

## Niir Project Consultancy Services

Company Address: 106-E, KAMLA NAGAR, New Delhi-110007, India.

Tel: 91-11-23843955, 23845886

Mobile: +91 9097075054, +91 8800733955

Fax: 91-11-23845886 Email : npcs.india@gmail.com

Email : info@niir.org Website: www.niir.org , www.entrepreneurindia.co

| S No. | Project Name  | Project Cost | Rate of Return |
|-------|---|--------------|----------------|
| 1     | ALKYD RESINS Based on DCO   |              |                |
| 2     | Alkyd Resins Based On CNSL  |              |                |
| 3     | Alkyd Resins Based On Tobacco Seed Oil  |              |                |
| 4     | Alkyd Resins Based On Khardi Oil  |              |                |
| 5     | Alkyd Resins Based On Cotton Seed Oil   |              |                |
| 6     | Alkyd Resins Based On Coconut Oil   |              |                |
| 7     | Alkyd Resins Based On DBL (Double Boiled Linseed Oil)   |              |                |
| 8     | Alkyd Resins Based On Linseed Oil   |              |                |
| 9     | Modified Alkyd Resin based on Styrene modified  |              |                |
| 10    | Modified Alkyd Resin based on Vinyl modified  |              |                |
| 11    | Modified Alkyd Resin based on Silicone modified   |              |                |
| 12    | Modified Alkyd Resin based on Tall oil fatty acid (TOFA) modified   |              |                |
| 13    | Modified Alkyd Resin based on Linseed oil fatty acid (LOFA) modified  |              |                |
| 14    | Modified Alkyd Resin based on Amines modified   |              |                |
| 15    | Modified Alkyd Resin based on Acrylic modified  |              |                |
| 16    | Modified Alkyd Resin based on Rubber emulsion modified  |              |                |
| 17    | Phenolic Resins Novolac type  |              |                |
| 18    | Phenolic Resins Resole type   |              |                |
| 19    | AMINO RESINS (Urea Formaldehyde/ Melamine Formaldehyde) Liquid  |              |                |
| 20    | AMINO RESINS (Urea Formaldehyde/ Melamine Formaldehyde) Solid   |              |                |
| 21    | Water Soluble Resin based on Amino resins   |              |                |
| 22    | Water Soluble Resin based on Alkyd resin  |              |                |
| 23    | Water Soluble Resin based on Malenised oil  |              |                |
| 24    | Water Soluble Resin based on Acrylic modified alkyd resin   |              |                |
| 25    | Water Soluble Resin based on Polyester resin  |              |                |
| 26    | Water Soluble Resin based on Acrylic modified polyester resin   |              |                |
| 27    | Water Soluble Resin based on Silicone modified polyester resin  |              |                |
| 28    | Water Soluble Resin based on Acrylic resin  |              |                |
| 29    | Water Soluble Resin based on Epoxy resin  |              |                |
| 30    | Water Soluble Resin based on Silicone resin   |              |                |
| 31    | Decorative Laminates,Decorative Laminate Sheets (Sunmica Type)  |              |                |
| 32    | Resin Capsules  | -            |                |
| 33    | PVC Resin Suspension Grade  | -            |                |
| 34    | PVC Resin Emulsion Grade  | -            |                |
| 35    | PVC Resin Emulsion Grade  | -            |                |
| 36    | Hexamethoxymethyl Melamine (HMMM)   | -            |                |
| 37    | Vinyl Ester Resin   | -            |                |
| 38    | PVC Resin   | -            |                |
| 39    | Unsaturated Polyester Resin (General Purpose)- Detailed Project Report, Business Plan for Manufacturing Plant | -            |                |
| 40    | PVC Resin K-65 Value- Detailed Project Report, Business Plan for Manufacturing Plant                          | -            |                |
| 41    | Epoxy (Hardener & Resin)- Detailed Project Report, Business Plan for Manufacturing Plant                      | -            |                |
| 42    | PVC Suspension Resin- Detailed Project Report, Business Plan for Manufacturing Plant                          | -            |                |

| S No. | Project Name  | Project Cost | Rate of Return |
|-------|---|--------------|----------------|
| 43    | Epoxy Resin and Hardener for External Coating of Pipes- Detailed Project Report, Business Plan for Manufacturing Plant  | -            |                |
| 44    | VFA (Vinyl Formamide)- Detailed Project Report, Business Plan for Manufacturing Plant                                   | -            |                |
| 45    | Epoxy Hardener for Meena Work and Lamination on Bangles- Detailed Project Report, Business Plan for Manufacturing Plant | -            |                |
| 46    | PLA Resin from Sugarcane- Detailed Project Report, Business Plan for Manufacturing Plant                                | -            |                |
