabric
 - An Antistatic Stencil Mesh
 - Screen Printing Frames
 - Stretching Equipment
 - Correct Stretching
 - Adhesives
 - The Manufacture of Diapositives
 - Stencils
 - The Diapositive
- 9. APPLICATION OF SCREEN PRINTING
 - Screen Printing Accessories
 - Stencils
 - Chemicals Used and Formulations
 - Common Faults in Screen Printing
 - Printing Unit

- Automatic Screen Printing Machine
- Screen Printing on Different Surfaces
- Inks for Screen Printing
- 10.OFFSET LITHOGRAPHY
 - Printing Processes
 - Origin and History of Lithography
 - Job Planning
 - Evolution of Offset Printing
 - Offset Machine Construction
 - Pre-Make Ready and Make Ready
 - Setting the Machine for Operation
 - Small Offset
 - Running Problems
 - Colour
 - Rollers
- 11.PLANOGRAPHY
 - Origin of Planography
 - Principle of Planographic Printing
 - Direct Printing Process
 - Offset Printing Process
 - Working Process
- 12.MATERIALS, TOOLS AND EQUIPMENTS
 - Lithographic varnish
 - Acids
 - Turpentine
 - French Chalk
 - Resin
 - Asphaltum
 - Paraffin
 - Driers
 - Sponge
 - Dampening Cloth
 - Vaseline
 - Tools and Equipments
 - Scraper
 - Ink Knife
 - Wrench
 - Proofing Devices
 - Mechanical Features
 - Automatic Proof Presses402
 - Qualities of a Good Proof
- 13. SHEETFED OFFSET PRINTING
 - Names of the machines
 - Mechanical Features
 - Lubrication
 - Sheet feeding mechanism
 - Sheet board
 - Functions of blowers
 - Functions of the blower foot
 - Sheet lifting and forwarding
 - Sheet Controls
 - Sheet Register
 - Sheet Insertion and Transfer

- Inking System
- Distribution System
- Multiroll System
- Wash-up device
- Adjustment of Rollers
- Different Dampening Systems
- Cleaning of Dampeners
- Construction of the machine
- Working on the cleaning machine
- Plate Cylinder
- Blanket Cylinder
- Impression Cylinder
- Adjustment of Cylinders
- Advantages of Both Principles
- Delivery Mechanism
- Anti-setoff Spray
- Miscellaneous Operations
- 14. WEB OFFSET PRINTING
 - Driving Mechanism
 - Printing Units
 - Main Parts of Printing Unit
 - Inking System
 - Delivery Unit
 - Folding Unit
 - Ancillary Operations by Delivery Unit
- 15. COLOUR AND ITS REPRODUCTION
 - Terminology Related to Colour
 - Mixing and Matching of Colors
 - Sequence of Colours in Printing
- 16. QUALITY CONTROL IN PRINTING
 - Before Printing
 - During Printing
 - After Printing
- 17. FLEXOGRAPHY
 - Flexography
 - Flexographic Platemaking
 - Photochemical Change
 - Rotary Principle
 - Rubber Plates
 - Substrates
 - Paper and Board
- 18. ROTOGRAVURE
- 19. DIGITAL PRINTING
 - Introduction
 - Digital Printing
 - Important Things We Should Know About Digital Printing
 - Types of Digital Printing
 - 1. Inkjet Printer
 - 2. Laser Printer
 - Important Features of Laser Printer
 - Advantages of Digital Printing
 - Benefits of Digital Printing Design & Printing
 - 1. Cheaper Printing

- 2. High quality
- Difference between Screen Printing and Digital Printing
- Screen Printing
- Digital Printing
- Comparison between Digital Printing and Press Printing
- Digital Printing
- Press Printing

20. 3D PRINTING

- Introduction
- History of 3D Printing
- How Does 3D Printing Work?
- Technology
- 3D Printing Applications
- 1. Medical and Dental
- 2. Aerospace
- Complex Designs
- Weight Reduction
- Improved Strength and Durability
- Major Savings
- 3. Automotive
- 4. Jewellery
- 5. Art/Design/Sculpture
- 6. Architecture
- 7. Fashion
- 8. Food

Benefits of 3D Printing

Advantages of 3D Printing in Manufacturing

- 1. 3-D Printers are Becoming More Affordable
- 2. Quicker Turnaround Times for Prototyping
- 3. Quicker Product Launches
- 4. Competitive Advantage
- 5. Reduction in Manufacturing Errors
- 6. Complex Geometries
- 7. Mass Customization
- 8. Less Tooling
- 9. Fewer Costs
- 10. Environmentally Friendly

Benefits of 3D Printing in Healthcare

What Materials do 3D Printers Use?

- 1. Plastics
- (a) Nylon (Polyamide)

Features

- (b) PLA Filament

Features

- (c) ABS Filament

Features

- (d) PVA Filament

2. Powders

3. Resins

Features

4. Other Materials

How do the Different 3D Printing Technologies Work?

- 1. Fused Deposition Modeling (FDM)

How does FDM Work?

Materials for FDM

ABS (Acrylonitrile Butadiene Styrene)

ABSi (Acrylonitrile Butadiene Styrene – Biocompatible)

ABS-M30 (Acrylonitrile Butadiene Styrene)

ABS-M30i (Acrylonitrile Butadiene Styrene – Biocompatible)

PC (Polycarbonate)

ABS-ESD7 (Acrylonitrile Butadiene Styrene – Static-Dissipative)

PC-ABS (Polycarbonate ABS)

PC-ISO (Polycarbonate ISO)

Ultem 9085

2. Stereolithography and Digital Light Processing (SLA & DLP)

3. Selective Laser Sintering (SLS)

4. Material Jetting (PolyJet and MultiJet Modeling)

5. Binder Jetting

6. Metal Printing (Selective Laser Melting and Electron Beam Melting)

Electron Beam Melting

Characteristics

Selective Laser Melting Applications

7. PolyJet Photopolymer

Benefits of Polyjet

Realistic Finish

Greater Choices

Multiple Materials and Colors

Polyjet Materials

1. Digital Materials

2. Digital ABS

3. High Temperature

Wide Range of Applications

4. Transparent

3D Print Clear and Tinted Prototypes

3D Printing With Transparent Material

3D Print Translucent Shades and Patterns

Wide Range of Applications

5. Rigid Opaque

6. Polypropylene-like

3D Print Tough, Flexible Models

7. Bio-compatible

3D Print Medical Devices

3D Printing With Bio-compatible Material

8. Rubber-like

3D Print Flexible, Soft-touch Models

3D Printing With Rubber-like Material

8. Syringe Extrusion

9. Other Methods

3D Printing is a Game Changer

21. 3D PRINTING MACHINERY

Airwolf AW3D HD

SLA 3D Printing Machine

3D Printing Machine

Makerbot Replicator

Dual Head 3D Printer

Prototyping Machine

Flashforge Finder
3D Systems Cube
3D Jet
Formlabs

22. BOOK BINDING

Terms and Techniques
Cutting & Folding
Folded Sheet or Section Binding
Book Binding Methods
Perfect Binding
Hardcover/Case Binding
Saddle Staple (Fold, Staple, Trim) Binding
Wiro Binding
Automatic Book Binding Machine
Programmable Logic Controllers (PLC)
Perfect Book Binding Machine
Disc Perfect Binding Machine
Perfect Binding Line
Thread Book Sewing Machine Semi Automatic

23. COMPUTER-TO-PLATE (CTP)

CTP Technologies
Regulatory Requirements
Plate Development
Visible Laser Plates Using Silver Halide
Thermal Laser Plates Using Ablation
Plate Making Process Steps
Temperature Control for Computer to Plate Technology
Process
Platesetter Cooling
Plate Processor Cooling
CTP Technology in Offset Printing
Digital Plate Setter UV CTP Machine

24. PROCESS FLOW DIAGRAMS & LAYOUTS

25. PHOTOGRAPHS OF MACHINERY WITH SUPPLIER'S

CONTACT DETAILS

Single Color Offset Printing Machine
Two Color Satellite Offset Printing Machine
Offset Printing with Numbering and Perforating Machine
Web Offset Printing Machine
Color Screen Printer
Flatbed Screen Printer
Automatic Sheetfed Offset Printing Machine
Sheetfed Offset Machine
Mini Offset Printing Machine
Flexographic Printing Machine
Label Master Flexographic Printing Press
Poly Offset Printing Machines
Prepress Equipments
Flip Top Printing Down Frame Single/Double Sided Machine
Instant Start Metal Halide Plate Exposure
Plate Coating Whirler
Plate Curing Equipment
Damper Roller Washer

Vertical Process Camera
3M Plate Processor
Computer-to-Screen Exposure System
IGP Plate Processor
Screen CTP System
Inkjet CTP System (Computer to Plate Machine)
Rotogravure Printing Machine
4 Hi Tower (Automatic)
3 Colour + Stack Unit (Manual)
Finishing System
UV Inkjet Digital Printing System
Perfecting Production System
Tape Binder
High Light Color System
Color Printer

Digital Color Press
Manual Offset Printing Machine

About NIIR

NIIR PROJECT CONSULTANCY SERVICES (NPCS) is a reliable name in the industrial world for offering integrated technical consultancy services. NPCS is manned by engineers, planners, specialists, financial experts, economic analysts and design specialists with extensive experience in the related industries.

Our various services are: Detailed Project Report, Business Plan for Manufacturing Plant, Start-up Ideas, Business Ideas for Entrepreneurs, Start up Business Opportunities, entrepreneurship projects, Successful Business Plan, Industry Trends, Market Research, Manufacturing Process, Machinery, Raw Materials, project report, Cost and Revenue, Pre-feasibility study for Profitable Manufacturing Business, Project Identification, Project Feasibility and Market Study, Identification of Profitable Industrial Project Opportunities, Business Opportunities, Investment Opportunities for Most Profitable Business in India, Manufacturing Business Ideas, Preparation of Project Profile, Pre-Investment and Pre-Feasibility Study, Market Research Study, Preparation of Techno-Economic Feasibility Report, Identification and Section of Plant, Process, Equipment, General Guidance, Startup Help, Technical and Commercial Counseling for setting up new industrial project and Most Profitable Small Scale Business.

NPCS also publishes various process technology, technical, reference, self employment and startup books, directory, business and industry database, bankable detailed project report, market research report on various industries, small scale industry and profit making business. Besides being used by manufacturers, industrialists and entrepreneurs, our publications are also used by professionals including project engineers, information services bureau, consultants and project consultancy firms as one of the input in their research.

Our Detailed Project report aims at providing all the critical data required by any entrepreneur vying to venture into Project. While expanding a current business or while venturing into new business, entrepreneurs are often faced with the dilemma of zeroing in on a suitable product/line.

NIIR PROJECT CONSULTANCY SERVICES , 106-E, Kamla Nagar, New Delhi-110007, India. **Email:** npcs.india@gmail.com **Website:** NIIR.org
